American Railroad Journal.

New York, Saturday, January 3, 1874.

Union Pacific Railroad.

The Government Directors of the Union Pacific Railroad have presented their report to the Secretary of the Interior. They say that during the month of September, the entire line was visited and examined by two of the directors, and that the result was in many respects gratifying. The road is in excellent condition, and has improved since the annual report of 1872 was made. Several large cuts are being widened, and the earth removed is used to fill trestles. Sixty miles of new iron have been laid. The value of the engines owned by the road is $1,682,500. The value of the rolling stock is $1,923,250. The report recommends new buildings for the road at Ogden. A list of the water stations on the line is given, from which it appears they are 75 in number, averaging one to every 13¼ miles of road between Omaha and Ogden. Seven of the stations are supplied by Artesian wells, the aggregate cost of which was $52,113 74. At seven stations the water supplied is self-feeding, that twenty eight wind-mills are used for raising water. At thirty-eight stations steam power is used, and at one the supply is raised by hand.

The gross earnings of the road for the year ending June 30, 1873, were $9,633,965, an increase over the preceding year of $1,680,950. The net earnings for the year were $4,935,965. A large increase in both the gross and net earnings is anticipated for the next year. The floating debt of the company is about $2,000,000 mostly, incurred in aiding new connecting and branch roads. A statement of the business relations of the Union Pacific with each of these other roads is given in the report. The new developments which the building of the road has caused, are instanced by the statement that within twelve miles of Salt Lake City, eleven furnaces are engaged in the reduction of ores containing precious metals, and more than thirty similar furnaces are in operation throughout Utah Territory, which have been established since the building of the Pacific Railroad.

Of the land granted to the company by the United States, to aid in constructing its road and telegraph line, there has been sold up to Oct. 1, 1873, an aggregate of 799,788 71-100 acres, at an average price of $4 50 per acre, or a total of $3,598,869 19. The original issue of land grant bonds was for 10,400,000 acres. Through the sales of land there had been, on the 1st of September, 1873, 1,389,000 of these bonds entered, leaving an outstanding balance, at that date, of 9,011,000 acres. The land granted will, beyond reasonable doubt, ultimately retire the whole issue of land grant bonds and leave a considerable surplus in the hands of the company.

Several difficulties have arisen in relation to the lands of the company. In the State of Nebraska the lands have been placed on the tax lists of the counties in which they lie. The company has enjoined the collection, and the decision of the courts will undoubtedly be with the company with respect to the lands, the titles to which have not passed from the United States to the company. The matter will then stand in this singular position: The Government has stopped certifying lands to the company. The company is selling uncertified lands to settlers and others, at prices averaging $4 50 per acre. Some of the lands thus sold are paid for in the land grant bonds of the company. The bonds when thus received are canceled, and the debt of the company reduced in a corresponding amount. Some are sold for part of the price paid in cash, with the balance on time, bearing interest. In either case the company gets a present pecuniary benefit. Yet the lands thus sold cannot be taxed. The report suggests that some remedy be provided for this anomalous case, and it points out as one remedy that until the Government decides upon its permanent policy relative to the certification of lands to the company, that all lands which have been, or may hereafter be, sold in good faith, shall be certified to the company, in order that the titles to purchasers may be made complete, and the lands become subject to taxation. This action by the Government would favor the sales of lands, and expedite the improvement of the country.

The report recommends a more liberal management of the affairs of the company, especially in the freight department, as calculated to increase the gross earnings of the road, which, in a short time, may be made to reach $12,000,000 annually. The directors think this may be brought about in the space of two years. When this point shall have been reached it is not difficult to see that the company will be competent to protect fully the interests of the Government.

Cleveland, Mt. Vernon and Delaware R. R.

The Pittsburg *Chronicle*, of December 24th, says that at a meeting of the Pennsylvania Company, operating a number of railroads west of Pittsburg, the Cleveland, Mount Vernon and Delaware Railroad, which has just been completed from Hudson to Columbus, the controlling interest in which was owned by the Pennsylvania Railroad Company, and which has been controlled as an independent concern, was formally turned over to the company, and will hereafter be operated by the P., C. and St. L. Railway.

The object of this purchase is to give the Pennsylvania Company a western connection with Cleveland. This they have not had heretofore over lines controlled by the company. They have had a western connection with Toledo, but travel east of that point toward St. Louis would naturally take the Lake Shore and Michigan Southern route.

The new road purchased, extending from Hudson to Columbus, is 145 miles long. At Hudson it connects with the Cleveland and Pittsburg Railroad, and at Columbus it makes direct connection with St. Louis. The distance by the new route, which this will give, from Cleveland to St. Louis, is 597 miles. The distance from Cleveland to St. Louis by the Lake Shore and Michigan Southern route is 636 miles. This makes the new route 39 miles

shorter, and gives the most direct communication between Cleveland and St. Louis.

New York, New Haven and Hartford R. R.

The directors of the New York, New Haven and Hartford Railroad Company respectfully submit the following report of the business and condition of the company for the fiscal year, terminating September 30th, 1873.

Income:

From transportation of passengers		$2,899,163 15
From transportation of freight		1,468,578 48
From transportation of mails and express		182,141 43
From interest		151,352 49
		$4,701,235 55

Expenses:

Repairs of road and renewals	$539,811 19	
Repairs of bridges	70,997 29	
Repairs of buildings	89,659 79	
Repairs of fences	2,665 63	
Repairs of engines	186,055 91	
Repairs of passenger and baggage cars	169,973 80	
Repairs of freight cars	102,194 35	
Repairs of tools and machinery	15,540 50	
Coal and wood for engines	273,518 40	
Oil	23,246 44	
Waste	10,739 17	
General expenses	108,212 41	
Wages and incidentals chargeable to passenger department	504,744 61	
Wages and incidentals chargeable to freight department	422,357 03	
Switchmen & signalmen	96,424 71	
Damages and gratuities	17,612 99	
Insurance and telegraph expenses	7,262 08	
		2,641,016 33
Balance		$2,060,219 22
Deducting taxes	$213,247 85	
Deducting coupon interest	83,168 55	
Deducting *H. and N. H. bonds	37,000 00	
		333,416 40
		$1,726,802 82

* NOTE—Owing to a clerical error in the accounts of the H. & N. H. Railroad Company the consolidated company redeemed $37,000 more of the bonds of the former company on the 1st of January last, than appeared by said accounts to be outstanding. This excess has therefore been deducted from the net earnings of the year.

The resources for the past year, and the disposition of the same, have been as follows:

RESOURCES FOR 1872-3.

Balance of cash assets, Oct. 1, 1872	$3,228,675 40
Materials on hand, Oct. 1, 1872	622,859 35
Materials on hand, S. L. Div. Oct. 1, 1872	142,452 67
General transportation earnings and receipts	4,701,235 55
Bills payable	545,084 48
Bond and mortgage	65,000 00
Real estate, sold Harlem Railroad and others	234,590 00
Contingent account, (assessments, taxes and rents refunded by Harlem Railroad)	138,026 06
Contingent account, (fractional shares)	160 00
Increase current accounts payable	29,057 60
Total resources	$9,707,141 11

PAYMENTS.

For transportation expenses	$2,641,016 33
Coupon interest	83,168 55
Taxes	213,247 85
Hartford and New Haven Railroad bonds paid	617,000 00
Dividends [2 of five per cent each]	1,550,000 00
New engines	90,089 42
Passenger and baggage cars, brakes, platforms, &c.	98,400 00
Freight cars	38,750 00
Tools and machinery, brass foundry, &c.	7,500 00
Westport and Greenwich depots, engine house and turntable, Port Chester	15,000 00
Steel rails [3,4721 tons at cost over $80, price of new iron]	139,648 58
New signal house Hartford	785 64
New shops, Hartford and New Haven	22,116 78
New Haven passenger depot and lands	238,843 10
New lands at Mamaroneck, Meriden and Springfield	83,893 35
Materials for coming season	657,670 18
Materials for coming season, Shore Line Division	106,833 99
Debit balance, Shore Line Division	79,661 80
Cash and due from agents, corporations and others, October 1, 1873	3,023,515 59
Total, as above	$9,707,141 11

DETAILED STATEMENTS OF ITEMS OF CASH ASSETS.

Due from agents	$227,848 42
Due from connecting roads	48,432 33
Due from Hartford, Providence and Fishkill Railroad tunnel account	66,503 45
Advances to Harlem River and Port Chester Railroad	1,894,387 01
Loans and bills receivable	533,874 03
Cash	252,470 35
Total amount	$3,023,515 59

In addition to the above the company owns two thousand shares of its own stock.

The following is an exhibit in condensed form of the business for the past year:

Receipts from transportation, &c.		$4,701,235 55
Transport'n expenses	$2,641,016 33	
Taxes	213,247 85	
Coupon interest	83,168 55	
H. & N. H. R.R. bonds charged to profit and loss	37,000 00	
Net earnings	1,726,802 82	
		$4,701,235 55

The capital expenditure accounts have been increased during the past year $500,437 37 as follows:

Increase in account, cost of road	$416,394 10
Increase in account, equipment	234,739 42
	$651,133 52
Less decrease in account, real estate	150,696 15
Increase as above	$500,437 37

New York, New Haven and Hartford Railroad statistics for the year ending September 30th, 1873:

Miles run by passenger trains	1,143,978
Miles run by freight trains	481,100
Miles run by gravel trains	223,123
Miles run by all the trains	1,848,201
Total number of passengers	3,892,674
Number of passengers moved one mile	122,604,308
Number of tons of freight moved	895,985
Number of tons of freight moved one mile	38,892,498
Number of engines	88
Number of passenger cars	171
Number of mail and baggage cars	59
Number of freight cars	1,074
Number of gravel and other cars	250

SHORE LINE DIVISION.

The receipts on this Division for the year ending September 30th, 1873, have been—

From transportation of passengers	$311,824 13
From transportation of freight	79,026 82
From transportation of mails	7,566 96
From transportation of express, &c.	14,663 72
Total income	$413,081 18

The expenses have been—

For permanent improvements, additions, betterments and repairs other than ordinary repairs	$98,200 00	
For operating expenses	320,322 83	
Paid rent	100,000 00	
		518,522 83
Deficit for the year		$105,441 70

The income of the road for the year terminating September 30th, 1873, was $4,701,235 55, and the net earnings, after payment of transportation expenses, taxes, coupon interest, &c., $1,726,802 82, thus making the net earnings a little more than eleven per cent upon the $15,500,000, capital stock of the company.

The operating expenses of the road for the year are larger in proportion to the gross receipts than they were for the preceding year. This is due mainly to the advance in the price of nearly all materials used in repairs of the road and equipment; to increased terminal expenses in New York city, and to the increased mileage of passenger trains.

In order to meet the demands of the public, it has been deemed necessary to put on several additional passenger trains, which thus far have not yielded a corresponding increase of passenger receipts. The occupation by this company of the new passenger station in New York city has very materially added to the terminal expenses at that point. This item of expense cannot be expected to diminish in the future, but, on the other hand, is likely to increase with the increase of business. It is, however, confidently expected that the saving which can hereafter be made in the repairs of road and bridges will be more than sufficient to offset the increased terminal expenses. The main line of road between New York and Springfield, with the exception of about twelve miles of single track on the Hartford division, is now laid with steel rails. The roadway and bridges are in excellent condition, and can for many years hereafter be maintained and kept in repair at much less cost than heretofore.

During the year 1869 the Harlem River and Portchester Railroad Company entered upon the construction of a parallel and competing line of railroad, with the intention of opening up a new route between New York City and New Haven. They had become possessed of all the necessary legislative authority required in the State of New York, and would beyond doubt, have soon been able to obtain like authority within the State of Connecticut. This enterprise was then in the hands of prominent and wealthy parties. Owing to the pecuniary embarrassments of that company, growing out of the financial troubles of the fall of 1869, an opportunity was furnished your company to take the control and management of this road, then in process of construction. A considerable population, situated between New Rochelle and the Harlem River, were without railroad facilities, and your directors, after careful reflection, became fully convinced that unless these facilities were furnished by this company, by means of the charter of the Harlem River and Portchester Railroad, of which it had become possessed, that a railroad hostile to your interests would have been constructed by other parties, and would have been extended through to New Haven, thus forming a parallel and competing line for all the business between New York and New Haven. The ease with which the bonds of purely speculative railroads were then negotiated, and the facility with which towns and cities, through the flattering exhibits and zealous efforts of contractors and

speculators, could be persuaded to lend their financial aid to almost any new railroad scheme, satisfied your directors that it was their duty, in the interests of the stockholders of your company, to proceed with the construction of that part of the Harlem River and Portchester Railroad between Harlem River and New Rochelle, which is the only section of country, through which the contemplated opposition road was to pass, that was not already supplied with the very best of railroad facilities. For these reasons arrangements were made with the Harlem River and Portchester Railroad Company, by which this company should advance the necessary means to construct a first-class double-track road, with steel rails, from the Harlem River to New Rochelle, and there to connect with the tracks of the New York, New Haven and Hartford Railroad Company. This road is now completed, and trains commenced running over it on the 24th day of November last.

This company has taken a perpetual lease of the road, at a rent which is to be equal to 7 per cent interest upon its cost. The cost of the road with the real estate and extensive wharves and water-rights on the Harlem and East Rivers up to the 30th of September last, was about $2,000,000.

It will require an additional outlay for barges, steam-tugs, &c., to make the new road available as a route for freight between New York City and stations on the main line. Your directors have no reason to expect that this new road will earn more than enough to pay its running expenses for some time to come, and that it will be several years before it can earn sufficient beyond its operating expenses to meet the interest upon its cost. It will be seen, therefore, that the road was not constructed with the idea that it would prove, for the present a source of profit to the old line, but for the purpose of preventing the construction of an opposition line, which, though reasonably certain to become bankrupt, would still have resulted in depriving the old line of all profits upon its business for many years to come.

The new road, however, will enable the company to increase its freighting business between New York and stations on the main line, which could not well be done with only the former entrance into New York.

We have now the shortest and best practical railroad route between New Haven and New York city, with two lines of entrance into the latter city.

But, notwithstanding this, certain adventurers and speculators are at this time organizing another corporation for the purpose of constructing an additional road between New York City and New Haven, within an average distance of one-half of a mile of the present road. As the execution of this scheme must depend upon the negotiation of bonds to an amount sufficient to cover the cost of the road, and as such a road, if constructed, could by no possibility earn sufficient to pay its operating expenses, it is hardly reasonable to suppose that persons either in this country or in Europe, who have money to invest, will, after the lessons taught by the recent financial troubles, risk their capital in an enterprise of this kind, which excels in absurdity any railroad scheme whose worthless bonds have ever been foisted upon a credulous public.

The money used for the construction of the Harlem River and Portchester Railroad has been advanced by the New York, New Haven and Hartford Railroad Company. It is the purpose of your directors to reimburse the treasury for these advances by the avails of $2,000,000 of the first mortgage bonds of the Harlem River and Portchester Railroad Company, guaranteed principal and interest by this company. These bonds are dated October 1st, 1873, bear 7 per cent interest, are payable 30 years from date, and are issued as coupon or registered bonds, at the option of the purchaser.

Your directors with confidence recommend them to stockholders of this company and others seeking investments, as one of the very best securities in the country.

SHORE LINE RAILWAY.

For the fiscal year terminating September 30th, 1873, the ordinary and extraordinary expenses and rent of the Shore Line Railway exceed the gross earnings by the sum of $105,441 70. From the date of the lease to the 30th of September last the apparent loss in operating this road has been $79,661 30. By reference to the report of the New York and New Haven Railroad, in May, 1871, it will be seen that your directors expressed the opinion, that for the first five years of this lease the rent and expenses would exceed the receipts of the road, for the reason that the road, bridges and equipment would require large expenditures, in order to place them in safe and proper condition for such a line. During the past year large expenditures have been made on the road, the most important of which were the following:

Ballasting with gravel a large part of the roadway.

Constructing new approaches to Connecticut River Bridge.

Rebuilding entirely new the long truss bridge at Fairhaven.

Rebuilding nearly all the pile-bridges on the line.

Laying about one-sixth of the line with steel rails.

New freight and passenger stations and water-tank at Saybrook Junction.

In order to make the road what it should be, some further permanent improvements will be required upon this line during the year 1874, but by no means as extensive as those made during the year past. If there is no diminution in the gross receipts of the road, and the usual freedom from accidents continues, we have reason to believe that for the year 1874 the expenditures, including the rent, can be kept within the receipts; and that thereafter the road will yield a moderate annual profit to your company.

CONDENSED BALANCE SHEET, Oct. 1st, 1873.

Cost of railroad		$12,577,627 10
Equipment: engines and cars		2,075,711 42

Treasurer.—JOHN T. SHELTON.

Secretary.—EDWARD I. SANFORD.

General Sup't.—EDWARD M. REED.

Canada Southern Railway.

The directors of the Canada Southern Railway Company have issued the following circular to the bondholders, asking that they fund their coupons up to, and inclusive of, January 1, 1875, into a three years' bond bearing seven per cent interest:

OFFICE CANADA SOUTHERN RAILWAY CO., 13 WILLIAM ST., NEW YORK, Dec. 20, 1873.

To the Bondholders:

Owing to the financial difficulties growing out of the late panic, whereby a large amount of the funds of this company became tied up, and though secure, are now unavailable, and the impossibility of negotiating the securities which are sufficient, at a fair valuation, to meet all the obligations of the company, it becomes necessary to ask the bondholders to fund (in a new bond, having three years to run from Jan. 1, 1874, and bearing seven per cent interest) the three coupons falling due Jan. 1, 1874, July 1, 1874, and Jan. 1, 1875, from each of the company's first mortgage bonds; the exchange to be made by the Union Trust Company of New York, who are to hold in trust the three coupons uncanceled until the interest bond is paid, thereby giving the bondholder all his original security in case of non-payment of the interest bond. The interest on the registered bonds will be arranged in a similar manner, with such variations only as are rendered necessary by the form of the bond.

You will observe that the new bond bears interest from Jan. 1, 1874, although it includes the funding of a coupon due July, 1874, and one due January, 1875, thus offering an average bonus of six months' interest.

The expectations of the managers as to the earnings of the line have not been realized thus far, owing to the delay of nearly a year (beyond their control) in the completion of the International Bridge at Buffalo, New York, which has only been open for traffic within the last month, and unfortunately at a time of general prostration in business. The managers have no reason to change their views heretofore entertained as to the success and ultimate value of the property.

To pay the interest out of the securities of the company at this time could only be done at a ruinous sacrifice, which would still further paralyze its operations. Funding the interest as proposed, thereby leaving in the hands of the company its assets and earnings, will enable it to meet its maturing obligations without sacrifice, and to efficiently work the railway and develop the traffic, and is believed to be for the best interest of all concerned.

For any further information apply at the office of the company, in the City of New York; and for the funding of interest to the Union Trust Company, No. 73 Broadway, New York.

By order of the Board of Directors.

M. COURTRIGHT, President.

☞ The earnings of the Northern Central Railway for the eleven months ending November 30, 1873, were $4,620,004 72; the expenses $3,422,155 38, and the net earnings $1,197,849 34. For the corresponding period of the previous year the earnings were $4,114,240 71, the expenses $3,209,744 18, and the net earnings $904,496 53—showing an increase in earnings of $505,764 01, in expenses of $212,411 20, and in net earnings of $293,352 81.

☞ The Southern Maryland Railroad Company has been awarded the balance ($81,500) of the State appropriation of $163,000 towards internal improvements in St. Mary's county. Forty-two miles of the Southern Maryland Railroad are now graded between the point of its connection with the Baltimore and Potomac Railroad and its southern terminus. This portion, it is said, will be in operation during the summer of 1874.

Lake Superior and Mississippi Railroad.

On the first of May, 1872, the Lake Superior and Mississippi Railroad Company leased their railroad and branches, then fully completed, to the Northern Pacific Railroad Company, for the term of nine hundred and ninety-nine years. The lessees took possession at that date, provided additional rolling stock, and have operated the same ever since, and, under the covenants of the lease have heretofore paid the interest on the first mortgage bonds. The lessees having given notice that they will not pay the interest falling due on the first of January, 1874, propose to surrender the lease. The directors believe it will be best to accept the surrender and resume the management of the road. The non-payment of the rent makes it necessary for the company to provide rolling stock for the efficient operation of the road. This will probably absorb the earnings of three years, and creates a necessity for the suspension of interest during that period. The company propose to issue to the holders of the first mortgage bonds, in payment of the coupons due, for three years from the first of January, 1874, a certificate of indebtedness for the coupons of each year, payable in six years from their maturity, bearing 7 per cent interest, payable annually, from April first of each year, with the condition that no dividend on the stock, interest upon income bonds, or indebtedness for which certificates are now outstanding, shall be paid until the principal and interest of said first mortgage certificates shall be fully paid; and cash payment shall be resumed of the coupons of the first mortgage bonds as they fall due, the coupons thus detached to be placed with the Fidelity Insurance, Trust and Safe Deposit Company of Philadelphia as security for the scrip; the conditions being, that should the Lake Superior and Mississippi Railroad Company fail to pay the interest annually, and principal at maturity, then all unpaid coupons to be returned to holders, with the right to proceed against the company. The net receipts of the company in the past have not been sufficient to meet the interest on bonds, the deficiency having been advanced by the lessees. The directors are now of opinion that the earnings will be sufficient to equip the road and make such improvements as will secure a largely increased income, which, with the revenue from its landed estate, will supply ample means to pay interest in cash after January, 1877, and the coupon scrip as it matures. The proposition is simply to compound the interest for a limited time. For the purpose of considering the foregoing proposition, which is approved and recommended by the trustees, J. Edgar Thomson and Wm. G. Moorhead, a meeting of the first mortgage bondholders is to be held at the Continental Hotel, in this city, on the 14th of January. The gross receipts of the company for the current year, partly estimating for December, are $885,839, against $731,612 in 1872, and $457,702 in 1871.—*Phila. Ledger.*

☞ A bridge is to be built over the Firth of Forth, Scotland, which when completed will be the largest in the world. Edinburgh is separated from direct communication with a large portion of the north of Scotland by the Firth of Forth, which makes a deep indentation in the coast line. The bridge will be 150 feet high, and will have nearly 100 spans. The smaller spans will be larger than those of ordinary bridges—150 feet in width, but the great span in the centre is to be 1,500 feet, or nearly one third of a mile in width. The entire cost of the bridge will be at least ten millions of dollars.

☞ The earnings of the Erie Railway Company for the week ending Dec. 28, 1873, were $435,769, and since Oct. 1, $4,707,115—an increase compared with the corresponding period of the previous year of $77,712.

A new Railway in Canada.

A new railway project was submitted to the members of the Montreal Corn Exchange by Mr. Baylis, President of the Montreal, Chambly and Sorel Railway. When the projected road is built, it will, by connection with United States Railways, give Montreal greatly increased transportation facilities to and from Boston and Portland. The terminal points of this line are at Sorel in the east, and at the Province line. Some miles of it are already constructed and operated. According to Mr. Baylis:—

"The American connection from the Province line would be made by a short line of nine miles to Sheldon, touching there the Portland and Ogdensburg Railway, which has 130 miles of road now running—sixty in Vermont and seventy in Maine and New Hampshire—and there is only ten miles to complete the Notch at the White Mountains, upon which men are now at work, which could be completed in one year. At North Conway there is direct communication with Boston with the Eastern Railroad, through which and its branches there will be direct communication with every seaport east of Boston to St. John, N. B., opening up 1000 miles of railroad under one management."

Mr. Baylis hoped the City of Montreal would subsidize this line to the extent of a quarter million dollars, and that Montreal merchants would help it, as likely to benefit their trade, by taking a hundred thousand dollars worth of stock in it. The Corn Exchange passed a resolution commending the project to the favor and support of the merchants and people of Montreal.

Washington and Ohio Railroad.

The receipts from operations of this road for the years ending September 30, 1872 and 1873, were as follows:

	1872.	1872.
From passengers.....	$36,752 08	$41,998 08
" freight.....	40,960 28	47,602 36
" mails.....	2,812 50	2,250 00
" express.....	760 59	1,032 54
	$81,285 45	$92,882 98
Expenses:		
Repairs of engines.....	$6 180 23	$4,481 25
" cars.....	5,500 40	2,447 49
" bridges.....	6,130 13	4,292 52
" road.....	18,268 11	14,892 24
" depots, etc...	864 25	1,031 85
" tools, etc.....	726 08	718 76
Depot expenses.....	10.923 47	11,155 74
Train expenses.....	18,884 40	20,114 59
Salaries.....	5,833 65	5,470 00
Taxes.....	.....	453 70
Lost goods.....	27 05	42 90
	$73,337 77	$65,096 04
Net earnings.....	$7,947 68	$27,786 94

Of the expenses of 1872, $10,237 68 was for permanent improvements and repairs, and are fairly chargeable as annual. Deducting this amount from the above expenditures, leaves $63,100 09 as the current expenses properly chargeable to that year. Deducting this sum from the receipts as above, will give a net revenue of $18,185 86, and a ratio of expenses to receipts of 77 per cent. In 1873 the ratio of expenses to earnings was 70 per cent. The president, in his report for 1873, says:

A general meeting of the stockholders of the company was held on the 16th of April, 1873, under the provisions of the Code, upon the written call of parties holding more than one-tenth of the capital stock, after thirty days' notice, duly published.

The regular day for the annual general meeting this year would have been on the 5th day of November. This was one day after the general State elections, and the day on which the exhibition of the Loudoun Agricultural Fair commenced. Under these circumstances, it was deemed advisable to postpone the meeting, and to communicate with the stockholders by means of this report, a copy of which will be sent to each of them.

Ever since the execution of the contract of July 2, 1869, the purport of which the stockholders were generally advised of, the president was desirous of being able to report that the road was in course of construction to Winchester, in pursuance of its provisions; but from causes well known to the stockholders, and notwithstanding the strenuous efforts made to induce the parties to that contract to carry out their engagements to that end, nothing has yet been done. This having been fully explained to and understood by the April meeting, it was thought best to elect a new board of directors, in the hope that, under their management, a better state of affairs might be brought about; and that the then existing board would cheerfully co-operate in all proper measures for extending the road to Winchester. Before the meeting in April was held, the president, with the approval of a part of the directors, entered into a contract with W. B. McClure for the grading and masonry of six miles of the road next west of Hamilton, on terms deemed satisfactory. Under this contract, five miles have been completed; but in consequence of a disagreement between our engineer and the contractor, both as to measurements of work and classification of material on these five sections, it was decided to proceed no further under the contract; and in pursuance of its provisions, notice to that effect was duly given to the contractor. Since then, the present board authorized a contract to be made with Adams, Hamner & Co., of Lynchburg, for the grading and masonry of the residue of the line to Winchester, a distance of twenty five miles, on terms considered fair and reasonable; the work to be commenced on the first day of January next, and prosecuted as fast as the means can be provided. It is hoped that the present condition of affairs in the money market will not continue much longer; and that there will soon be a demand for our first mortgage bonds. We have always met our interest promptly—(a *sine qua non* with bond-buyers)—and are able to continue this punctuality—an ability which is increased with every extension of our road. We believe that the people of this vicinity will have confidence in our continuing this regularity of payment in the future, as the receipts from our traffic are sufficient to pay running expenses, and all our interest, both upon our bonded and floating debt.

Immediately after the organization of the present board of directors, steps were taken to negotiate the first mortgage bonds of the company to an amount sufficient to complete the line to Winchester, which we have every reason to think would have proved a success, but for the existing financial crisis, and delays for which others than this company are responsible. We are not without hope of still effecting the negotiation. The best efforts of the board will be continued to that end.

We hope soon to complete the laying of the rails to Purcellville. The price of iron is declining; and, so soon as we can obtain the requisite means, we shall lose no time in doing so, and as at that point we shall get a considerable increase of freight and passenger business, by several important roads centering there, after passing through a very populous and productive country.

Our receipts for the years 1872 and 1873, ending September 30, from passengers, freight, mails, and express, were—

In 1872..... $80,722 95
In 1873..... 92,882 98

During the last year two new bridges were erected—one over the Alexandria Canal, and one over the Washington and Alexandria Turnpike—besides five smaller ones over Four Mile Run, in

the vicinity of Carlin's Spring; and we are about erecting one over Goose Creek, which we hope to have in position during the coming winter.

Our cars now run twice a day into Washington City, by the Washington and Alexandria and the Baltimore and Potomac Railroad, making close connections with trains to Baltimore. The only difficulty we meet with here is the high rate of charge upon heavy freights for the use of the Long Bridge. The matter is, however, beyond our control, and must, of course, be left to those to whom the bridge belongs, the Baltimore and Potomac Company.

The road is in good condition, as is also our rolling stock, which consists of 4 locomotive engines, 7 passenger cars, 3 mail and baggage cars, 27 box cars, 8 gondolas, 25 flats, and 5 stock cars—all except two passenger cars, built in our own shops.

It will doubtless be interesting to the stockholders, as well as to those who hold our bonds, to know how the company stands financially, and whether it would be prudent for parties seeking investments to purchase our securities. We have quietly gone along, hoping that our people in Alexandria and along the line of our road would cooperate with us in the extension of it, not only to Winchester, but to the coal and iron fields, and ultimately to the Ohio River. With the view of disseminating information of the value and importance of our line, we have published two thousand copies of a pamphlet, giving, with much other matter, a glance at the country through which our road is intended to pass. It has been widely circulated, and we trust will do good. The company stands as follows:

First mortgage bonds, A., L. & H. Co.	$47,000
First mortgage bonds, W. & O. Co. 7 per cent gold interest	123,000
Ten-years bonds	4,800
Bills payable	99,915
Due contractors, under contract of July 2, 1869	222,001
Due United States	5,000
Due State of Virginia, (of which $12,454 14 and int. is now payable)	45,500
Due sundry parties	26,977
	$574,173

Against which we offset the following:

Already spent on engineering to the Ohio river, right of way, iron rails, and work done west of Hamilton	$84,450	
Leesburg town bonds and interest due	13,241	
Clarke County bonds	66,700	
		164,391
		$409,782

If all our indebtedness were funded in our mortgage bonds at 80 cents on the dollar, the mortgage on the 44 miles to Hamilton would be a little under $12,000 per mile; and on the completion of the road to Winchester, it would be about $25,000 per mile—perhaps a little less.

We have no doubt that the receipts of the road, on its completion to Winchester, will net sufficient to meet the interest on the bonds to be issued.

The company have 4 locomotives, 7 passenger, 3 mail and baggage, 27 box, 25 flat, 8 gondola and 5 stock cars. The mileage for passenger trains for the year was 54,400; and for freight trains, 29,316.

During the summer of 1872 an arrangement was made with the Alexandria and Fredericksburg Railroad Company for a connection at Swann's with the Washington and Alexandria Railroad whereby passengers and freight were carried to and from Washington without change of cars. During the past summer further arrangements were made by which double daily connections is now had with that city, with convenient arrangements for passengers and their baggage.

The receipts and expenditures of the company from commencement to September 30, 1873, were as follows:

RECEIPTS.

Capital stock, including 4,500 shares issued under contract of July 2, 1869, as security for advances to company		$901,229 69
State of Virginia, paid on her stock transferred to company		1,017,248 00
Tolls—passenger, freight, mails and express		609,269 47
Sales of company's mort. bonds:		
Washington and Ohio	$113,499 78	
Alex., Loudoun & Hamp	41,326 40	
Ten-year bonds	4,222 00	
		159,058 18
Bills payable		99,915 22
Advanced by contractors under contract of July 2, 1869		222,001 25
Due sundry persons		26,957 71
Corporation of Leesburg, on account of interest		1,400 00
		$3,037,079 52

EXPENDITURES.

Salaries, and directors' expenses	$65,221 22
Engineering	99,956 74
Right of way	74,879 22
Construction	1,194,837 28
Depots and station houses and shops	127,010 28
Rolling stock	132,027 94
Interest and discount	244,289 13
Running expenses and taxes	255,165 58
Repairs of road, rolling stock, etc.	264,748 92
Incidental expenses	40,729 15
Paid Board of Public Works	4,500 00
Fuel, materials and supplies on hand	5,454 40
Clarke Co. bonds held by Co	52,859 35
Leesburg town bonds do.	10,000 00
Bills receivable	1,729 44
Exchange Bank notes held by Co.	1,311 90
Company's stock do. do.	1,430 00
Premium on gold	1,456 00
Paid on account of telegraph line	215 94
Due from Washington and Alexandria Railroad Company	3,816 34
Profit and loss	974 69
Sundry individual account	1,312 61
Due by First National Bank	3,153 49
Stock issued under contract July 2, 1869	450,000 00
	$3,037,079 52

President.—Lewis McKenzie, Alexandria.

Directors.—Cassius F. Lee, Fairfax County; F. W. M. Holliday, Frederick County; Benjamin Morgan, Richard H. Lee, Clarke County; Charles B. Ball, Henry Heaton, Loudoun County; Andrew Jamieson, Alexandria.

Clerk and Treasurer.—R. Johnston.

Chief Engineer—Washington Blythe.

General Superintendent—R. H. Havener.

☞ The Philadelphia *Ledger* says that business is steadily improving in all the leading interests, as is evidenced in the fact that in the Schuylkill region, where there are seventy-three works connected with the manufacture of iron, fifty-three are in full operation, and of the remaining twenty, eight are new and have never yet been in operation. The other twelve are out from various causes, and in number are little if any above the usual average unemployed for repairs, etc. It says that the orders for iron are numerous, though in some instances the price is below what the manufacturers consider as affording fair profits; but, as the orders imply a want of iron, it is fair to presume that the parties will not be long in coming to terms.

Northern Pacific Railroad Company.

Treasurer's Office, 23 Fifth Avenue,
New York, December 17, 1873.

To the Bondholders of the Northern Pacific Railroad Company:

This company submits for your consideration the following statement:

1. The company has five hundred and fifty-eight miles of road constructed and in operation, of which five hundred and eighteen miles have already been approved by Government, well built and thoroughly equipped with 75 locomotives, 6 first-class passenger cars, 13 second-class passenger cars, 509 box cars, 1,130 platform cars.

Both the Eastern and Pacific Divisions are practically completed roads, having valuable commercial connections at either terminus, with the control of four hundred miles of navigation of the Columbia river, in Oregon.

2. The outstanding floating debt of the company, unsecured or unprovided for, will not exceed four hundred and thirty-seven thousand dollars ($437,000.)

3. The road built entitles the company to about eleven million acres of valuable land. It has already received patents from Government for seven hundred and forty-three thousand nine hundred and forty-one 34-100 acres.

4. The company being unable, at present, to pay the interest maturing on its bonds, the following proposition is made to its bondholders, viz:

1st. To fund its interest due January 1, 1874, July 1, 1874, and January 1, 1875, in a five-year interest land warrant coupon bond, bearing seven per cent currency interest, payable semi-annually, January 1 and July 1 of each year, the first coupon, however, to mature January 1, 1875.

2d. To make the interest land warrant bonds receivable at any time before April 1, 1877, par, in payment for any of the company's lands (along its present finished road) east of the Missouri river, and north of the Columbia river; the price of the lands for this purpose to be twenty-five per cent less than the regular cash or bond prices; they will also be received at par, and accrued interest, in exchange for the first mortgage bonds of the company at par, and accrued interest at any time before April 1, 1877.

3d. To deposit in escrow, uncancelled, with S. Kennedy Cass, Trustee, all coupons and orders for interest, which may be funded in the proposed five year interest land warrant bonds; but if this company shall make default in payment of interest or principal of said interest land warrant bonds, as it matures, the holders of the said bonds may, at their option, surrender them (with all coupons attached) to the trustee named above, and receive back the coupons or orders for interest, of the same class as surrendered, for which said interest land warrant bonds were given. Bond scrip will be given for amounts less than one hundred dollars, convertible into interest land warrant bonds, when aggregated in amounts of one hundred dollars and multiples thereof.

The denominations of the said interest land warrant bonds are one hundred, five hundred and one thousand dollars each. Coupons may be presented in person, or sent by mail to this office, and exchanges and returns will be promptly made as above stated.

A. L. Pritchard.
Treasurer Northern Pacific Railroad Company.

☞ The extension of the Wilmington and Reading Railroad from Birdsboro to Reading, a distance of nine miles, has been completed, thus making the road in reality what it has long been only in name—the Wilmington and Reading Railroad. In a few months the Berks County Railroad, another extension of the Wilmington and Reading, will be finished to Slatington, on the Lehigh Valley Railroad, and then the city of Wilmington will have a direct communication with the great coal fields of Pennsylvania.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 3, 1874.

Stock Exchange and Money Market.

Money has been in better supply, both on call and for mercantile purposes. There has been less pressure for accommodation on all accounts. The speculative demand has been fairly active, but not remarkably urgent. The inqury, in the discount line, for aid, has been on a somewhat restricted scale. Rates on call have been comparatively steady on the basis of the legal figure of 7 per cent to the best class of borrowers, as the ruling quotation. Discounts have been rated at 8@10 per cent on choice to prime, and up to 12 per cent per annum, on very good grades of business paper. The year generally closed up much more satisfactorily and encouragingly than had been anticipated a few months ago. The City banks made further headway last week in strengthening their reserves, increasing their average of gold last week to $23,676,000, as against $22,-651,000 the preceding week; and their green back average to $44,182 500, as against $14,086,-200, on the previous return. Their deposits stood at 195¼ millions, giving an increase of about a million. The loan item was 257¾ millions, against 257⅛ millions on the former exhibit. The circulation was 27¼ millions, against 27⅛ millions the week before.

The cash balances in the Treasury Department, at Washington, on Tuesday were as follows: Currency, $1,714 589; special deposits of legal tenders for redemption of certificates of deposit, $35,060,000; coin, $89,814,514; including coin certificates outstanding, $33,466,900; outstanding legal tenders, $377 692,602.

The U. S. Sub-Treasury, last week, enlarged its currency balance $1,512,168, and its coin reserve $1,040,036. Its currency balance at the close of the week was $24,584,863; and its coin reserve $52,196,059.

Gold has been less active, and the price has been quoted lower, fluctuating frequently. The speculative dealings have been on a restricted scale. The customs demand has been limited, and the export drain unimportant. The extremes of the price have been 109¼@110¾, closing at 110⅛ as against 110⅛ on Wednesday of the preceding week. The specie outflow, last week, was $448,041. The imports of specie at this port last week were $56,687; and since Jan. 1, have been $18,695,443 as against $5,529,320 same time last year.

The Sub-Treasury began the payments of the January interest on the public debt on Monday, and disbursed on that day $3,440,000 in Gold and $330,000 in Currency—the latter on account of the Pacific Roads on what are known as United States currency 6 per cents.

The customs demand for Gold last week averaged $302,432 a day. The total customs revenue of the Government, in coin, at this port, since Jan. 1, 1873, has been $119,112,450, against $143-353,813 during the same time in 1872. Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1873, $63,821,-175, against $80,421,194 during the same time in 1872. The export drain of specie since January 1, 1873, has been $48,307,085 against $71 969 037 during the same portion of 1872.

Foreign Exchange has been moderately active, and quoted higher, but closed buoyantly. Bankers' sixty day bills on London closed on Wednesday at 108¼@109; sight bills on London, at 109⅝@109⅞. The week's exports of Domestic Produce have been to the currency value of about 6⅛ millions.

A more active demand has been noted for Government securities, which closed with an upward tendency. The inquiry has been mostly on investment account, partly for shipment to Europe.

U. S. sixes of 1881 closed on Wednesday of this week at 120@120½; U. S. Five-Twenties of 1862, 113@113½; U. S. Five-Twenties of 1864 at 115@115½; U. S. Five-Twenties of 1865 115½@115¾; U. S. Five-Twenties of 1865 consolidated 118¾@119; U. S. Five-Twenties of 1867, 119¼@119½; U. S. Five-Twenties of 1868, 119@119½; U. S. Ten-forties at 112⅛@112⅜; U. S. Fives of 1881 (Funding Loan) 111@111⅛; Six per cent. currency Sixes from 113⅜@113⅝.

Business has been quite active in the line of Railway and Miscellaneous securities; prices, however, have been very irregular, closing with more firmness.

State and Railway bonds have been in much better demand, and quoted higher. Central Pa-

cific first mortgage six per cents closed firmly at 96@96¼.

There has been some business doing by private sale in the Northern Pacific Bonds at 29@30 with 31⅛@32 per cent now asked.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $3,919,882, as compared with $4,575,759 same week last year. The exports of domestic produce are $6,075,750, as against $4,107,280 last year. The exports of Gold and Silver, $448,081, as against $1,980,824 last year. The customs in Gold deposited during the week in the New York Office of the Treasury amounted to $1,161,495, comparing with $1,246,000 same week last November.

The outstanding amount of U. S. legal tender notes on Wednesday was 377⅝ millions.

General business has been on a moderate scale since our last. Breadstuffs, Provisions, and Cotton have been quoted higher. Groceries also rather firmer. Tobacco, Wool, Seed, Hops, Hemp, Hides, and Leather, steady as a rule. Metals have been quiet at about firmer rates, with the exception of Ingot Copper, which sold freely, mainly for forward delivery, closing firmly at 25ct per lb. Naval Stores, and Petroleum, dull and somewhat easier in price. The Ocean freight market has been rather brisker; Grain rates quoted stronger, with Provisions and general cargo weaker. At the Live Stock markets, trade in horned cattle has been fair; prices by the head ranged from $25@$75, and from 9c.@12½c. per lb., weight from 6 cwt. to 8¼ cwt.; nearly all of the herds were cleared off. Quality ranged from coarse to choice; prices from 10c.@13c. per lb.; Steers, by the head, from $105@$125@$156@$184, weight from 6 cwt. to 15 cwt., on 55 lbs. to 80 lbs. to the cwt., net. There were no sales in Milch Cows. Smooth quality Veals sold at 10c. per lb.; coarse quality Grass Calves sold from $11@$15 per head. Sheep and Lambs were in fair demand; quality ranged from fair to good; Sheep sold from 5⅜c. @7¾c. per lb.; Lambs from 7½c.@8c. per lb.; mixed lots of Sheep and Lambs at 8c. per lb. There being no commission Hogs to hand, Live Hogs were not quoted; City Dressed quoted at 6⅜ @7⅝. Late on Saturday, Live Hogs sold at 5¼c. per lb.

☞ The directors of the Wilmington and Reading Railroad Company, being unable to meet the interest on their second mortgage bonds, maturing Jan. 1, have authorized a mortgage on the Reading branch for $500,000, the bonds secured by which will be applied to the funding of the defaulting interest, so far as the holders choose to avail themselves of it. Scrip receipts will be issued for the eight coupons maturing in 1874, 1875, 1876 and 1877, which will entitle the holder to bonds, when presented in sums of $100, $500 or $1000. The bonds at the rate of 6 per cent per annum, will commence with the average of the coupons for which they are exchanged.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending December 20, at 249,390 tons, and for the coal year 19,391,007 tons, against 18,669,987 tons to corresponding time last year, being an increase of 721,020 tons. The bituminous tonnage for the week is 54,009 tons, and for the year 8,281,898 tons, giving a total of all kinds for the week of 370,697 tons, and for the year of 22,672,905 tons, against 21,396,165 to same time last year, being an increase of 1,270,740 tons.

☞ The grading on the Towsontown branch of the Baltimore and Swann Lake Railroad has been completed.

☞ The proposed line of the Riviere du Loup Railway from Woodstock along the banks of the St. John River is declared impracticable.

Atchison, Topeka and Santa Fe Railroad.

The Boston *Journal* says that the directors of the Atchison, Topeka and Santa Fe Railroad have recently concluded the sale of a large tract of land on the line of their road to the Memnonites, who have already arrived in this country, for the purpose of forming a colony to be peopled by the large delegations of their peculiar faith that are expected to arrive in this country in the spring. The present purchase covers 19,000 acres, situated in the vicinity of the town of Halsted, Kansas, which is located at the point where the railroad crosses the Little Arkansas river, and the intention of the purchasers is to eventually secure the control of a tract six miles in width across the entire belt of forty miles which is covered by the land grant of the railroad, and thus bring the town of Halsted under their control. The Memnonites are an industrious, enterprising people, possessed of ample means, and their location on the line of this road will bring to it a large and constantly increasing business.

☞ At the recent annual meeting of the stockholders of the Richmond and Petersburg Railroad Company, held in Richmond, Va., Fred. R. Scott was elected president, and Messrs. D. W. Lassiter of Petersburg, H. K. Ellyson of Richmond, Bolling W. Hazall of Albemarle, W. T. Walters of Baltimore, and R. R. Bridgers of Wilmington, were elected directors for the ensuing year. The receipts of the road for the past year were $160,227 80; expenditures, with interest and discount, $145,407 65.

☞ The annual report of the Librarian of Congress shows that during the year ending the 1st of December, 12,407 volumes were added to the collection, making the total number in the library 258,752 volumes, and about 50,000 pamphlets. There were 15,352 copyrights entered during the year, the fees from which amounted to $13,404.

☞ At a meeting of the creditors of the Chesapeake and Ohio Railroad Company, held in this city on the 29th ult., a large representation being present, it was unanimously resolved to accept the proposition of the company to fund the floating debt and coupon indebtedness into income bonds.

☞ The Allouez Mining Company have determined to increase the capital from $500,000 to $1,000,000, thereby enabling the managers to make further assessments to the amount of $25 per share. The present indebtedness is about $77,000, and the estimated requirements to bring the mine to a paying position, including what they now owe, is $170,000, or about $8 per share.

☞ The Tenth and Eleventh Streets and Seventeenth and Nineteenth Streets (Phil.) Passenger Railway Companies have leased the Empire, or Twelfth and Sixteenth Streets line, for a term of 999 years.

☞ The coupons on the bonds of the Central Pacific Railroad of California, Western Pacific Railroad of California, and California and Oregon Railroad Company, due January 1, 1874, will be paid in gold at the banking office of Messrs. Fisk & Hatch, No. 5 Nassau street, on and after the 2d of January.

OFFICE OF THE ILLINOIS CENTRAL R. R. Co.,
NEW YORK, December 20, 1873.

The American Wood Carbolizing Co.

Is organized for the purpose of Creosoting Timber for Docks, R. R. Ties, Fence-Posts, Pavements, and all other uses where Timber is exposed to the action of water or air. This Company also proposes to License R. R. Companies and others who desire to erect their own apparatus.

Drawings and specifications of apparatus, either stationary or portable, will be furnished on application.

67,112 miles of Railroad in the United States use annually over twenty-six million Ties for renewing those destroyed by decay.

The preservation of wood from decay and the attacks of marine worms, has been largely practiced in Europe for thirty years; and with such success that the use of natural wood is now the exception; and of all the various methods that have been employed, that in which creosote oil was used, has best endured the test of time.

This Company, benefiting by the thirty years' practical experience in the use of creosote oil abroad, offer to the public a system of application which is adapted to the wants of our own country, in that green wood can be rapidly and thoroughly treated, even better than dry, and the application of the oil, in connection with the use of moderate heat, be made more uniform and effective than is possible by any other means.

Experience has demonstrated that creosote or dead oil is the only substance by which wood can be treated so as to certainly resist the attacks of marine worms.

Creosoted wood exposed in Charleston Harbor was not attacked by the teredo, while natural wood attached to it was completely honey-combed.

It is confidently asserted that Railroad Ties creosoted will outlast three sets of ordinary Ties, and that creosoted Paving Blocks being beyond the reach of decay, will last as long as stone, with all the advantages of an elastic roadway, beauty and economy of construction.

The economy in the use of creosoted wood, where the term of service is trebled, is measured by adding to the wood used, the cost of the labor expended in construction, and the loss of time spent in replacing the structure, when either decay or attacks of marine worms destroy it.

The system of Seely and Pelton, employed by this Company, has been fully examined and indorsed by Gen. McClellan, Gen. Barnes, Gen. Babcock, Rob't Harris, C. B. & Q. R. R., Prof. Silliman, Capt. Eads, Gen. Cram, Gen Humphreys, Gen. Meigs, Gen. Belknap, Prof. Chandler, Gen. Gilmore, Gen. Newton, A. B. Mullet, C. H. Haswell.

It has been used by the U. S. Government upon the Dykes of the St. Clair Flats, and upon Gun Platforms for the fortifications on the Atlantic coast; upon pavements in New York and Pittsburgh, by the Department of Docks of the City of New York and the Board of Public Works of the District of Columbia.

Detailed information can be obtained and specimens of creosoted wood examined at the office of the Company.

American Railroad Journal.

New York, Saturday, January 10, 1874.

Trans-Continental Railways.

The readers of this JOURNAL, under the head of "Monthly Railroad Earnings," must have observed the immense earnings of the Union and Central Pacific Companies, during the last year. Estimating the balance of the year as no greater than in 1872—and they will probably be larger—the gross earnings foot up $24,114,913; the net earnings are fully fifty five per cent, and therefore amount to $13,263,202. This is six thousand dollars per mile, or in other words the interest on one hundred thousand dollars per mile at six per cent.

One of the most amazing features of this traffic is its increase from year to year. Although passing through a country that was apparently a barren waste, almost from Omaha to Sacramento, when the roads were projected, yet each annual report shows an increase of at least twenty per cent on its predecessor. If, when this great Continental Railway was projected, any capitalist or over-sanguine railroad man had predicted that in less than five years after its completion it would show a gross income of nearly twenty-five millions, and a net income equal to the interest on two hundred millions of dollars, twice its cost, he would have been pronounced a visionary, as the project itself was declared to be, "in advance of the times."

The history of the Union Pacific is one of the marvels of the age. It demonstrates that railways build up traffic; and the favorite theory of some that Pacific Railways are in advance of the times, is shown to be a fallacy, by the magnificent success of the Union and Central Pacific Companies.

Large Purchases of Coal Lands.

Allusion has heretofore been made as to certain large purchases by the Central Railroad Company of New Jersey of coal properties, and lease of the Lehigh Coal and Navigation Company's Works. We now learn from the Philadelphia *Ledger* that the Honeybrook Coal Company, whose stock is principally owned by the Central Railroad Company of New Jersey, have purchased all the coal lands of the Lehigh Coal and Navigation Company in the Wyoming region, amounting to about 7,000 acres; also, the Hanover and other coal lands from Mr. Charles Parrish and others, amounting to about 2,000 acres more. They have also leased all of the Lehigh Coal and Navigation Company's mines and fixtures at and about the Summit Hill, in Carbon and Schuylkill counties. They have also agreed to merge with the Wilkesbarre Coal and Iron Company. The Central Railroad Company of New Jersey will then hold about 25,000 acres in fee and 8,000 acres on lease, making in all about 33,000 acres of the best and most productive coal lands in the State. The name of the company, we are informed, will be changed, most probably, to either "Lehigh and Wilkesbarre Coal Company" or "Lehigh and Wyoming Coal Company," so as to designate both coal fields. A very heavy tonnage can be sent from the property. The Central Railroad Company of New Jersey have leased both canals and fixtures of the Lehigh Coal and Navigation Company, which, together with the former lease made of their railroad and branches, will secure them a very heavy tonnage with probable great advantage to the Lehigh Coal and Navigation Company by the large amount of rents which are guaranteed to it. The relative strength of the larger coal companies now stands about as follows: Philadelphia and Reading Coal and Iron Company, with 90,000 acres to an annual yield of 6,500,000 tons of coal. The Lehigh Valley second. The Central Railroad Company of New Jersey, and works in its control, will stand third, with its 33,000 acres and a yield of 4,000,000 tons. The Delaware and Hudson Canal Company stands fourth, bringing out nearly 3,000,000 tons per year. The Delaware, Lackawanna and Western Railroad Company comes fifth, with nearly the same tonnage as the Delaware and Hudson Canal, and the Pennsylvania Coal Company sixth, carrying per year about a million and a quarter tons of Scranton coal.

Debt of Baltimore.

From the Message of the Mayor of Baltimore we learn that the gross receipts into the city treasury for the year ending October 31, 1873, were $7,889,948 16, and the disbursements $7,724,585, leaving a cash balance of $165,413 16. The funded debt of the city at that date was $27,108,925 77; an increase of $1,144,500 for the year. The guaranteed debt was $1,995,000; a decrease of $553,500. The aggregate funded and guaranteed debt was $29,103,925 77. In this total are included the loan to the Baltimore and Ohio Railroad Company, the water and park stock, the guaranteed debts of the York and Cumberland and the Union Railroad Companies, all of which regularly pay the interest to the city on the loans, stocks, and guarantees. These amount to $11,172,560 25, which shows that in reality the city has to provide only for the payment of interest on $17,931,559 52. Against this aggregate funded and guaranteed debt, the city has securities, available assets, etc., amounting to $27,252,514 68. The floating debt of the city was $878,415 20, an increase of $264,884 44.

☞ The Boston *Journal* says that the report of the Bridge Commissioners in relation to the rebuilding of Cragie's bridge recommends the rebuilding of the structure at a uniform width of sixty-four feet, with a new draw 132 feet in length, fifty six feet wide, with draw-piers of thirty-six feet wide in the clear. The draw will be worked by steam, and will be constructed similar to that in the West Boston bridge. The entire

cost of the new bridge will be about $180,000, and the work will be commenced early in the spring.

Boston and Lowell Railroad.

The receipts from operations of this road for the years ending September 30, 1872 and 1873, were as follows:

	1872.	1873.
From passengers....	$558,590 09	$582,622 46

The increase of traffic revenue over last year is $126,344 80, and the increase in traffic expenses $64,574 51. The report says:

The road and its equipment has been kept in thorough repair, and renewals provided for, from current earnings. The outlays for this purpose, from traffic earnings, exceed those of last year by about twenty-five thousand dollars.

The fixed capital and debt of the corporation has been increased during the year, as follows:

Increase of stock.....	$140,100 00
Increase of bonds	277,000 00
Increase of notes.....	120,276 26
Total increase.....	$537,376 26

The funds derived from this increase of capital stock and debt, have been expended as follows:

For new equipment and construction about.....	$98,000 00
For walling and filling flats at East Cambridge, about.....	24,000 00
For grading and improving the Mystic River Quay, about.....	68,000 00
For land damages and construction, on Mystic River Railroad, about...	40,000 00
For land damages and construction on connection with the Lexington Branch, about.....	43,000 00
For Boston station, and lands and approaches, about	264,000 00
	$537,000 00

The lands taken for the new station in Boston have all been paid for and conveyed by deed to the corporation, with the exception of the Hooper Foundry lot; the owner of which has appealed from the award of the commissioners. The station itself has been mostly paid for as the work progressed, and the unsettled bills of construction are comparatively small.

On the Lexington and Arlington Connection, but one land claim remains unsettled.

On the Mystic River Branch there are unsettled claims for lands taken of the Asylum, and two or three small proprietors.

The Mystic River Quay is in condition to lie without further expenditure, until such time as more capital can advantageously be placed there.

For the settlements above enumerated, it is estimated that a sum not exceeding $200,000 may be required in the coming year.

At the annual meeting of January 8, 1872, the stockholders voted, "That the capital stock of this corporation be increased three hundred and seventy-two thousand dollars, or, to an amount not exceeding three million three hundred and eighty thousand dollars, as authorized by law; and that the directors be empowered to issue and dispose of the same in such amounts and at such times as they may judge best for the interests of the corporation."

The established credit of the corporation having enabled it to borrow money upon easy terms, to meet its investments in branches and new works, the directors have not issued any of the stock authorized by this vote, nor quite all that was authorized previously. The amount remaining to be disposed of is three hundred and eighty seven thousand dollars. The rate of interest paid by the corporation on borrowed money, has not at any time exceeded seven per cent per annum. At this rate of interest, there is no special inducement to convert notes into stock, except to provide against the possibility of being unable to carry loans at all times on as favorable terms. The directors will exercise their power to sell stock, as authorized by the stockholders, whenever it may seem to them advantageous to the corporation.

In explanation of the seemingly large amount of our present capital and debt, we give below a statement of investments in Branch Roads and property outside of the location of our main line; all of which has a present value equal to its cost, and on much of the property a large increase of value may be reasonably anticipated.

The Mystic River Railroad has cost to the present time.....	$152,916 00
The Lexington & Arlington Branch has cost	297,206 85
The Stoneham Branch has cost.....	50,000 00
The Woburn Branch has cost.....	80,000 00
The investments of this company in stocks of the Salem and Lowell, and Lowell and Lawrence Railroads, amount to.....	345,674 00
Total investments in Branch Roads.	$875,796 85
The assessors tax valuations of the past year on property of the company lying outside of the location of the road, and liable to local taxation, are as follows:—	
In the City of Boston.....	$1,008,000 00
" " Cambridge.....	873,300 00
" " Charlestown.....	314,900 00
" " Lowell	82,164 00
In towns on the line.....	129,250 00
Total local tax valuation of outside property.....	$2,407,614 00
Total of investments in branches and outside property.....	$3,283,410 85
Amount now invested in sinking fund	150,000 00
Amount now invested in working materials	180,698 82
Aggregate of outside investments..	$3,614,109 67

If the aggregate of these investments be deducted from the amount of capital and debt there remains only $1,547,190 33, to represent the cost of our double track road between Boston and Lowell, including its large equipment, its buildings within the location, and nineteen miles of distributing tracks and sidings at Lowell and elsewhere.

The equipment now owned separately by this corporation consists of forty locomotives, sixty-three passenger and baggage cars, and nine hundred and fifty three freight cars.

The accumulation of the sinking fund, in the custody of the Massachusetts Hospital Life Insurance Company, had amounted, on the first of July last to $581,721 39. The scrip dividend of twenty per cent on the old stock, falling due October 1, 1873, amounting to $366,000 00 was paid in cash from this fund to the stockholders. There was also paid from this source $15,000 00 of the bonds of 1853 remaining unconverted into stock July 1, 1873. The sum of $721 39 has been paid into the Treasury, leaving a remainder in the fund of $150,000 00. This sum it is proposed to allow to accumulate at interest, to liquidate the $200,000 00 of bonds maturing in 1879. The accumulation, if reckoned at 6 per cent per annum, will take up the bonds at maturity, and leave a small surplus.

Our relations to connecting roads, are, without exception, of a friendly character. With the Concord Railroad, a contract for joint traffic, made in 1865, for thirteen years, continues to be the basis for settlement, and is likely to continue unimpaired for the five remaining years of its term, unless changed by mutual agreement.

The Northern Railroad of New Hampshire, the Boston, Concord and Montreal Railroad, the Passumpsic Railroad, the Central Vermont Railroad, and the Ogdensburg Railroad, all have amicable traffic arrangements with us, and the "Through Line" between Boston and Ogdensburg, with its connecting steam fleet on the lakes, is worked as heretofore, in our common interest. We have also valuable joint relations with connecting roads through the Stony Brook and Lowell and Lawrence Branches.

The rival lines of road projected to Lowell and to Nashua, have not proved especially injurious to our interests, and, judging from the disastrous results already happening to the Nashua enterprise, their prospects are not such as to cause us any present anxiety. The Nashua, Acton and Boston Road, was projected and built for the avowed purpose of diverting from us the local and through business of Nashua and the Northern Roads. It was opened for travel in July last. The distance from Boston to Nashua by that line is six or more miles longer than by ours, but trains were expressed through to equal our time, and their local fares were reduced fifteen per cent below ours. Notwithstanding these inducements, no material amount of business has been diverted from us, and the attempted rivalry has only resulted in disaster to its projectors.

The proposed road from Lowell to Andover, to connect with the Boston and Maine Road at that point, and make a new line for Boston business, has been the subject of some local agitation during the past year: but as yet, no actual commencement of work upon it has been undertaken.

A corporation has been formed to construct a short piece of road, less than three miles, over an almost level plain, to connect the Boston and Lowell Road with its Salem and Lawrence Branches, thus making a direct route by our roads between Boston and Lawrence. At the last annual meeting your directors were authorized to lease this connection when built. The stock is all taken by responsible parties, and the road will be built whenever it may appear for our interest to open a line to and beyond Lawrence.

The roads now operated by this company, in connection with the Nashua and Lowell Railroad Company, have an aggregate length of one hundred and thirty-five miles, viz.:—

The main line, Boston to Nashua	40 miles.
Mystic River Branch	2 "
Lexington Branch	16 "
Woburn Branch	2 "
Stoneham Branch	3 "
Lowell and Lawrence Railroad	18 "
Salem and Lowell Railroad	20 "
Stony Brook Railroad	13 "
Wilton Railroad, as extended	26 "
Total	135 miles.

Since the closing of our yearly accounts, to October, the general depression of business has produced some falling off in the receipts of the road. Efforts have been made and are being continued to reduce operating expenses as far as practicable to meet the emergency. A reduction has been made in the number of trains run, and it is in contemplation to take off some others. Wages have been reduced to a limited extent, and some of the shops are run on short time. By these means it is hoped, in some measure at least, to counteract the diminution of income.

TREASURER'S BALANCE SHEET, Sept. 30, 1873.

Construction and equipment	$2,820,465 59

Superintendent.—JOHN B. WINSLOW.

Treasurer.—C. E. A BARTLETT.

The Loughridge Engineer's Brake.

The Sandusky (Ohio) *Register*, of 27th ult., gives the following account of the application of the new air brake of Mr. Loughridge, of Baltimore, on the Sandusky division of the Baltimore and Ohio Railroad:

"A test of the above brake took place on Wednesday morning, the 24th instant, on this division of the Baltimore and Ohio Railroad, on which road the brake has been adopted. The train consisted of four cars and engine, and has been equipped during the past two weeks, and was taken out of the shops merely to test the general mechanical parts of the contrivance. The train made a run of about eight miles, making six stops, at an average speed of thirty miles per hour, each stoppage being effected within a distance of four hundred feet, and that too, under some disadvantages, among them a rather ill conditioned and frosty track.

"This invention was patented April 11th and 19th, 1864, and February 11, 1873, and is remarkable for its extreme simplicity and strict adherence to the most philosophic scientific principles, as regards the uniformity of the whole and the small number of mechanical parts, as compared with the Westinghouse or other air brakes. The utmost possible uniformity is observed in stopping a train under different speeds; for instance, a train running at sixty miles per hour can be brought to a complete rest in as short a time as one running at only thirty miles, and distances proportionate to the velocity. The train in question was equipped by entire strangers, and indeed we were convinced of the fact that even a child could manipulate one of the brakes with perfect ease and safety. The trial Wednesday was simply a test, and though it worked to a charm, nothing comes of it more than the satisfaction of convincing those interested of the superiority of this brake over all others. This was effectually done, that, too, under the supervision of one of our foremost artisans, Mr. W. Y. Johnson, the master mechanic of the Sandusky division of the Baltimore and Ohio Railroad. The almost marvelous working of this brake is indeed a worthy subject of consideration, and the eulogistic letters and indorsements which Mr. W. Loughridge holds from some of the most learned scientists of the country are nothing more than a just tribute to his inventive genius. Mr. Loughridge is a resident of Baltimore, Md., and was formerly a member of the House of Representatives from Washington county, that State."

Baltimore, Pittsburg and Chicago Railroad.

The Baltimore and Ohio Railroad Company formally announce the opening of the first division of their Chicago extension to-day. This embraces the road from Centreton, on the Lake Erie division, to Deshler, on the Cincinnati, Hamilton and Dayton Railroad, sixty-three miles in length. By means of this extension the extensive grain business centering in Toledo, together with the traffic drained by the Cincinnati, Hamilton and Dayton Railroad, are made tributary to Baltimore, and will no doubt prove a most valuable addition to the already rapidly increasing traffic with that section. The line just opened passes through the flourishing towns of Republic, Tiffin and Fostoria. At Tiffin it intersects with the Cincinnati, Sandusky and Cleveland Railway, and at Fostoria with the Lake Erie and Louisville Railway, both of which will prove valuable feeders. During the past summer, notwithstanding the panic, the Baltimore and Ohio Company have continuously and vigorously pushed this work, and besides the division now open for traffic it has completed the graduation and masonry of the remainder of the line to Chicago, two hundred and six miles. In the construction of the line the company's main object has been to secure the shortest and best route to Chicago, to accomplish which neither time nor expense in location or construction has been spared. Between the Lake Erie division and the head of Lake Michigan; a distance of two hundred and fifty-five miles, the road as located varies but two and a half miles from an air-line. The maximum grade is only twenty-six and a half feet to the mile, of which however there are but thirty miles, the remainder being below twenty feet. It is represented that the superstructure of the portion just opened is of the most substantial character. The rails, sixty-four pounds to the yard, were manufactured by the company at its works at Cumberland. The bridges are of the "Bollman Iron Truss" pattern, placed upon the most substantial stone masonry. Three thousand cross ties have been used to the mile and the whole line thoroughly ballasted.

The Baltimore and Ohio Railroad Company has, it is known, notwithstanding the recent great financial stringency, been enabled to prosecute this important work, requiring the outlay of large sums of money, without placing upon the new road any mortgage or soliciting aid in the way of stock subscriptions. The contractors have all been paid promptly, thus enabling them to give steady employment to several thousand men at a time when most corporations found it necessary not only to entirely abandon projected work, but to reduce the wages of those engaged in their regular service. The chief engineer estimates that the entire cost of the line, with a full equipment, will not exceed $30,000 to the mile, a sum less than one half the bonded and stock debt represented by the Pittsburg, Fort Wayne, and Chicago, and the Lake Shore and Michigan Southern railways, with which it will come in competition.

It is proposed in the spring to resume operations, with a view to the completion of the entire line to Chicago early in the fall, by which the Baltimore and Ohio Railroad will secure a continuous line between this city and Chicago, eight hundred and eleven miles in length.—*Balt. Sun*, Jan. 1.

Debt of the State of New York.

The following extract from the Message of the Governor shows the amount of the State debt on the 30th September, 1873, after deducting the unapplied balances of the sinking funds at that date:

	Debt September 30th, 1873.	Balance of sinking funds, September 30th, 1873.	Balance of debt after applying sinking funds.
General fund	$3,988,526 40	$4,244,400 39	.....
Contingent	68,000 00	30,187 21	$37,812 79
Canal	11,362,880 00	1,530 241 21	9,822,638 79
Bounty	21,121,000 00	9,790,072 24	11,330,927 76
Total	$36,530,406 40	$15,594,901 05	$21,191,379 34

The general fund debt sinking fund includes $1,500,000, received since the close of the fiscal year, and from the bounty debt sinking fund, the interest accrued to October 1, 1873, payable January 1, 1874, has been deducted.

The entire funded debt of the State on the 30th September, 1872, after deducting unapplied balances of sinking funds, amounted to	$25,886,725 84
On the 30th September, 1873, the entire funded debt of the State, after a like deduction, amounted to	21,191,379 84
Showing a reduction of the debt of	$4,195,346 50

This reduction of the State debt is apparent only—not real, as the redemptions of stocks, which fell due in the year 1873, were provided for by new loans. The stock outstanding on the 30th September, 1873, and to be hereafter redeemed, is, therefore, only a few hundred thousand dollars less than on the 30th September, 1872.

The following amounts of the State canal debt fell due in 1873:

January 1	$847,500
July 1	2,328,000
November 1	1,974,600
Total	$5,150,100

Provision was made for the redemption of this portion of the State debt by deficiency loans, under section 3, article 7 of the constitution.

The State tax levy for the current year amounted to 6 95-100 mills. The total amount of the tax will be $14,800,903 38—about five millions less than the amount levied during the preceding fiscal year.

☞ The total value of the exports from Baltimore to foreign countries in 1873 was $22,387,812, against $17,381,594 in 1872, $18,244,783 in 1871, and $12,755,012 in 1870. The value of the imports in 1873 was $32,116,721, against $29,687,282 in 1872. The receipts of customs in 1873 were $6,903,288, against $7,869,823 in 1872, and $8,901,194 in 1871.

Debt of Boston, Mass.

The following extract from the Message of the Mayor exhibits the total funded and unfunded debt of the city, December 31, 1873, compared with the debt at the close of the year 1872:

	Dec. 31, 1873.	Dec. 31, 1872.
Funded debt	$35,527,293 45	$29,718,677 91
Unfunded debt, being loans authorized but not negotiated	3,961,379 27	4,020,781 12
	$39,488,672 72	$33,739,459 03

Increase of the total debt during the municipal year 1873, $5,749,213 69.

The means on hand December 31, 1873, for the payment of this debt of $39,488,672 72, compared with those of 1872, were as follows:

	Dec. 31, 1873.	Dec. 31, 1872.
Funds in the hands of the Board of Commissioners of the sinking funds	$13,213,494 17	$12,328,300 63
Public Land and other bonds in the hands of the City Treasurer pledged for the payment of the debt	1,137,401 15	1,223,948 70
	$14,350,895 32	$13,552,249 33

Increase of means during the municipal year 1873, $798,645 99.

The gross debt Dec. 31, 1873, was	$39,488,672 72
The means on hand for the payment of the same Dec. 31, 1873, were	14,350,895 32
Net debt Dec. 31, 1873, was	$25,137,777 40

The net debt of the city Dec. 31, 1872, was $20,187,209 70, which shows that there was an increase of the net debt amounting to $4,950,567 70 during the year 1873, while the gross debt was increased in the same year $5,749,213 69.

The following statement shows the increase to the debt this day (Jan. 5,) by the annexation of Charlestown, West Roxbury and Brighton:

Charlestown	$2,747,181 46
Brighton	705,450 00
West Roxbury	525,000 00
To which add the debt of the city as given above	39,488,672 72
We have the total gross debt of the consolidated city of Boston at this date	$43,466,304 18
Less redemption means—	
City of Boston	$14,350,895 32
City of Charlestown	176,418 49
	14,527,313 81
Net debt of the consolidated city of Boston at this date	$28,938,990 37

The Auditor of Accounts classifies the gross debt of the consolidated city as follows:

	Dec. 31, 1873.	Dec. 31, 1872
City debt proper	$26,070,666 48	$21,323,808 29
Water debt (net cost of works)	10,811,956 24	9,702,950 74
War loans (outstanding)	1,914,500 00	1,914,500 00
Roxbury loans (outstanding)	539,050 00	630,700 00
Dorchester loans (outstanding)	152,500 00	167,500 00
Charlestown debt	2,747,181 46	
Brighton debt	705,450 00

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of December, were:

ENTERED FOR CONSUMPTION.

	1872.	1873.
Manufactures of wool	$882,584	$399,698
" cotton	663,712	493,384
" silk	711,887	454,860
" flax	528,955	185,998
Miscellaneous dry goods	417,871	297,192
Total entered for consump.	$3,203,959	$1,771,122

WITHDRAWN FROM WAREHOUSE.

	1872.	1873.
Manufactures of wool	$535,484	$699,914
" cotton	211,772	346,424
" silk	224,105	264,381
" flax	326,675	347,038
Miscellaneous dry goods	79,623	102,533
Total withdrawn from warehouse	$1,377,659	$1,760,290
Add entered for consump	3,203,959	1,771,122
Tot. thrown on the market.	$4,581,618	$3,531,412

ENTERED FOR WAREHOUSING.

	1872.	1873.
Manufactures of wool	$832,221	$626,780
" cotton	536,418	237,307
" silk	460,453	186,884
" flax	403,121	232,138
Miscellaneous dry goods	140,264	96,709
Total entered for wareh'g.	$2,372,477	$1,879,818
Add entered for consump	3,203,959	1,771,122
Total entered at the port.	$5,576,436	$3,150,940

The imports of foreign dry goods at New York for each month of the years 1872 and 1873, were as follows:

	1872.	1873.
January	$12,967,922	$12,777,993
February	17,559,528	16,882,878
March	17,917,463	14,936,595
April	11,231,677	8,594,831
May	9,821,272	6,151,043
June	5,721,641	4,131,241
July	10,667,923	9,163,691
August	21,055,838	15,345,539
September	11,519,654	10,909,897
October	7,152,865	6,612,745
November	5,649,893	5,503,072
December	5,576,436	3,150,940
Total	$136,831,612	$114,160,465

The following will show the relative proportion of the different classes of fabrics:

	1872.	1873.
Manufactures of wool	$42,794,336	$37,999,047
" cotton	28,345,694	25,143,673
" silk	35,094,096	26,182,541
" flax	19,085,811	16,191,011
Miscellane's dry goods.	11,511,675	8,694,193
Total, as above	$136,831,612	$114,160,465

The value of foreign dry goods entered directly for consumption at the port of New York, is as follows:

	1872.	1873.
January	$8,151,308	$7,584,770
February	13,222,511	11,781,497
March	13,730,875	11,014,986
April	7,993,045	5,696,098
May	5,956,678	4,185,091
June	2,641,816	2,609,670
July	3,631,988	5,581,370
August	13,172,942	10,950,503
September	7 575,162	7,757,651
October	4,587,155	3,427,593
November	3,561,540	2,826,879
December	3,203,959	1,771,122
Total	$87,378,979	$74,687,130

The value of foreign dry goods entered for warehousing at the port of New York, is as follows:

	1872.	1873.
January	$4,816,614	$5,193,223
February	4,337,017	5,101,381
March	4,186,588	3,921,609
April	3,238,632	2,898,733
May	3,864,594	1,965,952
June	3,079,825	1,521,671
July	7,025,935	3,582,321
August	7 882,896	4,395,036
September	3,944,492	3,152,246
October	2,615,210	3,185,152
November	2,088,353	3,176,193
December	2,372,477	1,379 818
Total	$49,452,633	$39,478,385

The value of foreign dry goods withdrawn from warehouse at the port of New York, is as follows:

	1872.	1873.
January	$3,746,689	$3,777,683
February	4,669,182	4,910,068
March	4,869,621	5,997,980
April	2,999,688	3,269,948
May	2,432,527	3,025,980
June	1,177,210	1,586,513
July	1,454,534	2,451,337
August	10,679,771	6,630,061
September	6,061,532	4,173,048
October	3,063,010	2,136,473
November	2,420,515	2,077,935
December	1,877,659	1,760,290
Total	$44,951,887	$40,801,216

The total imports of foreign dry goods at New York from 1849, compare as follows:

Year.	Invoiced value.	Year.	Invoiced value.
1849	$44,485,571	1862	$56,121,227
1850	60,106,876	1863	67,274,547
1851	62,846,781	1864	71,589,752
1852	61,654,144	1865	91,985,138
1853	93,704,211	1866	126,222 855
1854	80,842,936	1867	86,263,648
1855	64,974,062	1868	80,905 834
1856	93,362,893	1869	94,726,417
1857	90,534,129	1870	109,498,523
1858	60,154,509	1871	132,480,777
1859	113,152,624	1872	136,831,612
1860	103,927,100	1873	114,160,465
1861	43,636,689		

All the above figures represent only the foreign gold cost of these goods, freight and duty not included.

The Pneumatic Despatch.

The London *Times* of November 15th has an article which gives an account of the origin and development of the pneumatic despatch system in England, and then goes on to describe the great pneumatic despatch tube in the heart of London. It says:

The pneumatic tube extends from the London and Northwestern Railway Station at Euston Square to the General Postoffice in St. Martin's le-Grand. The general station is in Holborn, where is also the machinery for effecting the transit of the trains. Here the tube is divided, so that in effect there are two tubes opening into the station, one from Euston to Holborn, and the other from the Postoffice. The length of the tube between Holborn and Euston is 8,080 yards, or exactly a mile and three-quarters, a greater length than was originally contemplated, but which was rendered necessary by the avoidance of certain property on the route. The tube is of a flattened horse-shoe section 5 feet wide and 4 feet 6 inches high at the centre, having a sectional area of 17 square feet. The straight portions of the line are formed of a continuous cast iron tube, the curved lengths being constructed in brickwork, with a facing of cement. The gradients are easy: the two chief are 1 in 45 and 1 in 60, some portions of the line being on the level. The sharpest

curve is that near the Holborn Station, which is 70 feet radius. The tube between Holborn and the Postoffice is 1,658 in length, or 102 yards less than a mile, and is of the same section and similarly constructed to the first length. Two gradients of one in fifteen occur on the Postoffice section, but this steep inclination is in no way inimical to the working of the system. The Holborn Station is situated at right angles to the line of the tubes, which, are, therefore, turned towards the station, into which each opens. All through trains, therefore, have to reverse there, and this is effected in a very simple manner by a self-acting arrangement. A train, upon its arrival, runs by virtue of its acquired momentum up a short incline, at the summit of which it momentarily stops, and then quickly descends by gravity. In its descent it is turned on to a pair of rails leading to the other tube, into which it enters and through which it continues its journey, the whole process of reversing occupying barely thirty seconds. Trains containing goods for Holborn Station are simply run down from the top of the incline on to a siding.

The wagons, or carriers, as they are termed, weigh 22 hundred weight, are 10 feet 4 inches in length, and have a traverse contour conforming to that of the tube. They are, however, of a slightly smaller area than the tube itself, the difference—about an inch all round—being occupied by a flange of indian rubber, which causes the carrier to fit the tube exactly, and so to form a piston upon which the air acts. The machinery for propelling the carrier consists of a steam engine having a pair of 24-inch cylinders, and with 20-inch stroke. This engine drives a fan 22 feet 6 inches in diameter, and the two are geared together in such a manner that one revolution of the former gives two of the latter, or, in technical terms, the engine is geared at two to one with the fan. The trains are drawn from Euston and the Postoffice by exhaustion, and are propelled to those points by pressure. The working of the fan, however, is not reversed to suit these constantly varying conditions; it works continuously, the alternate action of pressure and exhaustion being governed by valves. The engine takes steam from three Cornish boilers, each 30 feet long and 6 feet 6 inches in diameter. Telegraphic signalling is carried on between the three stations by means of needle instruments.

Journal of Railroad Law.

RAILROAD COMPANIES—POWER OF THE COURT TO REFUSE NEW TRIAL WHEN PART OF EXCESSIVE DAMAGES ARE REMITTED.

The recent case of The Pendleton Street Railroad Company *vs.* John Rahman, (22 Ohio, 446), was an appeal from an action commenced by John Rahman *vs.* The Pendleton Street Railroad Company, to recover damages for serious and permanent personal injuries caused by negligence in running one of its cars. The cause was three times tried, to as many juries, and verdicts returned for the plaintiff below, the last for $10,000.

The court overruled a motion for a new trial, on condition that the plaintiff remit $5,000 on the amount of the verdict, and the plaintiff consenting to the remittitur, judgment was ordered accordingly.

The following is the opinion of the court, delivered by—

WEST, J.—We have considered the several matters assigned on the record as ground of reversal. Only one merits notice and extended discussion.

1. Section 297 of the civil code enacts as follows:

"The former verdict, report or decision shall be vacated, and a new trial granted, on the application of the party aggrieved, for any of the following causes materially affecting the substantial rights of such party."

"4. Excessive damages appearing to have been given under the influence of passion or prejudice."

Does the record under review present a case within the operation of this statute?

In actions, the subject of which has a contract commercial, or other established standard of valuation, the amount of the verdict, when the facts are shown, becomes generally mere matters of computation. In actions, the subject of which is without such standard of valuation, the amount of verdict is not matter of computation, but of opinion. Of this character are actions for personal injuries, defamation, and false imprisonment.

It seems to be well settled that in the first mentioned class of actions, any excess in the verdict above what the evidence satisfactorily establishes, may, with the assent of the party in whose favor it is rendered, be eliminated by remittitur, and judgment entered by the residue. The exercise of such power is sanctioned on the theory that the excess arises from mis-apprehension of the law or the facts, or error in computation, not necessarily permeating and validating the entire verdict, and which it is competent to correct with the assent of the party whom alone the correction could prejudice, by striking therefrom any distinct item, or excess in the computation of its value, appearing to be unsupported by the evidence.

This rule is a salutary one, and when employed with discretion, terminates litigation while promoting justice. It was applied in the Averill Coal and Oil Company *vs.* Verner, decided at the present term, wherein this court made the remitting of erroneous interest the condition of affirmance. It is recognized in Smith *vs.* Paul, 8 Port., 502; King *vs.* Howard, Cush., 137, and in many other cases, some of which are collected in Graham & Waterman on New trials, vol. 3, p. 1162, ch. 9, sec. 8.

2. But in the class of actions in which the opinion of the jury, unaided by any known standard of valuation, determines the magnitude of the recovery, the power of the court over an excessive finding is, in some instances, controlled by statutory conditions. Although the verdict, if purged of any supposed excess, might, in the opinion of the court, be well sustained as to the residue by the facts disclosed, yet the presence and influence of passion or prejudice, introducing the excess vitiates the verdict in toto, and excludes the power of the court to validate, or save, any part of it against the concurrence of either party. Without the consent of both to a remittitur and judgment, the verdict, in such case, must be vacated.

The terms of the statute are unambiguous and peremptory. For damages materially excessive, appearing to have been given under the influence of passion or prejudice, the verdict "shall be vacated and a new trial granted."

This statute merely enacts the pre-existing rule of the common law. Its theory undoubtedly is that individual opinions, which depend on, and vary with mental and moral constitution, are extremely eccentric and uncertain; that the money value of personal wrongs, which can have no certain standard of measurement, and hence must of necessity be determined by this, shall not, however, be committed by the arbitrament of a single mind, but it shall be measured by the average of impartial opinion, of which the concurrence of twelve minds, uninfluenced by passion, resentment, or corruption, is supposed to be a fair expression. When, therefore, a verdict is attained by the presence of these statutory infirmities, the law will not, against the consent of either party, substitute the opinion of the court for that of the twelve triers provided by the constitution. For if recklessness has controlled in measuring the extent, it is not improbable that it may have controlled in determining the right of recovery; which another panel, unbiased by improper influences, may greatly modify, or wholly reverse. Lambert *vs.* Craig, 22 Pick., 199; Long *vs.* Hopkins, 10 Geo., 37; Howlet *vs.* Cruchley, 5 Taunt., 277. But the rule of common law was not inflexible, as many cases are reported in which the doctrine of remittitur was applied in actions of this class.

The presence of the conditions, necessary to bring the case at bar clearly within the operation and peremptory rule of the statute, is not disclosed in the record. The amount of the verdict is not such that the influence of passion or prejudice is inferable from its magnitude. It is not deducible from the facts spread upon the record. It is not shown by the finding of the court. We are not put in possession of any circumstances imposing the statutory obligation to vacate.

It is probable, as is often the case, that in the opinion of the judge who heard the cause, the verdict was larger than he would have given as a juror, but not such as, in the absence of statutory infirmities, excluded his discretionary power to confirm or vacate it. We cannot presume the existence of such infirmities, for it is not competent to presume a state of facts repugnant to the judgment of the court.

So far as appears, then, the entering of judgment upon the verdict for its entire amount, would not have been disturbed by this court. But, with the consent of the plaintiff, judgment was entered for a smaller sum. If this had been done arbitrarily, without his assent, it might have been ground of exception and revereal at his instance. But can the defendant object? The only consequence to him is the substitution of a less for a larger sum, which might have been legally exacted, and cannot be held to prejudicially affect him.

It may be supposed that a reasonable doubt existed in the mind of the court in regard to the vacation and awarding of a new trial. In the exercise of a sound discretion, with which the courts are necessarily clothed, the question presented by the motion might have been determined either way, without constituting ground of exception. Wherefore it results, that as confirmation of the entire verdict could not have made available ground of error by the defendant, judgment for a part thereof, instead of the whole, the residue being relinquished, cannot.

The action of the common pleas will be affirmed.

☞ The Texas Pacific Railroad was completed to Texarcana, the proposed junction with the Cairo and Fulton Railroad, on the 30th ult.

RAILROAD EARNINGS—MONTHLY.

Movements of Produce at New York.

Receipts of certain articles of domestic produce at the port of New York for the year:

	1872.	1873.
Ashes, bbls.	6,769	6,984
Breadstuffs—		
Wheat flour, bbls.	3,030,771	3,546,568
Cornmeal, bbls.	201,733	228,498
Wheat, bush.	16,229,418	33,559,870
Rye, bush.	491,668	992,447
Oats, bush.	12,486,348	11,235,420
Barley and malt, bush.	3,117,351	2,448,528
Peas, bush.	195,379	173,075
Corn, bush.	40,769,698	24,589,345
Cotton, bales.	776,579	994,529
Naval Stores—		
Crude turp., bbls.	9,686	10,954
Spirits turp., bbls.	76,056	69,036
Rosin, bbls.	582,063	534,439
Tar, bbls.	29,382	39,297
Pitch, bbls.	1,827	2,293
Provisions—		
Pork, pkgs.	145,071	180,163
Beef, bbls.	58,585	39,468
Cutmeats, pkgs.	331,288	562,702
Butter, pkgs.	680,688	951,932
Cheese, pkgs.	1,714,210	2,032,289
Lard, tcs. and bbls.	355,092	406,579
Do., kegs	28,021	31,901
Whiskey, bbls.	186,042	200,886

Exports from New York to foreign ports of certain leading articles of domestic produce for the year:

	1872.	1873.
Ashes—Pots, bbls.	1,682	1,930
Do. pearls, bbls.	150	149
Beeswax, lbs.	267,044	191,241
Breadstuffs—		
Wheat flour, bbls.	1,179,050	1,655,331
Rye flour, bbls.	6,399	8,249
Cornmeal, bbls.	189,877	176,756
Wheat, bush.	13,144,956	27,801,829
Rye, bush.	668,547	1,069,148
Oats, bush.	31,804	49,710
Barley, bush.	22,656	19,376
Peas, bush.	156,363	143,518
Corn, bush.	25,292,156	15,587,527
Candles, bxs.	62,647	60,850
Coal, tons	89,224	51,577
Cotton, bales.	404,702	601,971
Hay, bales	24,344	23,387
Hops, bales.	6,593	8,965
Naval Stores—

Cumberland Coal Trade.

The production of the Cumberland Mines, in Maryland, during the year 1873, as compared with 1872, shows a steady increase in the aggregate. The amount forwarded in 1873, by Chesapeake and Ohio Canal to Georgetown and Washington was 779,868 tons, and by Baltimore and Ohio Railroad to Baltimore, 1,972,319 tons—a total of 2,752,178, against 2,268,694 in 1872, a net increase the past year of 483,484 tons. There was a decrease via the canal of 86,286 tons, but by the Baltimore and Ohio Railroad an increase of 519,770 tons.

Since the introduction of Cumberland coals in the West Indies, as a substitute for the English, there appears to be a steadily growing appreciation of them as will be seen by the increased exportation in 1873. We give the foreign exports as follows for the past two years:

	1873. tons.	1872. tons.
To Pacific Coast	6,021	12,665
Aspinwall	600	8,101
Brazil	898	1,940
British North American Provinces	1,518	1,465
West Indies	60,509	30,188
Total	69,546	54,363

Statement of the Public Debt of the United States January 1, 1874.

DEBT BEARING COIN INTEREST.

	Amount Outstanding.	Accrued Interest.

Sioux City and Pacific bonds, 1862-64	1,623,320 00	48,849 00
Totals	$64,622,512 00	$1,988,705 26

Interest paid by United States, $20,447,988 26; interest repaid by transportation of mails, &c., $4,666,054 73; balance of interest paid by United States, $15,781,933 53.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1873.

WILLIAM A. RICHARDSON,
Secretary of the Treasury.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending December 27, at 233,666 tons, and for the coal year 19,673,615 tons, against 18,827,365 tons to corresponding time last year, being an increase of 846,250 tons. The bituminous tonnage for the week is 82,918 tons, and for the year 3,315,877 tons, giving a total of all kinds for the week of 267,644 tons, and for the year of 22,989,492 tons, against 21,573,187 to same time last year, being an increase of 1,416,305 tons.

☞ The Southern Maryland Railroad will, it is said, be in working order by next May from Brandywine Station. Col. Allabach is contractor for laying the rails and ties and ballasting the road. Joseph Thornton, of Virginia has a large contract for grading, and Mr. S. Smoot has contracted for the rails. Mr. Geo. Dower is the engineer in charge.

☞ Lord Aberdeen, in a letter to the London *Times*, points out that, according to Capt. Tyler's report for 1872, 238 train accidents occasioned the death of 19 passengers and 34 railway servants. The remaining deaths, which make up the entire number of 1,145, did not result from train accidents, properly so called.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, January 10, 1874.

Stock Exchange and Money Market.

Money has been in much better supply in the open market, chiefly through the remarkably liberal January interest and dividend disbursements, estimated variously at from sixty-five to one hundred millions, as the aggregate. The demand, though active, largely on speculative account, has not kept pace with the increasing offerings of capital. Rates have been favoring responsible borrowers, throughout the week, call loans having been quoted generally at 6@7, and choice mercantile credits at 7@9 per cent per annum. The inquiry for money, for Stock and Gold Exchange purposes, has been most urgent, in view of the increased activity and buoyancy at both centres. The U. S. Sub Treasury, as well as the City Banks, reports an increase of its cash reserves. The City banks made very encouraging headway last week in strengthening their reserves, increasing their average of gold last week to $28,557,300, as against $28,676,000 the preceding week; and their green back average to $45,976,600, as against $44,182,500, on the previous return. Their deposits stood at 205⅛ millions, giving an increase of about 10¼ millions. The loan item was 260¾ millions, against 257¾ millions on the former exhibit. The circulation was 27¼ millions, against 27¼ millions the week before.

The cash balances in the Treasury Department, at Washington, on Wednesday were as follows: Currency, $2,748,538; special deposits of legal tenders for redemption of certificates of deposit, $37,790,000; coin, $83,325,597; including coin certificates outstanding, $39,187,700; outstanding legal tenders, $379,089,102.

The U. S. Sub-Treasury, last week, enlarged its currency balance $626,988, and its coin reserve $834,079. Its currency balance at the close of the week was $25,211,801; and its coin reserve $53,030,138.

Gold has been quite freely dealt in at advanced, though variable figures. The speculative inquiry has been more confident, as a rule, through from importers, for custom house purposes, and from shippers, the demand has been very moderate. The extremes of the price have been 110¼@111⅞, closing at 111¼ as against 110⅛ on Wednesday of the preceding week. The specie outflow, last week, was $611,899. The imports of specie at this port last week were $82,263.

The customs demand for Gold last week averaged $270,400 a day. The total customs revenue of the Government, in coin, at this port, in 1873, was $119,820,806, against $148 817,045 in 1872. Government disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, in 1873, $68,582,885 against $81,265,672 during 1872. The export drain of specie in 1873, has been $48,908,484 against $71,959,042 in 1872.

Foreign Exchange has been firmer and fairly active, quotations are now given uniformly, in harmony with the requirements of the Act of Congress, in dollars and cents. Bankers' sixty day bills on London closed on Wednesday at $4 82@$4 82½; sight bills on London, at $4 86@$4 86⅛ The week's exports of Domestic Produce have been to the currency value of about 4⅞ millions.

Government securities, have been in more request, chiefly on investment account, at higher prices. The last public debt statement exhibited an increase of $8,453,000 in December.

U. S. sixes of 1881 closed on Wednesday of this week at 117@117¼; U. S. Five-Twenties of 1862, 113½@113⅞; U.S. Five-Twenties of 1864 at 114@114½; U. S. Five-Twenties of 1865 115¼@115¾; U. S. Five-Twenties of 1865 consolidated 115⅛@115¾; U. S. Five-Twenties of 1867, 116¾@117; U. S. Five-Twenties of 1868, 115⅝@115⅞; U. S. Ten-forties at 112¾@113; U. S. Fives of 1881 (Funding Loan) 111⅞@112¼; Six per cent. currency Sixes from 113½@114.

An unusually spirited business has been reported in the line of Railway and Miscellaneous securities; prices of which have been quoted much higher, though irregular.

An improved demand has been noted for State and Railway bonds which have also been quoted higher. Central Pacific first mortgage six per cents closed firmly at 93¾@94, ex the January coupon of three per cent.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $2,776,449, as compared with $6,286,904 same week last year. The exports of do-

mestic produce are $4,908,685, as against $3,513,906 last year. The exports of Gold and Silver, $601,899, as against $831,919 last year. The customs in Gold deposited during the week in the New York Office of the Treasury amounted to $1,353,000, comparing with $2,207,264 same week last January.

The outstanding amount of U. S. legal tender notes on Wednesday was 379⅛ millions.

General business has been very satisfactory, for the season, in the leading kinds of Produce, prices of which have shown more firmness. In foreign merchandise, trade has been rather moderate. Groceries have been quoted higher. At the Live Stock markets, a moderate inquiry has been noted for supplies, on a steady basis as to values, for the better grades of stock. The Metal trade has been comparatively tame. Copper has been quiet, but quoted steady. Lake, 25. per lb. Iron has been held firmly on comparatively moderate offerings of stock, but has been quiet throughout, no important dealings in any descriptions having been made public. We quote: Eglinton Pig at $41@$42; Glengarnock, $42@$43; Coltness, $45@$46; Gartsherrie $47; No. 1 American Pig at $35@$36 50; No. 2 do. at $32@$34; Gray Forge, $28@$31; English Rails at $57 50@$60, gold; American Rails at works, $62 50@$65; Old Rails, $40; Wrought Scrap, $38 50. Pig-lead has been dull, but steady, with foreign quoted at 6¾c.@6⅞c., gold, for ordinary, and domestic at 6c.@6⅛c., gold; Bar, 9¼c.; Sheet and Pipe, 10c. Spelter has been inactive at 7⅜c.@7⅝c., gold, for foreign, and 8c.@11c. for domestic. Pig-tin has been more active, but somewhat weaker as to values; sales, 250 slabs Straits at 27⅞c.@28⅛c., gold, cash and 30 days' credit, and rumored, 1,200 slabs do., in Boston, (bought on New York account,) on private terms; Straits at 27⅞c.@28⅛c., gold; English at 26¼c., and Banca at 32c.@32½c., gold. Tin Plates have been quiet, but steady, with sales reported of 1,500 bxs. Charcoal at $10 50, part for February delivery; and 500 bxs. Charcoal Terne at $9 75, gold. Charcoal Plates quoted at $10 25@$10 50; Charcoal Terne, $9 25@$10; Coke, $8 25@$9; Coke Terne 6 75@$8 50, gold, per box. Zinc dull and nominal. Ocean freights have been less active, and rates have favored shippers.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ We Buy and Sell Government Bonds, Gold, and Gold Coupons at current market rates.

We buy and sell Investment Stocks and Bonds at the Stock Exchange "on commission" for cash.

We make Collections for merchants and others at all points in the United States and Canada.

We receive Deposits subject to draft at sight and allow interest at the rate of four per cent per annum.

We issue Certificates of Deposit available in all parts of the country, and in case of Special Deposits allow interest at rates to be agreed upon.

We Collect Dividends, Coupons, Interest on United States Registered Bonds, and attend to Banking Business generally for out-of-town Banks, Bankers, and Correspondents on reasonable terms.

We call attention to the present favorable opportunity for investment in Central Pacific and Western Pacific Gold Bonds, which are actively dealt in, both in this country and Europe, and which, at current prices, are every way desirable.

FISK & HATCH,
Bankers and Dealers in Government Securities,
No. 5 Nassau st.

☞ The earnings of the Erie Railway Company for the week ending Dec. 31, 1873, were $370,458, and since Oct. 1, $5,077,573—an increase compared with the corresponding period of the previous year of $76,192.

Central Pacific Railroad.

Messrs. FISK & HATCH have issued a circular to the bondholders of the Central Pacific Railroad Company, in which the earnings for 1873 (the earnings for the month of December being estimated at the very low figure of $1,000,000) are stated at $13,871,089 82, and the expenses for the same time (November and December being estimated at $400,000 each) at $5,589,440 15—leaving the earnings over operating expenses $8,281,649 67. The earnings in 1872 were $12,784,729 88; the operating expenses, $5,527,445 25; the earnings over operating expenses, $7,207,284 63. The total interest liabilities are not far from $3,514,857, leaving as surplus earnings over operating expenses and interest on bonded debt for 1873 $4,767,292—equal to over eight per cent upon the outstanding capital stock of the company ($54,275,700.) In September last the first dividend on the capital stock of the company, of three per cent gold, was declared and paid. The company now own and operate of main line and branches 1,219 miles of road; and, including second and side track, 1,329 miles. On the 30th of June, 1873, the equipment of the road was as follows: 184 locomotives, 93 first class and 52 second-class passenger, 21 sleeping, 19 mail and express, 21 baggage, 55 caboose, 1 directors', 1 superintendent's, 1 paymaster's, and 4,134 freight, etc., cars, and 7 snow plows; the whole costing—together with depots, shops and machinery, 1300 miles of telegraph lines, 36 steamers, etc.—$139,746,311 14. The circular contains much other information of value to the holders of the securities of the company, and can be obtained upon application to Messrs. FISK & HATCH, 5 Nassau St., New York.

☞ We have been favored by Messrs. BOWEN & FOX, 13 Merchants Exchange, Philadelphia, with a copy of their Circular for December, 1873, and also their annual circular showing the fluctuations in the Philadelphia Stock Market during the year 1873. The highest and lowest prices, with the date of the same, and the amount sold, is given. These statements are issued monthly by the above house, and will doubtless be sent free to any address when applied for.

☞ The earnings of the Central Pacific Railroad for the month of December, 1873, were $1,072,750, against $1,037,992 in December, 1872, and $672,358 in December, 1371. For the twelve months of 1873 the earnings have been $13,988,969, against $12,784,729 for the twelve months of 1872, and $9,467,072 for the twelve months of 1871—an increase this year over 1872 of $1,204,240, and over 1871 of $4,471,897.

☞ The Hampshire and Baltimore Coal Company on the 30 instant paid a dividend of 3 per cent on its capital stock, and also a balance of dividend scrip amounting to 2 per cent with interest.

☞ The Westchester and Philadelphia Railroad Company have declared a dividend of four per cent on the preferred and consolidated preferred stock, payable on and after January 10.

☞ The Georges Creek Coal and Iron Company, Baltimore has declared a semi-annual dividend of $6 per share, payable on and after 9th instant, free of taxes.

☞ The Warren (Va.) *Sentinel* says that the contractors on the Shenandoah Valley Railroad have been notified to hold themselves in readiness to commence operations in January. In accordance with this understanding the contractors are retaining and feeding their stock. Those who have the right to speak are perfectly confident that the Shenandoah Valley Railroad will be built, and that pretty soon.

☞ Track laying on the Muscatine Western Railroad has been completed to Riverside, thirty-two miles west of Muscatine.

OFFICE OF THE ILLINOIS CENTRAL R. R. Co.,
NEW YORK, December 20, 1873.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 2d day of February next, to the holders of full-paid shares, registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH,
Assistant Treasurer.

THE ILLINOIS CENTRAL RAILROAD COMpany will pay, on presentation, par and interest for $3,000,000 of its Construction Mortgage Bonds.

The American Wood Carbolizing Co.

Is organized for the purpose of Creosoting Timber for Docks, R. R. Ties, Fence-Posts, Pavements, and all other uses where Timber is exposed to the action of water or air. This Company also proposes to License R. R. Companies and others who desire to erect their own apparatus.

Drawings and specifications of apparatus, either stationary or portable, will be furnished on application.

67,112 miles of Railroad in the United States use annually over twenty-six million Ties for renewing those destroyed by decay.

The preservation of wood from decay and the attacks of marine worms, has been largely practiced in Europe for thirty years; and with such success that the use of natural wood is now the exception; and of all the various methods that have been employed, that in which creosote oil was used, has best endured the test of time.

This Company, benefiting by the thirty years' practical experience in the use of creosote oil abroad, offer to the public a system of application which is adapted to the wants of our own country, in that green wood can be rapidly and thoroughly treated, even better than dry, and the application of the oil, in connection with the use of moderate heat, be made more uniform and effective than is possible by any other means.

Experience has demonstrated that creosote or dead oil is the only substance by which wood can be treated so as to certainly resist the attacks of marine worms.

Creosoted wood exposed in Charleston Harbor was not attacked by the teredo, while natural wood attached to it was completely honey-combed.

It is confidently asserted that Railroad Ties creosoted will outlast three sets of ordinary Ties, and that creosoted Paving Blocks being beyond the reach of decay, will last as long as stone, with all the advantages of an elastic roadway, beauty and economy of construction.

The economy in the use of creosoted wood, where the term of service is trebled, is measured by adding to the wood used, the cost of the labor expended in construction, and the loss of time spent in replacing the structure, when either decay or attacks of marine worms destroy it.

The system of Seely and Pelton, employed by this Company, has been fully examined and indorsed by Gen. McClellan, Gen. Barnes, Gen. Babcock, Rob't Harris, C. B. & Q. R. R., Prof. Silliman, Capt. Rade, Gen. Cram, Gen Humphreys, Gen. Meigs, Gen. Belknap, Prof. Chandler, Gen. Gilmore, Gen. Newton, A. B. Mullet, C. H. Haswell.

It has been used by the U. S. Government upon the Dykes of the St. Clair Flats, and upon Gun Platforms for the fortifications on the Atlantic coast; upon pavements in New York and Pittsburgh, by the Department of Docks of the City of New York and the Board of Public Works of the District of Columbia.

Detailed information can be obtained and specimens of creosoted wood examined at the office of the Company.

American Railroad Journal.

New York, Saturday, January 17, 1874.

An Interesting Railway Decision.

An important case was tried in the Somerset County Court, New Jersey, recently, the result of which will be of particular interest to railroad companies and to passengers who may meet with accidents. John Knable, the plaintiff, received injuries on December 21st 1871, while riding in the rear car of a train on the Connellsville Railroad, a bruised rail having thrown the car down an embankment into the river. It was shown to the Court that the repair-master of the division on which the accident had occurred had been notified of the defective rail. In the instruction to the jury the Court held that when an accident happens and a passenger is injured, the presumption is against the carrier, and that the defendant must remove it by showing that there was no negligence. On the question as to what the law requires in regard to the structure of railroads, the Court substantially charged as follows:

The road must be constructed of the best materials, in the best known manner. It must be safe and sufficient beyond question in view of the business to be done upon it. The ties must be sound and strong, the rails strong, well laid and well fastened. The road in its structure must be up to the standard of the best roads, and it must be kept up to that standard. The utmost care and vigilance is required of the company in keeping it in repair. It must be kept in the best condition. It must not be suffered to be out of repair for a moment longer than the utmost diligence requires. It must be always as good as new, as good as the best. The railroad company is bound to keep hands enough, and of such quality as to keep the road in the best order. Not to have the road up to the standard indicated is negligence. The slightest neglect to keep it in this condition, if hurt or loss occurs to any one, will render the company liable. If injury results from a defect in the road the carrier can relieve himself from responsibility only by showing that the defect was one which could not be discovered or cured by any attainable skill, foresight or intelligence.

On the question of damage the Court affirmed the point of counsel to plaintiff in this regard, which is to the effect that the plaintiff can only recover such compensation for loss and damage as the evidence clearly proves him to have sustained not exceeding $3,000. The jury rendered a verdict for the plaintiff for $1,400.

Eastern (Mass.) Railroad.

INTRODUCTION OF VALUABLE SIGNALS.

The Eastern Railroad is about to place in position at each station a signal of such reliability and simplicity as will surpass all others which have heretofore attracted the attention of railroad men. The invention consists of a large wooden box upon which is firmly set a tin case inclosing a lamp, the whole being attached to the depot at such a height as to be plainly visible to approaching trains. On opposite sides of the tin box, or the sides designed to face up and down the track, are immovably fixed white glass bull's eyes of a diameter of five inches, upon which the light from the lamp inside is thrown, and is in turn powerfully reflected upon the track. Inside both the tin and wooden boxes are concealed signals of different colors, which by a simple arrangement of shafts and pulleys may be so simultaneously raised or lowered as to give at a moments' warning the desired signal. The signals contained in the wooden box are made of tin, are painted red or blue as the case may be, and are lowered through an opening at the bottom of the box. These are designed mainly for use by day. Those contained in the tin box are designed for night use, and consist of colored glasses so arranged as to be brought between the lamp and bull's eye. A powerful colored light is by this means thrown up and down the track.

The object of having both connected and so arranged as to be raised and lowered at the same time is to provide a double safeguard in case of the failure of one or the other to act. To the shafts and pulleys by which the signals are operated is connected a strong iron chain, which is introduced through the outside of the depot and attached to a heavy weight on the inside, thus preserving an equilibrium. The weights are within arm's length of the telegraph operators, who upon receiving a train order may instantly raise or lower the desired signal without leaving his seat. The night signal is said to be visible three miles.

The arrangement of signals above described is the invention of Mr. A. C. Harvey of St. Johnsbury, Vt., at which place it has been in successful operation for some time. The attention of Mr. H. N. Rowell, the Superintendent of the Eastern Railroad Telegraph Department, being directed to the new invention, Superintendent Prescott was induced to give it a trial. Accordingly two weeks ago a signal box was erected at the Ipswich depot, which has given such satisfaction that orders have been given for its introduction at each station on the Eastern Railroad. During the coming spring the new signals are to be introduced on the Northern New Hampshire Railroad and the Connecticut and Passumpsic Rivers Railroad. A model was exhibited at the Superintendent's office of the Old Colony Railroad, which gave such satisfaction that a signal box was immediately ordered for trial.

☞ Messrs. CLARK, REEVES & Co., proprietors of the Phœnixville Bridge Works, Phœnixville, Pa., propose to construct a wrought iron tower, one thousand feet in height, to be completed for the American Centennial Exhibition in 1876. The tower is to be circular in section, one hundred and fifty feet in diameter at the base, diminishing to thirty feet at the top. It is proposed to have spiral staircases winding around the centre tube for those preferring to walk up; but elevators will be provided, which are calculated to ascend to the top in three minutes.

Exports of Railway Iron.

The exports of railway iron from the United Kingdom in November amounted to 70,781 tons, as compared with 81,792 tons in November, 1872, and 73,284 tons in November, 1871. In the total for November this year Russia figured for 12,029 tons, the United States for 17,919 tons, and Australia for 6,127 tons. In the eleven months ending November 30th this year the aggregate exports were 737,250 tons, as compared with 881,610 tons in the corresponding period of 1872, and 919,890 tons in the corresponding period of 1871. In the total relating to the first eleven months of this year Russia figured for 160,401 tons, the United States for 177,955 tons, British America for 54,584 tons, and Australia for 27,788 tons. The exports have increased this year to Russia, Sweden and Norway, Holland, France, Spain, the Spanish West Indies, Chili, British India and Australia; but they have decreased to Germany, Austria, Egypt, the United States, Brazil, Peru, and British America. The value of the railway iron exported in November was £953,203, as compared with £979,428 in November, 1872, and £679,965 in November, 1871; and in the eleven months ending November 30, this year, £9,748,283, as compared with £9,428,082 in November, 1872, and £7,557,749 in November 1871.—*Herapath, Dec. 27.*

Boston and Albany Railroad.

The receipts and expenditures of this road for the financial years which terminated September 30, 1872 and 1873 have been as follows:

Receipts:	1872.	1873.
From passengers	$2,880,888 85	$3,011,562 19
" freight	5,846,768 11	6,221,183 26
" mails, etc	531,946 85	565,287 07
	$9,259,598 81	$9,798,032 52
Expenses:

From this deduct—		
Interest	$218,908 67	
Loss received from Baring Bros. in final settlement	9,088 59	
	$209,870 08	
Ten per cent dividends	1,976,410 00	
Dividends on Pittsfield and North Adams R. R., six per cent	27,000 00	
		2,213,280 08
Surplus not divided		$23,592 81
Add surplus at commencement of year		3,240,307 18
Total surplus		$3,263,899 99

The auditor reports the amount of uncollected bills at all the stations, for business prior to October 1st, to be $44,021 76. The amount reported as probably worthless, last year, has been reduced to $10,980 87, which has not been charged off as more payments are expected in settlements of estates. The president in his report says:

The past year has been marked by unusual activity, both in the regular operations of the road and in prosecuting works of permanent improvement to the property of the company. The total number of tons moved the past year has been 2,884,520, against 2,782,907 in 1872, showing an increase of 151,613 tons, or about 6 per cent, and equivalent to a gain of 27,605,787 tons moved a mile, a gain of 10 per cent.

In 1872 we transported 1,525,517 barrels of flour. This year 1,963,507, an increase of 437,990 barrels, or 21 per cent.

Our passenger traffic also shows a large gain; the total number of passengers carried this year being 5,757,664, against 5,247,576 in 1872, or a gain of 510,048 passengers, or about 10 per cent.

Among the works of permanent improvement, the largest share of attention has perhaps been bestowed upon the bridges. At Springfield the iron superstructure for one track has been finished and put to use, and that for the second track is being rapidly pushed forward to completion. The upper bridge over the Hudson River at Albany has been thoroughly reconstructed with iron, in place of the former wood superstructure, to which we have paid our proportion, in connection with the New York Central and Hudson River Railroad Company. Five wooden bridges at various points have given place to iron, and four to stone, the latter being constructed of the most substantial granite masonry.

Five wooden bridges have also been thoroughly rebuilt with heavier material. Wherever the water way is sufficient, it has been our policy to substitute stone arches, in preference both to iron and wood structures.

About 6,000 tons of steel rails have been laid, and an additional 6,000 tons would have been now in the track, had it not been for the failure of certain parties to fulfill their contract, calling for a delivery of that amount in the months of May, June, July and August. In consequence of this default we have been compelled to resort to re-rolled iron rails at a considerable disadvantage. Since the close of the year, however, we have entered into negotiations for a supply of steel rails, a portion of which have already been delivered, and others are now in the rolls.

The Union Passenger Station at Worcester is fairly under way, and a new station has been established with convenient depot buildings erected at Janesville, which will afford better accommodation for the business of Leicester, Cherry Valley and the surrounding district.

The contemplated improvement in the depot accommodations at Springfield still awaits the decision of the county commissioners of Hampden County, before whom a joint petition of the city government and this company for a change of the grade at Main and Chestnut street crossings is now pending. Both at Springfield and Worcester new and commodious freight depots have been erected during the year, and large additions have been made to the freight yard accommodations. New machine shops have been built at Boston and Albany, and a large amount of new machinery added.

The property referred to in our last report as having been purchased at Brighton, has been graded and drained, and will, when completed, afford accommodations for our live stock business second to none in the country.

Work upon the East Boston elevator has been steadily progressing, and it will be finished and ready for the fall traffic of 1874.

In the appendix will be found an Act of the Legislature, passed at the last session, authorizing a change of location of our road in the towns of Russell and Montgomery. By this change we do away entirely with three wooden bridges, and avoid the danger and expense to which structures of this character must necessarily subject us.

The graduation on this alteration is under way, and when completed, it is believed, the result accomplished will demonstrate the wisdom of the expenditure.

Since April 1st, under a temporary arrangement, we have been operating the Ware River Railroad as far as completed, and have found it a valuable tributary to our business. Nearly all the coal for the manufacturing towns in the Ware Valley, has been supplied from Hudson, giving us a haul of about 130 miles, and the manufactured goods destined to the Boston market have been transported on a through bill of lading, at rates which it is believed are entirely satisfactory to the shippers.

Two new express trains have, during the year, been added to our time table for the accommodation of our increasing passenger traffic, one equipped with sleeping cars, and making a quick night run to Rochester and the West, and the other running to and from New York, upon a time table which it is expected to reduce to seven hours as soon as the alterations and improvements below the Harlem River are so far completed as to permit of increasing, with safety, the speed of running on that portion of the line.

Large additions to the rolling stock of the road have been made. Eighteen locomotives have been built in our own shops, and 12 purchased from other makers. Twenty-five of them are additions to the permanent power of the road, and 5 have taken the numbers of old engines broken up. Twenty passenger and baggage cars have been built and purchased, and 851 freight cars have been built in our own shop. Ninety-nine of them have taken the place of old cars destroyed, and 752 added to the property of the company. The whole of our equipment is in thorough repair.

We have thus briefly alluded to some of the largest and most expensive outlays which have been made. In all departments of work the year has been one of exceptional demands upon our treasury, but it is confidently believed by your directors, that the money expended in the improvements alluded to, will prove to be a wise investment. How far we should be justified in making engagements for such extraordinary outlays another year, with the experience of recent financial disturbances fresh in memory, may well be questioned.

From present indications, a more healthy current of public sentiment than has for some time prevailed, seems now to be setting in the direction of retrenchment, recognizing the necessity of greater economy and prudence in the administration of private as well as public trusts.

We beg to submit whether, as public servants, the great corporations of the country may not render effectual aid in reinstating public confidence, and restoring a more healthy condition of affairs, by exercising a judicious system of retrenchment; and in this connection we cannot refrain from congratulating you that your property was never in a condition so well fitted to meet such an emergency, without hazard to our obligations to the public, as at the present time.

The company have 58 passenger and 173 freight locomotives; 161 passenger 44 baggage and postal, 4,523 merchandise, and 528 other cars. Also, 98 23-4ths of 53 passenger, 2 express, 5 post office, and 11 baggage cars of the New York and Boston Express Line.

The number of miles run by locomotives with passenger trains, was 1,299,412; with freight trains, 4,224,050; with gravel trains, etc., 138,092—total, 5,661,554.

The number of through passengers carried, was 71,752; way do. 5,685,872—total, 5,757,624. Number of passengers carried one mile, 120,662,660.

The total number of tons moved was 2,884,520, of which 750,754 went west, and 2,133,766 east. The through tonnage westward amounted to 116,861; do. eastward, 652,478. All other tonnage westward, 633,893; do. eastward, 1,481,293. Equivalent number of tons carried one mile, 817,670,752—equal to 1,588,534 tons carried over the whole road.

An aggregate of 433,338,412 passengers or tons of freight carried one mile in 1873, against 403,112,296 passengers or tons of freight carried one mile in 1872.

The cost of transportation of each passenger and each ton of freight one mile this year has been 1.725 cents, against 1.711 cents in 1872.

BALANCE SHEET, September 30, 1873.

Cumberland Coal Trade.

A statement compiled from official sources by C. Slack, Mount Savage, Maryland, shows the following details of production: To Baltimore and Ohio Railroad, 1,745,429 tons: Chesapeake and Ohio Canal 778,802; Cumberland and Pennsylvania Railroad, 114,589; local, 35,281; total, 2,674,101 tons, an increase of 318,630 on 1872. Of the amount of 114,589 tons sent over the Cumberland and Pennsylvania road, a comparatively new outlet, having been in operation in the business for the past two years only, 99,445 were by the Consolidation company, 744 by the American Coal company, 14,315 by the Borden Mining company, and 85 tons by the Hampshire and Baltimore company. A recapitulation of the shipments from 1842 to 1873, inclusive, foot up Baltimore and Ohio Railroad 15,936,993; Chesapeake and Ohio canal 7,818,902; Cumberland and Pennsylvania 136,610; total, 23,927,786.

☞ The Philadelphia *Ledger* says that the supply of coal of all kinds for the year 1873, as far as reported to the 31st of December, foots up 22,549,968 tons, against 21,162,731 tons in 1872, showing an increase of 1,386,687 tons, of which increase 861,912 tons are anthracite and 526,725 tons bituminous.

☞ The Lucy Furnace, at Pittsburgh, Pa., produced 475 tons of Bessemer pig iron in one week recently, which its owners claim to have been the largest amount of this kind of iron ever made by one furnace in this country during the same time.

Debt of the City and County of New York.

The report of the Comptroller shows that during the month of December, 1873, the total amount of warrants drawn on city account was $9,916,615 69, and the total amount drawn during the year $55,747,241 20.

The amount of warrants drawn during December on county account was $2,322,401 39, and during the whole of 1873, $13,549,746 75.

The city and county debt on the 31st of December, 1872 and 1873, compare as follows:

City account—	Dec. 31, 1872.	Dec. 31, 1873.
Funded debt, payable from taxation and sinking fund	$63,786,255 51	$69,624,054 49
Temporary debt payable from assessments	16,927,372 30	21,927,372 30
Revenue bonds issued to pay old debts, chaps. 9, 29 & 375, laws 1872	6,446,497 55	6,615,697 55
Revenue bonds, special, chap. 625, laws 1871	.....	2,034 53
Revenue bonds, anticipating taxes 1873	.....	1,472,547 12
County account—		
Funded debt payable from taxation	29,987,404 46	29,868,165 23
Revenue bonds, issued to pay old debts, ch. 1, 9, 29 & 375, laws 1872	1,667,700 00	1,694,700 00
Total	$118,815,229 82	$131,204,571 22
Less sinking fund	23,348,074 89	24,832,617 50
Balance	$95,467,154 93	$106,371,953 71
Cash in City and County treasury	$2,260,861 82	
Cash in sink'g funds	303,791 80	

The amount of stock and bonds issued during the year was $31,583,174 25.

☞ The time for the completion of the Cairo and East St. Louis Narrow Gauge Railway has been extended to the 1st of July. The road is now finished and running from St. Louis to Murphysborough, the county seat of Jackson county, a distance of ninety-one miles. From thence to Cairo is less than fifty miles. It is all graded, and the iron for most of it is ready.

☞ The receipts of lead at St. Louis in 1873 were 389,589 pigs, weighing 31,132,030 pounds, against 277,794 pigs in 1872, weighing 20,911,880 pounds—an increase of 111,745 pigs, or 10,220,190 pounds. The exports were 228,683 pigs, weighing 18,917,885 pounds, against 65,650 pigs in 1872, weighing 4,950,000 pounds—an increase of 163,033 pigs, or 13,967,885 pounds.

☞ The Schuylkill Navigation Company have declared a dividend of sixty cents per share on the preferred stock and thirty cents per share on the common stock. Said dividends will be payable in scrip, on and after Monday, Feb. 2d, 1874, and will be convertible into the six per cent mortgage loans of the company of the years 1872, 1897, on and after Wednesday, March 4th, 1874, in sums of $100 and upwards.

☞ The product of Quincy mine for the month of December was 246¼ tons, and for the year ending December 31, 1873, 1,711 tons.

From Herapath's Railway Journal, Dec. 20, 1873.

Detroit and Milwaukee Railroad.

The following circular, issued during the week, formally announces the suspension of the bond interest, which, however, is likely to be but temporary. We cannot but think that the 1st and 2d bonds are safe:

To the Bondholders of the Detroit and Milwaukee Railroad Company:

The directors regret their inability to promptly meet the interest on bonds due this day. The company finds itself embarrassed at the present time from several causes.

1st. Owing to the severity of the last winter the lake navigation was entirely suspended for between two and three months, during which time the through traffic had to be stopped altogether.

2d. Owing to the rapid failure of the re-rolled iron rails, an experience shared in by many of the Western railroads, considerably larger renewals of rails than usual had to be made, and these renewals having to be made in steel, at double the expense of iron rails, a very large sum was required, in fact, one-third of the entire line has been renewed in steel rails during the past six months, the extra cost having been much more than the entire bond interest.

3d. The calamitous financial panic which has visited the country has curtailed the receipts in the past two months by about sixty-five thousand dollars, while there was every reason to have expected an increase of at least thirty-five thousand dollars, at the rate receipts were increasing when the panic commenced.

The company has also had the misfortune to have its traffic largely affected by the loss of one of the steamers connecting the line with Milwaukee. Up to this date the directors had reason to expect that the Great Western Railway of Canada, the owners of a controlling interest in the shares of the company, would provide means to pay the coupons due this day. They are informed that measures to this end, and for the general improvement of the property, recently submitted to the shareholders of that company, have been postponed. While further negotiations are pending, it is thought that you will agree with the directors of the Detroit and Milwaukee road, that friendly co-operation on the part of bondholders is desirable. They recommend to all interested the expediency of keeping the property intact, with a view to seize the first favorable moment to relieve the line from embarrassment, an event to which this board look forward with confidence. By order of the board of the Detroit and Milwaukee Railroad Company.

JAMES H. MUIR, Secretary.

Detroit and Milwaukee Railroad Offices, Detroit, Michigan, U. S., Nov. 15, 1873.

Railroads of Ohio.

The Commissioner of Railroads and Telegraphs of the State of Ohio, writes to the Ohio State Journal, under date January 9, 1874, as follows:

The official reports of the several companies to this office for the year ending June 30, 1873, give us 4,280 miles main line and branches, and 1,044 miles second track, sidings, etc., making total length of track in the State 5,324 miles, June 30.

Since June 30 and prior to January 1, the Ohio division of the Baltimore, Pittsburg and Chicago railway had laid 62¼ miles from near Centreton, on the Lake Erie division, Baltimore and Ohio, to Deshler, on the Dayton and Michigan Railroad; the Painesville and Youngstown 23 miles; the Marietta and Pittsburg 9¼—a total of 95 miles (besides additional track laid by other companies, exact length not known), which gives us in the State on 1st January, 4,375 miles.

☞ The "Hall Railway Signal Company," with a capital of $150,000, has been organized in Meriden, Conn., to manufacture Hall's automatic railway signals. Charles Parker is president of the company.

The Hoosac Tunnel Railway Route.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR OF MASSACHUSETTS.

The contractors of the Hoosac Tunnel have prosecuted their work with reasonable energy during the year just closed, and you do not need to be informed that they opened a passage through the mountain on the 27th of November last. I feel that we should fail of our duty in the premises if we did not recognize the remarkable skill and unwearied patience of the engineers in charge of this great undertaking. The scientific men of Europe were highly elated on the opening of the Mont Cenis Tunnel, when it was ascertained that the working lines thereof varied only half a yard at the junction of the headings. But the largest error found in the lines at the opening of our Tunnel was but nine-sixteenths of an inch, being less than one-sixteenth of an inch per thousand feet of advance. Such perfection of engineering is without parallel in works of this nature, and our engineers and contractors have a right to exult in the success of their arduous labors.

The first step in this enterprise was taken in 1848. From the beginning the history of the work is a story of struggle, imminent failure, skillful pluck and unexampled perseverance. The friends of the undertaking have pushed it with a valor that would not be defeated, while its opponents have fought it with an obstinacy worthy a better cause. Now that it is so near its completion we may concede that it would scarcely have been entered upon if the immense difficulties to be overcome had been clearly foreseen. To reach the point we now occupy has taken four times as long and cost three times as much in labor and money as was anticipated.

In the early stages of the enterprise the towns along the Tunnel line taxed themselves heavily to provide means for its prosecution, and the strong men of that entire section gave their whole energy to its promotion. But the solid mountain was too vast a barrier for private capital and labor, and in 1862 the State was obliged to assume the work or see it come to an utter failure. New plans were adopted, new methods organized, and new energy infused into the project. This phase of the undertaking continued five years, at the end of which time the mountain had been penetrated nine thousand three hundred and forty-one feet. Then came the final crisis. There was a lack of harmony in the administration of affairs, the people had become tired of State management, and strong efforts were made to secure an abandonment of the enterprise. But the Commonwealth was determined to have a Tunnel, and those efforts signally failed. Thereupon a contract was made with the Shanlys to complete the Tunnel by the first of March next, at a cost of $4,594,268. From this point dates assured success. Notwithstanding the peculiar and vexatious obstacles encountered, the contractors have made steady and continuous progress.

To-day we have every reason for believing that the remaining work will be advanced with such rapidity that in eight months the tunnel may be ready for use as a part of the through railway line. When completed it will be four and three-quarters miles long, of sufficient size for a double track, and to allow cars of the largest dimensions to pass each other without difficulty. With this prospect for the year on which we have just entered, it behooves you, as the immediate representatives of the people who have put their money and their hopes into the enterprise, to weigh well the action you must take to secure the advantages they expect to derive therefrom.

The State's consulting engineer has made a careful examination and survey of the railway from Greenfield to the tunnel, and will present his report at an early day, accompanied with estimates and a map, indicating such alterations in the line, to diminish the curves, improve the grades and strengthen the embankments as he deems necessary to place the road in good condition for the traffic that must pass over it. The execution of his plans will make it fully equal to the mountain division of the Boston and Albany line. If it should be deemed advisable hereafter to change the location of the road, in order to shorten the distance and meet the demands of increased business, the present line will be required for freight purposes, and no loss will accrue by reason of the suggested improvements. Provision has been made for the construction of the necessary bridges and the laying of the track between North Adams and the tunnel, and also for the extension of the track east of the mountain from the present depot to the end of the tunnel, so that if you decide to adopt the recommendations of the engineer, and furnish the means at an early date for carrying them into effect, it is believed the entire line west of Greenfield can be made ready for business by the first of September next. The alterations requisite on the road from Fitchburg to Greenfield are much greater, and a much longer time will be required to make them, but the existing line can be used till these needful changes and improvements are consummated.

The most important question pressing upon us for answer at the present session of the General Court is, What shall the State do with its forty-four miles of railway and Tunnel? The benefit which the people of the Commonwealth are to derive from the undertaking now so nearly finished, depends in a very large degree upon the proper solution of this problem. Conflicting interests, rival railroads and personal considerations naturally divide popular sentiment in regard to this subject. While there is such variance in the views of the people, no one need wonder that there is some difficulty in harmonizing the views of their representatives.

The original purpose with respect to the Tunnel was to open, in conjunction with roads then in operation, a new and competing line between Boston and the Hudson River. The situation has somewhat changed with the lapse of years since the work was begun. The objective point is still a point reached over the Boston and Albany, but consolidation and concentration of business have altered the conditions of competition. The Boston and Albany has now a double track, fully equipped road, and, by its connections and contracts, is measurably enabled to control freight to the Lakes. That the population along its line requires and sustains frequent and rapid passenger trains, by which it can without much additional expense meet the demands of through travelers, must for many years to come give it decided advantage as a passenger route. In other words, its facilities for every kind of transportation are such that it can offer great inducements to the Western roads to turn their business to its line.

A strong corporation is essential to fair prospect of successful competition with it. The physical superiority of the new route cannot be relied upon to accomplish everything. Nor will it be possible to succeed if the Tunnel line is in the hands of several boards of management, each of which has a special interest in the section of road it particularly represents. But in order to secure an energetic and effective operation of the line it ought to be placed in the direct control of a single board, thoroughly comprehending the magnitude of its task, able to equip the whole road in the best possible manner, and capable of appreciating the opportunity now offered. Thus and thus only, in my judgment, can the new route be made to realize the seasonable expectations of the public.

Shall the State undertake this work? I am aware that numbers of our best citizens believe she should, but I confess that I have had strong misgivings from the first, and doubt the expediency of such a course as much to day as ever. I know it is said that other governments have tried the experiment and brought it to a successful issue. But we must not forget that our government is different from any other. It seems to me that our annual change of administration, our sudden political revolutions, and the too prevalent idea that spoils necessarily belong to victors, would essentially interfere with the stable and economical management of a railway. Furthermore, it would be impossible for the State itself to operate a railroad, for the reason that a State cannot be sued, and questions are constantly arising between the customers and the management of railways that require judicial investigation. Hence the experiment which it is demanded that we should try seems to me practicable only through a board of trustees organized as a corporation, capable of suing and being sued, and with full power to manage the line.

In considering this aspect of the matter perhaps we may draw a profitable lesson from our experience in undertaking as a State through a commission to excavate the Tunnel. The annual appeals to the General Court for new legislation and further appropriations, the tedious and repeated hearings before the Governor and Council and legislative committees, so wearied the different branches of government that they finally determined to endure the perplexity no longer, and thereupon the contract was given to the Shanlys, in the conviction that private enterprise could carry on the work more economically and with far less trouble. Even now claims that were settled by the Tunnel officials during the period of State management are annually presented to the Legislature, on the ground that the Commissioners were simple agents whose accounts should be re-adjusted by the higher tribunal; and as the hearings on these memorials are mostly *ex parte*, the petitioners frequently secure the favorable report of bills making further allowance in respect to claims that no one would attempt to bring before a tribunal of persons acting in a private business capacity. If we embark the State on this new enterprise of railway management, we invite manifold enlargement of difficulties and perplexities from which our predecessors were glad to escape, and bring upon the Commonwealth an expenditure and indebtedness the magnitude of which no human foresight can predict.

But while I am opposed to engaging the State in any business that can better or as well be prosecuted by private enterprise, and believe the management of a railway wholly outside its legitimate province, yet if the experiment must be tried, perhaps the present may be considered as favorable an opportunity as can be expected to occur. It would seem preferable to lease the connecting roads rather than to buy them, because in case of failure it would be easier to relet than to sell.

The popular demand that the Tunnel shall be retained by the State is too evident to be overlooked or ignored. Just at present the general sentiment appears to be that it must never become part of a consolidated line. While I do not fully sympathize with this sentiment, but believe a different view will ultimately prevail, yet we must accept the situation as it is presented to us, and apply ourselves to the wisest solution of the problem that is practicable under this aspect of affairs.

Since the Tunnel was begun additional railways have been projected that seek a connection with the new line and demand equal facilities therewith. These side, and to some extent conflicting, interests increase the difficulty of deciding how to dispose of the Tunnel so as to bring the greatest benefit to the whole body of our people. It is a fairly settled result of railway experience that it is dangerous and highly inexpedient to allow independent lines to operate the same section of road. Hence, if there must be reserved to those other companies the right of equal advantage through the Tunnel with the main line, the State may retain its ownership of the Tunnel and the Greenfield road, and make provision for their management through agents or trustees. It would not be advisable to retain the Tunnel and sell the road, for the connection is such that in this event the State would be at the mercy of the parties operating the road. It would be bottled up in the Tunnel, without power to extricate itself, except upon such terms as the railroads dictated.

The wisest solution now possible of the grave

problem before us may be to place the entire interest of the State in the hands of a board of trustees. The duties of such a board would be limited and simple. They could either operate what the State owns by furnishing the motive power themselves or, so long as there exists but one road on either side the mountain that connects with the tunnel, they might contract with this road for the operation of the State's interest. The objection to the management by the State of the section which it owns lies in the danger that the line would be weakened by dissipating the business and severing the through connection. For it is not alone the community directly served that will derive benefit from building up a strong through line in connection with this route. The tunnel can be made of advantage to the Commonwealth far beyond the amount of business actually passing through it, by its power to control or regulate business that will continue to flow in its own channels on existing lines between the East and the West. But to maintain this power and render it effective, the tunnel line must be directed and managed by a strong organization of some kind. If the plan I have suggested is adopted, the trustees of the State should be appointed for a term of years, that there may not be sudden and frequent changes of management, and that the line may be beyond the influence of political upheavals.

The corporations entering this new field must have broad and far-reaching views of the work before it. It must possess the strength requisite to make the necessary improvements and equip the whole line in the most thorough manner. It must be in active sympathy with the people of the State, and alert to bring business to the line, as well as prompt in the accommodation of what naturally seeks it. It must be wise enough to deal judiciously and patiently with local rivalries and jealousies, and not over anxious to make large dividends at once to the prejudice of future prosperity. Thus seeing and meeting its opportunity, it will eventually give us what has so long been desired, a shorter and quicker route than now exists between the tide waters of our State and the great lakes of the West. With the realization of this desire we should be compelled to say that the gain and profit of the Tunnel outweigh all its cost.

Post Office Statistics.

Some interesting statistics can be gathered by the annual statement for 1873, issued by the Carriers' Department of the Post Office in this City. An idea can be formed of the large amount of correspondence which passes through the Post Office in this City by the following figures:

Number of mail letters delivered by carriers	31,402,855
Number of local letters	19,014,030
Number of newspapers	6,736,764
Total	57,153,649
Number of letters deposited in stations and collected from lamp-post boxes, intended for the outgoing mails	47,558,816
Number of letters deposited in stations and collected from lamp post boxes, intended for City delivery	35,231,595
Number of newspapers deposited in stations and collected from lamp post boxes	10,826,950
Total	93,617,361
Amount of postage on matter deposited in stations and collected from lamp-post boxes, intended for City delivery	$680,226 72

☞ The President has appointed Edward R. Geary, of Albany, Oregon; George H. Hurlburt, of Belvidere, Ill., and Stephen P. Lee, of Damascus, Oregon, Commissioners to examine the Northern Pacific Railroad, from near Tenino to Tacoma, Washington Territory.

Mansfield, Coldwater and Lake Michigan Railroad.

At the annual meeting of the stockholders of this company held at Mansfield on the 5th inst., the following Directors were elected: S. B. Sturgis, R. F. Smith, V. H. Collier, H. C. Lewis, F. A. Gorham, W. Swayne, H. C. Hedges, W. Sheffield, Jas. Fisk, D. D. Hughes, J. Twing Brooks, F. V. Smith and William Sheffield. On the Michigan division, (100 miles in length) 12 miles of the northern end are completed. Upon the balance of the line, (eighty-eight miles to the Ohio State line,) $604,552 have been paid, the main portion for grading, engineering and right of way. The work remaining to be done is estimated at $18,545; indebtedness, $62,492 76; assets and subscriptions unpaid, $70,217. On the Ohio division, the total subscriptions to all branches amounts to $1,180,890 90; total paid, $770,601 04; leaving a balance of $369,289 41 unpaid. The total amount expended on the line is $821,109 44.

☞ At the annual meeting of the Boston and Lowell Railroad Company, held in Boston on the 7th inst., Francis B. Crowninshield, Josiah G. Abbott, Hocum Hosford, George Stark, and William A. Burke were elected directors for the ensuing year. Additional information being required by one of the stockholders concerning the Mystic River corporation to that given in the report, President Crowninshield replied that the amount filled in was seven acres, and the wharf had been so far completed as to be leased to the Iron Company and ready to receive a large amount of freight. It is expected to enter into negotiations with an European line of steamers for the construction and use of an elevator, and all the water shipments to the Boston, Lowell and Nashua Railroad are received at, and the coal from above had been brought to Mystic wharf.

☞ At the annual meeting of the stockholders of the Montpelier and Wells River Railroad held at Montpelier, Vt., on the 6th inst., the following gentlemen were elected directors: J. N. Hall, J. G. French, Joel Foster, Jr., C. H. Heath, J. W. Brooks, S. C. Shurtleff, George Wooster, Geo. B. Fessenden and C. M. Weeks. The year, owing to the financial crisis, has been a hard one for the directors, but they have brought their young road thus far with commendable prudence. The total receipts of the Treasurer for the year are $338,604, and the total disbursements $388,924. The line began business in a modest way in September, and its receipts to Jan. 1 are $8,135 and the expense of operating it $7,289. It is at present run only to do a little local business.

☞ It is proposed to run a line of railway from Key West through Florida, crossing at right angles the railroad which extends from Cedar Keys on the Gulf of Fernandina on the ocean, thus making connection with Savannah and the great network of railways going north, south, east and west. To carry out the project it will be necessary to locate the road over more than 100 miles of islands, or keys, as they are there called, and the engineers report that this can be done without an extravagant outlay. The profit would be expected in the immensely increased travel and trade between Cuba, Jamaica, Santo Domingo and the Bahamas and the continental cities.

Watches for Locomotives.

For years the Pennsylvania Railroad have made a first-class watch a part of the engine equipment. Every engine upon the road has its watch numbered to correspond with the number on the engine. The watches are purchased by the company and controlled by the proper officers. In the office of each division superintendent hangs a watchwaker's board with numbered hooks for all the engines belonging to that division. When the engine goes out upon a trip, the watch is taken from the hook. When it returns, the watch is replaced, and while in the office is run with the regulator. As a consequence, all the engines upon the road are being run upon a uniform time, and no record has yet been made of an accident resulting from a discrepancy of watches.

☞ The earnings of the Union Pacific Railroad for November, 1873, were $970,660 35, the expenses $438,087 08, and the net earnings $532,573 27. In November, 1872, the earnings were $915,727 08, the expenses, $362,443 03, and the net earnings $553,384 20—showing an increase in earnings of $54,933 12, with an increase in expenses of $75,744 05, making a decrease in net earnings of $20,810 93. From January 1 to November 30, 1873, the earnings were $9,507,271 37, the expenses $4,725,733 50, and the net earnings $4,781,537 87—showing an increase in gross earnings compared with 1872 of $1,372,516 76, and an increase in net earnings of $1,095,527 51.

☞ The Chicago and Northern Pacific Airline Railroad runs in a straight line from Chicago to Duluth, and when completed will be 406 miles in length. Forty-seven miles of the road in Wisconsin are graded, and the iron will shortly be put on. The following persons are the officers of the road: George E. Wheeler, President; Nelson Ludington, Vice President; H. A. Warren, Secretary; J. C. Barnes, Treasurer. Most of the directors are wealthy New York capitalists.

☞ The Pittsburg *Chronicle* says that Hon. H. J. Jewett has been appointed General Manager of the Pittsburg, Cincinnati and St. Louis Railway, that arrangements are making to run the road in a manner independent, and that the general offices of the company will be removed from Pittsburg to Columbus.

☞ At the annual election of the Rutland and Whitehall Railroad Company, W. W. Cooke was chosen President, A. Allen, Vice President, and Ira C. Allen, Treasurer and Transfer Agent. The road is now in a prosperous condition, its business having been increased largely within the year.

☞ Five hundred shares of Boston and Providence Railroad stock, being the balance of the stock authorized by act of the Legislature, was sold at auction on the 10th inst. for $147½ per share, at which price the entire lot was taken by one purchaser.

☞ The stockholders of the Boston and Albany Railroad Company have ratified the lease of the Ware River Railroad by a vote of 104,000 to 77.

☞ The balance in the Minnesota State Treasury is $218,398. The recognized bonded indebtedness is $465,000.

RAILROAD EARNINGS—MONTHLY.

Central Pacific (in gold).	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

Movements of Produce at Milwaukee.

The following table shows the total receipts of the leading articles of produce by lake and rail at Milwaukee for the year 1873, as compared with those of 1872:

Articles.	1873.	1872.
Flour, bbls	1,229,696	814,202
Wheat, bus	27,918,512	13,281,473
Oats, bus	1,584,928	1,597,726
Corn, bus	920,864	2,140,178
Rye, bus	376,964	409,673
Barley, bus	1,210,111	1,532,078
Beans, bus	13,479	13,080
Peas, bus	65,782	82,873
Potatoes, bus	67,024	95,429
Cranberries, bbls	7,246	37,803
Clover seeds, lbs	468,821	732,480
Timothy seeds, lbs	767,620	1,095,000
Hops, bales	8,752	14,055
Hides, No	172,924	186,903
Cattle, No	14 154	14,173
Live hogs, No	235,670	138,106
Dressed hogs, No	153,325	163,327
Butter, lbs	3,454,384	4,280,096
Eggs, bbls	32,100	32,123
Wool, lbs	2,198,508	1,677,968
Tobacco, lbs	4,650,880	6,418,000
Pork, bbls	3,784	4,105
Tallow, lbs	483,940	844,679
Lumber, feet	134,118,000	91,803,000
Shingles, M	89,885,000	25,524,000
Lath, feet	13,020,000	4,299,000
Wood, cords	56,700	43,303
Sugar, bbls	102,320	104,070
Sugar, hhds	521	1,001
Coffee, sks	29,179	32 168
Salt, bbls	238,921	178,098
Pig iron, tons	10,202	16,090
Iron ore, tons	90,008	112,889
Coal, tons	210,640	210,194

The following table will show the total shipments of the undermentioned articles from Milwaukee by lake and rail, during the year 1873, as compared with those for 1872:

Articles.	1873.	1872.
Flour, bbls	1,775,129	1,235,001
Wheat, bus	25,022,476	11,570,575
Oats, bus	990,230	1,323,284
Corn, bus	197,990	1,557,953
Rye, bus	255,928	209,751
Barley, bus	689,388	938,725
Beans, bus	22,448	19,540
Peas, bus	62,737	32 832
Potatoes, bus	53,530	32,861
Timothy seeds, lbs	560,855	296,332
Clover seeds, lbs	942,810	1,315,265
Hops, bales	3,591	9,011
Hides, No	52,980	42,380
Cattle, No	10,628	9,939
Live hogs, No	18,569	10,785
Dressed hogs, No	4,009	5,983
Butter, lbs	2,827,540	2,880,152
Eggs, bbls	10,595	14,958
Wool, lbs	3,807,311	2,218,360
Tobacco, lbs	4,019 000	
Pork, bbls	82,998	90,038
Pork, tcs	21,297	20,115
Beef, bbls	5,458	4,757
Beef, tcs	277	1,500
Lard, bbls	4,552	6,276
Lard, tcs	25,577	27,765
Tallow, lbs	648,000	497,870
Bacon, boxes	40,877	80,209
Bulk meats, lbs	3,817,980	4,557,900
Shingles	2,560,000	7,791,000
Feed, lbs	26,975,085	23,560,000
Pig iron, tons	6 012	8,160
Iron ore, tons	31,691	30,992
Cranberries, bus	8,602	28,485

☞ The gross earnings of the Philadelphia and Erie Railway, official for eleven months of 1873, and estimated for the month of December, amounts to $4,045,209, against $3,980,752 in 1872.

Finances of Ohio.

The following is a brief summary of the present financial condition of the State:

On the 15th day of November, 1872, the public funded debt of the State was $8,583,546 37

The redemptions during the year were—

Loan of 1860	$100 00	
Loan of 1870	358,784 27	
Loan of 1875	13,100 00	
Loan of 1881	500 00	
		372,484 27
Outstanding Nov. 15, 1873		$8,211,062 10

Of the amount outstanding on the 15th of November, the sum of $64,215 had ceased to draw interest, the holders thereof having been notified to surrender their stock for redemption, so that the interest-bearing funded debt of the State is $8,146,847.

The funded debt is divided as follows:

Foreign debt, payable in New York City	$8,209,397 10
Domestic debt, payable in Columbus	1,665 00
Total	$8,211,062 10

The total indebtedness of the State on the 1st day of September, 1873, was as follows:

Net debt of counties	$3,125,537 27
Net debt of townships, including debts created by boards of education other than for separate school districts	401,510 18
Net debt of cities (first and second class)	14,527,108 78
Net debt of incorporated villages	780,582 88
Net debt of school districts (special)	1,248,389 71
Total	$20,033,123 32

The amount of reimbursable debt, therefore, is—

State	$8,211,062 10
Local	20,033,123 32
Total	$28,244,285 42
Irreducible debt	4,070,420 96
Aggregate debts in the State	$32,314,656 38

The local indebtedness in this statement is reckoned to September 1, 1873, and the State debt to November 15, 1873.

The balance in the State Treasury on the 15th day of November, 1872, was	$447,588 84
The receipts, including transfers of $1,676,149 85, for the fiscal year ending November 15, 1873, was	6,366,778 66
Total amount of funds in the treasury for the year	$6,814,317 50
The disbursements, including transfers, during the year have been	6,684,731 08
Balance in the treasury November 15, 1873	$129,586 42
The Auditor of State estimates the receipts, including balance on hand November 15, 1873, for the current year, from all sources, at	$5,744,024 70
And the disbursements at	5,241,232 60
Leaving estimated balance in treasury Nov. 15, 1874	$502,792 11

The taxes levied in 1872, collectible in 1873, were—

State taxes	$4,414,557 25
County and local	18,834,422 49
Delinquencies and forfeitures	661,992 23
Total	$23,810,971 97

The taxes levied in 1873, collectible in 1874, were—

State taxes	$5,477,859 26
County and local taxes	20 653,493 98
Delinquencies and forfeitures	843,106 75
Total	$26,474,459 98

It will be observed by reference to the above figures, that while the State debt has during the past year been reduced $372 484 27, the local indebtedness has increased $2,442,575 85.

Debt of Massachusetts.

The Governor in his recent Message to the Legislature states that during the past year the Troy and Greenfield Railroad and Hoosac Tunnel Loan has been necessarily increased by further issues of scrip, amounting to nearly $1,200,000: but the extinguishment of other maturing liabilities leaves the net increase of the funded debt less than $800,000. The following statement exhibits the amount and character of the State debt at present:

Funded debt, January 1, 1873		$27,692,704
Retired during the year:		
Union fund loan	$298,500	
Almshouse loan	60,000	
State House enlargement loan	65,000	
		418,500
Balance outstanding		$27,274,204
Additions during the year:		
Tunnel loan—		
Sterling scrip	$798,600	
Dollar bonds	400,000	
New State Prison loan	5,000	
		1,203,600
Present funded debt		$28,477,804
Classification of outstanding liabilities:		
Railroad loans		$14,501,616
War loans		13,226,188
Ordinary loans		750,000
Total		$28,477,804

Installments of the funded debt amounting to $554,000 will mature during the present year, viz: Of the Union Fund loan, $300,000; State House Enlargement loan, $100,000; Almshouse loan, $50,000; and the Taunton Lunatic Hospital loan, $94,000. All these are payable from their several sinking funds, the last three being the only outstanding instalments of the loans they represent.

With the exception of floating liabilities, consisting mainly of sums due and uncalled for, the whole of comparatively small aggregate and fully provided for, the State has now no debt whose liquidation is not contemplated by established sinking funds and their large and increasing accumulations.

The ordinary revenues of the present year may be fairly estimated at	$2,586,000
Cash in the treasury applicable on the same account, about	1,387,000
The ordinary expenses of the year will be nearly or quite	5,245,000

To meet the apparent deficit in resources for the payment of estimated expenses, a State tax of from one and a half to two millions of dollars will probably be required.

☞ The Emmittsburg Railroad is about seven miles long, and extends from Emmittsburg to Rocky Ridge, a station on the Western Maryland Railroad, about five miles east of Mechanicstown. It has been graded and bridged, ready for the crossties and rails, at a cost of $50,000. A sufficient amount of first mortgage bonds will be issued at an early day to complete the road. The officers are determined to finish and put it in operation during the ensuing Spring. Joshua Motter is President of the company.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) *occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "Italics." State-aid Railroads are distinguished by a "¶."*

American Railroad Journal.

Saturday, January 17, 1874.

Stock Exchange and Money Market.

The working of the Money market has been favorable to borrowers. The supply of funds seeking profitable forms of investment has been liberal. Lenders have been quite prompt in making advances to responsible parties on satisfactory collaterals. The demand for accommodation has been fairly active, mostly from speculative sources, especially for use at the Stock and Gold Boards. The rates on call loans have been from 5@7, generally @ 6@7; and on mercantile credits, 7@10 per cent per annum. The accumulation of means at this point is indicated by the last City bank exhibit. The deposits show an increase of over 14 millions; the item of legal tender notes, of nearly four and a half millions; and the specie reserve of over 2¼ millions. The banks enlarged their loan and discount average, 4½ millions; and contracted their circulation slightly. The U. S. Sub Treasury, reports an addition of over two millions to its currency reserve, with a loss of nearly a million of Gold, as the result of the week's business. The City banks increased their average of gold last week to $32,679,100, as against $28,557,200 the preceding week; and their greenback average to $50,926,600, as against $45,976,600, on the previous return. Their deposits stood at 219⅝ millions, giving an increase of about 14¼ millions. The loan item was 265⅝ millions, against 260¾ millions on the former exhibit. The circulation was 27⅛ millions, against 27¼ millions the week before.

The U. S. Sub-Treasury, last week, enlarged its currency balance $2,058,940, and reduced its coin reserve $960,016. Its currency balance at the close of the week was $27,270,740; and its coin reserve $52,070,122.

The cash balances in the Treasury Department, at Washington, on Wednesday were as follows: Currency, $4,335,676; special deposits of legal tenders for redemption of certificates of deposit, $40,780,000; coin, $80,058,023; including coin certificates outstanding, $44,655,000; outstanding legal tenders, $381,536,315.

Gold has been more active, the speculative demand having been quite brisk, while the custom call has been increasing, and the export drain moderate. The price has been ruling higher, though closing irregularly. The extremes of the price have been 111⅛@112⅛, closing at 111⅜ as against 111¼ on Wednesday of the preceding week. The specie outflow, last week, was $540,447. The imports of specie at this port last week were $17,084, and since Jan. 1, $99,847, against $15,590 same time last year.

The customs demand for Gold last week averaged $377,283 a day. The total customs revenue of the Government, in coin, at this port, since July 1, 1873, has been $58,762,195, against $71,909 01 same time in 1872-'3. Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1873, $35,027,046 against $50,329,518 same time in 1872-'3. The export drain of specie since July 1, 1873, has been $22,329,039 against $38,371,262 in 1872-'3.

Foreign Exchange has been comparatively quiet, having been held with more firmness. The demand has been less urgent from nearly all sources. Bankers' sixty day bills on London closed on Wednesday at $4 82@$4 83; sight bills on London, at $4 85⅛@$4 86⅛. The week's exports of Domestic Produce have been to the currency value of about 4½ millions.

Government securities, have been in active request, on investment account, at advancing prices.

U. S. sixes of 1881 closed on Wednesday of this week at 117¼@117½; U. S. Five-Twenties of 1862, 113¾@114⅛; U.S. Five-Twenties of 1864 at 115@115½; U. S. Five-Twenties of 1865 116@116½; U. S. Five-Twenties of 1865 consolidated 115¾@116; U. S. Five-Twenties of 1867, 116½@117; U. S. Five-Twenties of 1868, 116@116½; U. S. Ten-forties at 113@113½; U. S. Fives of 1881 (Funding Loan) 112½@113; Six per cent. currency Sixes from 114⅜@114⅝.

The dealings in the line of Railway and Miscellaneous securities have been very extensive, and the market generally buoyant, prices having been again quoted much higher, though closing less firmly.

An unusually good demand has been noted for State and Railway bonds which have been advancing in price. Central Pacific first mortgage six per cents closed firmly at 96¼@96½, ex the

January coupon of three per cent. Chesapeake and Ohio First Mortgage Bonds, Six per cents, 60@60½.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,254,124, as compared with $5,848,106 same week last year. The exports of domestic produce are $4,505,705, as against $4,454,423 last year. The exports of Gold and Silver, $540,447, as against $2,695,283 last year. The customs in Gold deposited during the week in the New York Office of the Treasury amounted to $2,263,400, comparing with $2,616,173 same week last January.

The outstanding amount of U. S. legal tender notes on Wednesday was 381⅛ millions. Showing an increase, during the week, of 2⅜ millions.

There has been an improvement in the foreign trade of the port, during the week. The customs paid in, $2,263,000, indicate over seven millions of foreign merchandise of all descriptions marketed. The exports of produce from this port were partially affected by the bad shipping weather and the effect of the late holiday interruption. But further South the clearances of cotton direct to Europe were larger—95,000 bales. The receipts at the ports 143,000, against 132,000 bales the same week last year. In foreign dry goods and domestic commission goods the trade of the week was light, but not more so than was expected of the second week in the New Year. In most kinds of domestic produce in the local market, business has been quite active for the season. Breadstuffs advanced; Cotton was also dearer; Provisions less firm; Petroleum and Naval Stores, about steady. Tobacco and Wool were in moderate demand. Seed attracted more attention at firmer rates. Hides. Oils, Hemp and Hops quiet. Leather and Skins, in good request. The Metal trade shows rather more animation. Copper has been sought after, with sales reported of 125,090 lbs.; Lake, at 24½c.@24¾c. Iron continues very quiet, but quoted comparatively firm; holders are not pressing stocks on the market; Scotch Pig is in light supply. We quote: Eglinton Pig at $40@$41; Glengarnock, $42; Coltness, $45; Gartsherrie $47; No. 1 American Pig at $35@$36; No. 2 do. at $32@$33; Forge, $28@$31; English Rails at $55 @$60, gold; American Rails at works, $62 50@$65; Old Rails, $40; Wrought Scrap, $38 50. Pig-lead has been in slack demand, with foreign quoted at 6¾c.@6⅞c., gold, for ordinary, and domestic at 6c., gold; Bar, 9¼c.; Sheet and Pipe, 10c. Spelter has been slow of sale at 7⅜c.@7⅝c., gold, for foreign, and 8c.@11c. for domestic. Pig-tin has been quoted easier as to values on a moderate trade, with Straits quoted at 27½c.@27¾c., gold; English at 26c.@26¼c., and Banca at 32c.@32½c., gold; sales, 350 slabs Straits at 27½c.@28¼c., gold; 15 tons English at 26c.,@26¼c., gold. There has been rather more doing in Tin Plates, sales having been reported of 2,000 bxs. Charcoal, to arrive, at $10 50@$10 62½; 1,000 bxs. do. Terne, on private terms; 500 boxes I X do., do., at $10 75; 1,500 boxes Coke on private terms; and 500 boxes B. C. Coke at $8 62½, gold. Charcoal Plates quoted at $10 50 $10 75; Charcoal Terne, $9 25@$10; Coke $8 25@9; Coke Terne 6 75@$8 50, gold, per box. Zinc dull and unsettled. The Ocean freight market has been less active and rates have been rather lower, generally. A better inquiry has been noted for Live Stock, prices of which have been quoted somewhat stronger.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Ohio and Miss. 7s consol., 91; do. ☞ We Buy and Sell Government Bonds, Gold, and Gold Coupons at current market rates.

We buy and sell Investment Stocks and Bonds at the Stock Exchange "on commission" for cash.

We make Collections for merchants and others at all points in the United States and Canada.

We receive Deposits subject to draft at sight and allow interest at the rate of four per cent per annum.

We issue Certificates of Deposit available in all parts of the country, and in case of Special Deposits allow interest at rates to be agreed upon.

We Collect Dividends, Coupons, Interest on United States Registered Bonds, and attend to Banking Business generally for out-of-town Banks, Bankers, and Correspondents on reasonable terms.

We call attention to the present favorable opportunity for investment in Central Pacific and Western Pacific Gold Bonds, which are actively dealt in, both in this country and Europe, and which, at current prices, are every way desirable.

FISK & HATCH,
Bankers and Dealers in Government Securities,
No. 5 Nassau st.

☞ The directors of the North Pennsylvania Railroad Company have declared a dividend of five per cent, clear of taxes, payable in scrip, bearing no interest, and convertible into the capital stock of the company, when presented in sums of fifty dollars. The dividend will be credited to the stockholders as they stood registered on the books of the company, Dec. 31st, 1873. The scrip so issued will be deliverable on February 1st, and convertible at any time thereafter.

☞ The gross earnings of the main line (118 miles) of the Denver and Rio Grande Railway for the year 1873 were $392,504, and the net earnings $197,438. For the year 1872 the gross earnings were $274,422, and the net earnings $104,067. This shows an increase of net earnings for the year 1873, notwithstanding the panic, of 90 per cent, while the number of miles operated increased only 18 per cent. The operating expenses for the year were 49⅔ per cent of the gross earnings, leaving 50⅓ per cent net.

☞ The receipts of the Philadelphia and Reading Railroad company for the year ending November 30, 1873, were $14,832,661, the expenses $9,474,895, and the net profits $5,357,766. In 1872, the receipts were $12,125,038, the expenses $8,063,542, and the net profits $4,061,496—showing an increase in receipts of $2,707,623, in expenses of $1,411,353, and in net profits of $1,296,270.

☞ The estimated earnings of the Erie Railway company for the week ending January 7, 1874, were $300,966, against $294 778 for the corresponding week of 1873—an increase of $6,188.

Office of the Illinois Central R. R. Co.,
New York, December 20, 1873.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 2d day of February next, to the holders of full-paid shares, registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH,
Assistant Treasurer.

The American Wood Carbolizing Co.

Is organized for the purpose of Creosoting Timber for Docks, R. R. Ties, Fence-Posts, Pavements, and all other uses where Timber is exposed to the action of water or air. This Company also proposes to License R. R. Companies and others who desire to erect their own apparatus.

Drawings and specifications of apparatus, either stationary or portable, will be furnished on application.

67,112 miles of Railroad in the United States use annually over twenty-six million Ties for renewing those destroyed by decay.

The preservation of wood from decay and the attacks of marine worms, has been largely practiced in Europe for thirty years; and with such success that the use of natural wood is now the exception; and of all the various methods that have been employed, that in which creosote oil was used, has best endured the test of time.

This Company, benefiting by the thirty years' practical experience in the use of creosote oil abroad, offer to the public a system of application which is adapted to the wants of our own country, in that green wood can be rapidly and thoroughly treated, even better than dry, and the application of the oil, in connection with the use of moderate heat, be made more uniform and effective than is possible by any other means.

Experience has demonstrated that creosote or dead oil is the only substance by which wood can be treated so as to certainly resist the attacks of marine worms.

Creosoted wood exposed in Charleston Harbor was not attacked by the teredo, while natural wood attached to it was completely honey-combed.

It is confidently asserted that Railroad Ties creosoted will outlast three sets of ordinary Ties, and that creosoted Paving Blocks being beyond the reach of decay, will last as long as stone, with all the advantages of an elastic roadway, beauty and economy of construction.

The economy in the use of creosoted wood, where the term of service is trebled, is measured by adding to the wood used, the cost of the labor expended in construction, and the loss of time spent in replacing the structure, when either decay or attacks of marine worms destroy it.

The system of Seely and Felton, employed by this Company, has been fully examined and indorsed by Gen. McClellan, Gen. Barnes, Gen. Babcock, Rob't Harris, C. B. & Q. R. R., Prof. Silliman, Capt. Eads, Gen. Cram, Gen Humphreys, Gen. Meigs, Gen. Belknap, Prof. Chandler, Gen. Gilmore, Gen. Newton, A. B. Mullet, C. H. Haswell.

It has been used by the U. S. Government upon the Dykes of the St. Clair Flats, and upon Gun Platforms for the fortifications on the Atlantic coast; upon pavements in New York and Pittsburgh, by the Department of Docks of the City of New York and the Board of Public Works of the District of Columbia.

Detailed information can be obtained and specimens of creosoted wood examined at the office of the Company.

New York, Saturday, January 24, 1874.

A Perfect Protection against Fraudulent Alterations.

The "National Safety Paper," manufactured only by Messrs. CAMPBELL, HALL & Co., the well known Paper Dealers of this city, is proved of great importance to the Mercantile Community, as affording *perfect security* against fraudulent alterations of every kind. It is the only means yet known that will stand every test and fully meet every requirement. The tests to which it has been subjected should convince the most skeptical of its value—every other means offered and claimed to afford protection against alterations upon trial having been found unreliable, while the National Safety Paper has been demonstrated an *absolute security*. We have no doubt it will come into general use for Checks, Bonds, &c., and for all Legal documents and written evidences of value; then we shall hear no more of "check raising," or erasures in papers of value.

☞ The first passenger train over the extension of the Boston, Barre and Gardner Railroad to Winchendon, was run on the 1st inst. All the arrangements have now been completed for connection with the Cheshire and Monadnock Railroad at Winchendon, running north.

Frederick and Pennsylvania Line Railroad.

From a letter to the Baltimore *Sun*, dated Frederick, Md., Jan. 17, we learn that the building of this road was commenced some five years ago, and that it has been in operation about one year. The road is about twenty-eight miles in length, and traverses the beautiful valley of the Monocacy to the Western Maryland Railroad, 17½ miles from Frederick, where it enters Carroll county, and penetrates that county to the Pennsylvania State line, connecting with the Northern Central Railway, via the Littlestown and Hanover branch railroad.

The aid rendered to this enterprise consists of the following subscriptions: Frederick city, $250,000; individuals about $70,000. In addition to this the company have issued $250,000 first mortgage bonds, and $250,000 second mortgage bonds, making a grand total of $820,000. Frederick city issued bonds for the amount of her subscription ($250,000) and turned them over to the company, and the directors issued and it is supposed sold the first mortgage bonds to the same amount. They also issued $250,000 of the second mortgage bonds, but what amount of these were sold is not well understood by the public. It is said the floating debt of the company is between $75,000 and $100,000.

The road has been built, and ordinarily well equipped. The floating debt it is supposed was created in part for construction and in part for equipment. Some of the rolling stock is owned by the company, some by Frederick City, some is said to be owned by individuals, and the balance is rented from the United States Rolling Stock Company.

☞ The Milwaukee and St. Louis Air Line Railroad Company is securing the right of way in Illinois from the Legislature of that State. An arrangement has been effected with the Chicago, Burlington, and Quincy by which the line from Shabbona to Paw-Paw will be used by the new road, as Peru is the first point where coal is reached. The urgent call for fuel from the Wisconsin portion of the line will urge forward the work to a speedy completion and cheap fuel for Milwaukee will be the order of things when all is in running order.

New York and Harlem Railroad.

The annual report of the New York and Harlem Railroad Company for the year ending the 30th of September, 1873, furnished to the State Engineer, shows the following results: The amount of capital stock of the company as by charter is $8,000,000; amount of subscribed stock, $9,000,000; total amount paid in of capital stock, $9,000,000; total amount of funded debt, $7,035,069. Real estate and mortgages not included in these figures amount to $697,375. Cost of road and equipment, $18,269,168 95. The length of the road worked by the company, from New York to Chatham Corners, is 130.75 miles, with a double track of 45½ miles. The number of passengers carried during the year was 1,962,970, and the freight reached 430,055 tons. The rates of fare for passengers per mile is: First class, through, 2 cents; for first class, way, 2½ cents. The cost of maintaining the road was $526,900 66; repairs of machinery, $317,503. Operating the road for the year cost $1,083,955 28. The tota earnings of the road from all sources were $3,369,169 86 for the fiscal year ending Sept. 30, 1873.

Chesapeake and Ohio Railroad.

The Chesapeake and Ohio Railroad First Mortgage Gold Bonds have been added to the New York Stock Exchange list. The official statement of the company shows that the road is 421 miles in length from Richmond, Va., to Huntington, on the Ohio River, in West Virginia, the whole road being fully in operation. The financial condition of the company is given as follows:

Authorized capital stock, $30,000,000; amount of capital stock issued, $15,852,087 52; amount of capital stock unissued, $14,147,912 48; bonds of the Virginia Central Railroad Company secured by mortgage on portions of the Virginia Central Railroad assumed by the Chesapeake and Ohio Railroad Company, and now outstanding, $1,318,000; first mortgage six per cent gold bonds of the Chesapeake and Ohio Railroad Company—5,000 for $100 each, Nos. 1 to 5,000, $500,000; 4,000 for $500 each, Nos. 5,001 to 9,000, $2,000,000 12,500 for $1,000 each, Nos. 9,001 to 21,500, $21,500, $12,500,000; total, $15,000,000; cost of road April 1, 1873, $39,293,314 21.

☞ John Cessna has been elected President of the Bedford and Bridgeport (Pa.) Railroad Co

New York Central and Hudson River R. R.

The earnings and operating expenses of this road for the years ending September 30, 1872 and 1873, were as follows:

	1872.	1873.
Earnings	$25,580,676	$29,126,851
Expenses	16,446,436	17,641,987
Net	$9,134,240	$11,484,864

The receipts and payments the past two years have been as follows:

Receipts:	1872.	1873.
Passenger earnings	$6,662,007	$6,999,456
Freight earnings	16,259 646	19,616,018
From other sources	2,659,022	2,511,377
Total	$25,580,675	$29,126,851
Payments:		
Maintaining road, real estate, &c.	$5,153,498	$4,233,489
Repairs of machinery	4,150,599	3,353,376
Operating road	7,142,339	10,055,122
Total operat'g expenses	$16,446,436	$17,641,987
Roadway, grading, bridging, &c.	712,237	*2,364,747
Interest	1,030,872	1,218,422
Dividends	7,244,832	7,136,790
Rent of leased lines	131,996	743,384
Leaving cash on hand	14,802	21,521
Total	$25,580,675	$29,126,851

* The surplus of 1873, and the proceeds of additional loans, (first mortgage,) devoted to third and fourth tracks and increased equipment, &c.

ROAD AND EQUIPMENT.

	1872.	1873.
Miles road owned	740.17	740.17
Miles road leased	104.46	118.17
Miles road oporated	844.63	858.34
Miles single track	1,621 47	1,716.37
Locomotive engines	447	511
Dummy engines	8	8
First class passenger cars	321	351
Second class passenger cars	70	70
Baggage, mail, and express cars	158	177
Freight (8-wheel) cars	10,983	13,745

OPERATIONS OF ROAD.

Train mileage, passenger	4,076,800	4,311,884
Train mileage, freight	7,911,257	9,666,344
Passengers carried	7,138,779	7,630,741
Passenger mileage	319,150,860	339,122,621
Freight (tons) carried	4,393,965	5,522,724
Freight mileage	1 020,908,885	1,246,650,063

FINANCIAL CONDITION AT CLOSE OF EACH YEAR.

	1872.	1873.
Capital stock	$84,699,300	$84,699,300
Stock certificates	4,729,000	4,729,000
Funded debt	16,496,020	27,725,533
Floating debt	1,167	1,167
Total	$105,925,487	$117,155,000
Cost of road, &c	63,299,924	78,014,954

☞ The report of the Boston, Clinton and Fitchburg Railroad Company says that the net earnings of the road, after paying operating expenses, are $197,500; deducting the amount paid for dividends on guaranteed stock, interest and rents to Mansfield and Framingham and Framingham and Lowell roads, there is placed to surplus account the sum of $21,662 23. The gross earnings of the year, in round numbers, were $677,500; the report further shows the gain of the main road and its several branches over the preceding year to be as follows; $21,894 32 on the Boston, Clinton and Fitchburg Railroad; $31,959 08 on the Mansfield and Framingham division; and $42,826 45 on the Framingham and Lowell division, a total increase of $96,679 85, on the line from freight and passengers; or, with mails, express, rentals, etc., $4,346 90, a total of $101,026 75 over 1872.

Philadelphia and Reading Railroad.

At the Annual Meeting of the Stockholders of this Company, held in Philadelphia on the 12th inst., the following Report was presented:

To the Stockholders of the Philadelphia and Reading Railroad Company:

The Managers submit the following Report of the receipts and expenditures for the year ending November 30th, 1873, together with the Treasurer's general balance sheet, exhibiting the financial condition of the company at that date:

The following tabular statement in detail, for each branch of traffic, shows the comparative results of the year's business:

1872.

Travel, 6,383,991, equal to 791,478 through passengers	$1,786,962
Mdse., 2,891,399 11-20 tons	2,688,030
Coal, 4,866,520 19-20 "	7,513,115
Mail	39,918
Miscellaneous	97,015
Gross receipts	$12,125,038
Gross expenses	8,063,542
Net profits	$4,061,496

1873.

Travel, 6,790,088, equal to 866,829 through pa-sengers	$1,976,645
Mdse., 3,331.193 16-20 tons	3,603,177
Coal, 5,318,897 15-20 "	9,104,095
Mail	60,903
Miscellaneous	87,841
Gross receipts	$14,832,661
Gross expenses	9,474,895
Net profits	$5,357,766

		Per cent.
Travel	Increase,	$189,683—10 6-10
Merchandise	Increase,	915,147—34
Coal	Increase,	1,590,980—21 2-10
Mail	Increase,	20,990—25 6-10
Miscellaneous	Decrease,	9,177— 9 5-10
Gross receipts	Increase,	2,707,623—22 3-10
Gross expenses	Increase,	1,411,353—17 5 10
Net profits	Increase,	1,296,270—31 9 10

Gross expenses, including renewal fund, rents of lateral roads, taxes, &c., in the year 1872, were 66 5-10 per cent of gross receipts.

Year 1873, were 53 9 10 per cent of gross receipts.

The receipts and expenses, per through passenger and per ton, including renewal fund, rents of laterals, taxes, interest, &c., and based upon the coal tonnage of Main Line only, have been as follows

1872.

Per passenger. Cost,	$1 78 2-10	Rec'd,	$2 25 8 10
Merchandise, per ton	" 65 8-10	"	93
Coal, per ton	" 1 36 4-10	"	1 54 4-10

1873.

Per passenger. Cost,	$1 99 6-10	Rec'd,	$2 29 6 10
Merchandise, per ton	" 76 3-10	"	1 08 2 10
Coal, per ton	" 1 35 1-10	"	1 71 2 10

Including renewal fund, rents of laterals, taxes, interest, &c., and based upon entire coal tonnage of the company, on the Main Line and on the branches or laterals;

1872.

Per passenger. Cost,	$1 78 2-10	Rec'd,	$2 25 8 10
Merchandise, per ton	" 65 8 10	"	93
Coal, per ton	" 1 07 3 10	"	1 21 5-10

1873.

Per passenger. Cost,	$1 99 6-10	Rec'd,	$2 29 6 10
Merchandise, per ton	" 76 3-10	"	1 08 2 10
Coal, per ton	" 1 09 7-10	"	1 39 1 10

The result of the year's business, as condensed from transportation and income account, may be stated thus:

Receipts over cost of working the road		$5,357,765 77
Profit on steam colliers		107,186 29
		$5,464,951 06
Add balance of interest account, including interest and dividends on stocks and bonds held by the company, receipts from the Philadelphia and Reading Coal and Iron Company, first deducting drawbacks on traffic of 1872, loss upon the business of the Schuylkill and Susquehanna Canals, United States taxes of former years, paid under recent decision of the United States Supreme Court, and interest on instalments on new convertible loan		957,930 99
		$6,422,882 05
From which deduct—		
Inter't on bonded debt	$1,781,802 50	
Taxes on interest on bonded debt	68,797 61	
	$1,850,600 11	
Interest on bonds and mortgages	117,525 92	
Debit balance of renewal fund	107,876 19	
Sinking fund, loans 1874-77	25,000 00	
Sinking fund, consolidated mortgage loan 1911	191,100 00	
		2,292,102 22
		$4,130,779 83
Amount to credit of reserved fund, 1872		160,604 46
Dividend fund, 1873		$4,291,384 29
Out of which has been paid in July, 1873, five per cent dividend on $34,270,075 28	$1,713,503 76	
State tax on dividend	85,675 19	
		1,799,178 95
		$2,492,205 34
There has been declared a dividend, payable in cash on the 26th day of January, 1874, of five per cent on the preferred and common stock, $34,270,575 28	$1,713,528 76	
State tax on dividend	85,676 44	
		1,799,205 20
Balance of reserved fund		$693,000 14

The tonnage, gross receipts and net profits of the company during the year just closed have been greater than those of any previous year; and although the interest account is larger than that ever before paid, the net result of the year's business, after paying interest, sinking funds, and dividends, shows an increase in the reserve fund of over half a million of dollars; the amount carried to that fund for 1874 being $693,000 14, against $160,604 46 to its credit at the beginning of the year. This result has been obtained notwithstanding the fact that extraordinary expenses, amounting in the aggregate to over five hundred thousand

dollars, have been met and charged to expense account during the year. These extraordinary expenses were composed principally of three items, viz:

United States taxes paid on previous year's business in consequence of the adverse decision of the Supreme Court of the United States, which reversed its previous decision and made the company liable for	$205,592 01
Expense of relaying the greater portion of the Catawissa Railroad with new railroad iron and otherwise improving its roadway	200,483 41
Expense of repairing damage done by the ice freshet of last winter to the works of the Susquehanna Canal	95,672 88
Total	$501,748 30

all of which has been charged to the expenses and deducted from the profits of the company, before the balance carried to reserve fund was struck.

The total coal tonnage of the company for the year was 6,546,553 08 tons, against 6,185,483 16 tons for the previous year. The increase of coal tonnage has not been so great as was expected, owing principally to the three following causes:

First. To the industrious opposition, during the earlier months of the year, by the coal middlemen and factors, to the new system of direct intercourse between producer and consumer, inaugurated by the Philadelphia and Reading Coal and Iron Company; which opposition, manifesting itself in constant attempts to prevent purchases of coal being made, and in repeated predictions of failure of the new scheme, had a very perceptible effect in inducing consumers and dealers to withhold orders during the spring and summer months.

Second. To the unusual scarcity of vessels at Port Richmond during many months, caused, it is believed, to a great extent, by systematic attempts on the part of the displaced middlemen to prejudice vessel owners and captains against the company, under the belief that an inability to procure vessels would induce the Coal and Iron Company to withdraw from the trade and surrender it to the hands of the former factors of the coal operators. For several months the coal tonnage of the company was reduced from twenty to forty thousand tons per week, owing to the scarcity of vessels; from 5,000 to 7,000 loaded cars standing over at Port Richmond at the end of each day.

Third. To the falling off in the demand for coal for manufacturing purposes, in consequence of the stoppage of so many iron and other manufacturing establishments, caused by the financial panic of last September.

Notwithstanding all the difficulties referred to, and the bitter personal opposition of the very many influential firms and individuals who formerly intervened between the producer and consumer and absorbed all the profits of the coal trade, the new system of direct intercourse between the miner and consumer has been most successfully introduced and established; and it is not expected that any difficulty will be experienced in disposing, at fair rates, of the entire coal product of the Schuylkill and Mahanoy regions for the year 1874.

The aggregate traffic of the company for the past year, as compared with that of the previous year, is shown in the following table:

	1872.	1873.
Number of passengers carried	6,383,991	6,790,088
Number of tons of coal, 2,240 pounds	6,185,484	6,546,553
Number of tons of merchandise, 2,000 pounds	2,891,400	3,331,194
Number of tons of company's materials	497,571	651,648
Total tonnage of company (2,000 lbs.), including weight of passengers and company's materials	10,961,657	11,932,262

The same gratifying increase in the local trade of the company, which was referred to in the last annual report, has been maintained throughout the year; and the rapid development of the territory traversed by the company's lines is exhibited in the largely increased merchandise and passenger receipts, which together amounted to $5,579,822, against $4,474,992 for the previous year; a very large per centage of increase over and above that portion of it which is due to the business of the Catawissa Branch. A continuation of the table published in last year's report, showing the consumption of coal at local points and in the city of Philadelphia, exhibits a very satisfactory increase for the past year.

Shipments by railroad distributed between Pottsville and Philadelphia, excluding each of the places named:

Year.	Tons.
1868	643,188
1869	838,178
1870	854,345
1871	1,079,463
1872	1,503,732
1873	1,860,271

During the same period the shipments by railroad to the city of Philadelphia, excluding the deliveries to Port Richmond for shipment, have been as follows:

Year.	Tons.
1868	763,113
1869	816,168
1870	793,088
1871	922,748
1872	1,067,215
1873	1,154,376

During the year the Perkiomen Railroad has been extended and opened for business from Green lane to Pennsburg, and contracts for the entire line between Pennsburg and the connection with the East Pennsylvania Railroad at Emaus have been made, and the work will be rapidly pushed forward to completion.

To provide the means for the completion of this road, the Perkiomen Railroad Company, on June 2, 1873, created a loan of $2,500,000 six per cent gold coupon sterling or dollar bonds, secured by a mortgage upon its entire line, made to the Pennsylvania Company for Insurances on Lives and Granting Annuities, as trustees, of which amount the sum of eight hundred thousand dollars were set aside to provide for the outstanding first mortgage loan. Five hundred thousand dollars was retained to furnish means for future extensions on branch lines, and the remainder, $1,200,000, was guaranteed by the Philadelphia and Reading Railroad Company, and disposed of by subscription in London in the month of June last at 90 per cent in gold.

A new branch railroad, called the Moselem branch, has been commenced, leaving the main line near Leesport, crossing the river Schuylkill to connect with the furnace of the Leesport Iron Company, and eventually designed to connect with the hematite iron ore mines at Moselem. The bridge and the connection with the works of the Leesport Iron Company have already been constructed, and the remainder of the line will be extended whenever the business of the region to be developed will justify the expenditure required for its completion.

The Philadelphia, Wilmington and Baltimore Railroad Company having constructed a new line of railway from Gray's Ferry to Chester *via* Darby, and having offered to dispose of the old line to the company for the sum of $350,000, the offer was accepted and a perpetual lease of the line taken by the company. This new road will be known as the Philadelphia and Chester Branch, and as it is connected with the main line by the Junction Railroad will not only furnish an outlet for coal and iron from the Schuylkill Valley to the many industrial works of Chester and Wilmington, but it is believed will eventually add to the business of the company by attracting to its line many ship building and other iron manufacturing establishments, which can be located upon the navigable waters of the Delaware and in direct railroad connection with the iron and coal districts of Pennsylvania.

For a more detailed statement of the new work constructed by the company, and an analysis of the mileage of the various lines of railway now operated and controlled by it, the stockholders are referred to the accompanying report of the chief engineer.

The following table shows the production of rails at the company's rolling mill for the year, and exhibits in detail the number of tons of every year's production removed from the track since 1868, the year in which the first rails were rolled:

	YEARS.						
	1868.	1869.	1870.	1871.	1872.	1873.	Total.
Prod.	8,971	17,087	17,557	19,113	20,043	18,948	101,669
Worn out.							
1868.	5						5
1869.	175	.....	.....	.....	.....	.....	175
1870.	904	2¾	.....	.....	.....	.....	906¾
1871.	1,416	164¼	11	.....	.....	.....	1,591¼
1872.	1,067	614	240	81	.....	.....	2,002
1873.	522¼	887¼	494	97¼	34	.....	2,035¼
	1,384	1,684	825	178¼	34	.....	4,105¼
Total worn out.	4,091¼	2,816¼	1,560¼	560¼	157	34	9,189
Per cent.	45	6-10	8 5 10	2 9-10	78 100	17 1000	9

In view of the very large tonnage passing over the road, the small per centage of rails removed from the tracks shows the great superiority of the iron. Notwithstanding their good quality, the policy of laying steel rails at all exposed positions has been continued with very great success.

The receipts of the six steam colliers for the year have been	$309,296 33
And the expenses, including $25,950 carried to credit of insurance fund,	202,111 04
Leaving a net profit of	$107,185 29

The insurance fund of the line is now in credit $35,867 62.

The following table shows the comparative result of the business of the steam colliers for the year, as compared with that of the previous season:

	Tons Coal Carried.	Total Receipts.	Total Expenses.	Net Profit.
1872.	127,275	$355,460 03	$237,818 26	$117,641 77
1873.	135,673	309,296 33	202,111 04	107,185 29

The two new steam colliers contracted to be built by the Delaware River Iron Ship-building and Engine Works, to which reference was made in the last report, are yet unfinished, notwithstanding the builders were under contract to have them ready for the machinery by the month of June last, and the engines (built at the company's shops, in Reading) have been ready for months. As these vessels were to be pioneers of a new line, the delay in their construction is very annoying.

Six other vessels, of 1,500 tons each, are being built under contract by the William Cramp & Sons Ship and Engine Building Company, of Philadelphia, made in June last. The first of these vessels was launched on December 16th, and it is probable that the entire six will be engaged in trade before the expiration of the present year.

A ship yard for the construction of new vessels and the repairs of existing ones is being built at Port Richmond, and will be ready for operation

within five months; when it is completed, it is believed a saving can be accomplished in the cost of repairing and renewing vessels, and that the force necessary for such purposes can (in the absence of work upon repairs) be profitably employed in the construction of new colliers—all the machinery for which can be made at the company's shops at Reading.

A reference to the transportation and income accounts will show, in detail, the result of the operations of the Schuylkill Canal and the Susquehanna and Tide water Canal; the first showing a net loss of $61,605 22, after paying rent and sinking funds, and including in the receipts the sum of $100,000, paid by the city of Philadelphia, in settlement of the claim of the Schuylkill Navigation Company, for the interference with the navigation during the drought of 1869, and the latter exhibiting a loss of $257,790 48, which, with the former amount, has been charged to expense account. The loss upon the Susquehanna Canal is due, to a great extent, to the interruption of business during the early part of the year, caused by the destruction of the Columbia dam, and the washing away of the banks of the canal by the ice-freshet of last winter, and to the cost of replacing and rebuilding the works so destroyed. The report of the Chief Engineer of Canals, herewith submitted, will exhibit, in detail, all the expenditures and show the present condition of the works.

At the average rates of tolls, it will require a business of from 900,000 to 1,000,000 of tons per annum, upon the Schuylkill Canal, to realize a profit sufficient to pay the cost of working it, including the rent account and sinking fund; and though such a business could be thrown upon it at any time, it is manifestly to the interest of the company to keep as much tonnage upon the railroad as possible, and use the canal as a dripping-pan, to catch whatever may overflow from the railroad, which will doubtless soon be enough to make the canal profitable *per se*. In the meantime, the annual loss sustained by working the canal is not nearly so great as the amount which would have to be paid to the Schuylkill Navigation Co. under the old contract, which was cancelled by the execution of the lease.

The traffic of the Germantown and Norristown branch exhibits a satisfactory increase; the number of passengers carried being 4,064,530, against 3,712,316 for the previous year.

The traffic upon the Catawissa Branch for the year has been very good; but as more than $200,000 was expended upon the line in relaying over fifty miles of track, and as the roadway expenses were exceedingly heavy in consequence of work done in improving the condition of the road, and as a large amount was expended in extraordinary repairs of rolling stock, the net result of the year's operation, after paying rents, renewals and all expenses, shows a loss of $346,986 64, which has been charged to the expenses of the company. It will probably require an additional expenditure of $100,000 to place the entire line of the Catawissa Railroad in as good condition as that of the other lines of the company; after which it is believed that the receipts upon the leased line will be sufficient to cover rent and all expenses apart from the benefit derived by the company from securing perpetually the traffic of the branch for its main line.

During the year the West Reading Railroad Company was merged into the Philadelphia and Reading Railroad company; and, as the latter owned all the stock of the former, no increase of capital was made on account of the merger.

Since the last report, the stock of the company has been increased to the extent of $34,400, as follows:

By the conversion of 6 per cent mortgage convertible bonds of 1886	$9,500 00
By exchange of 498 shares (for 966 shares of the stock) of the Mill Creek and Mine Hill Navigation and Railroad Company	24,900 00
Total	$34,400 00

The express business continues to justify the expectations formed by the managers at the time it was commenced. The net profits for the year were $41,915 60 (after charging to expenses over $6000 for equipment account, required by the increase of the business,) an amount largely in excess of that received in any previous year from the Adams Express Company.

This result has been secured, notwithstanding the continued bitter opposition of the Adams Express Co., which manifests itself in a reduction of rates to all competitive points, and in sending all money and other valuable packages over the line, in the care of agents, who travel and pay fare as passengers, thus withholding from the company all receipts from what is generally the most profitable business.

The company now does an express business over 794 miles of railway, and has 143 offices. The entire amount of capital required to organize and equip the line has been $57,408 68.

The Philadelphia and Reading Coal and Iron Company now owns and controls about 90,000 acres of anthracite coal-lands. The tonnage from these lands last year was 3,218,376 tons, and the rent account amounted to $1,117,262 24.

The investment of the Philadelphia and Reading Railroad Company, represented by the property of the Philadelphia Coal and Iron Company, is now $26,366,116 04, against $18,825,964 89 at the close of the previous year; and in addition to this amount, which has been paid in cash on account of the purchase and development of the lands, the Coal and Iron Company has issued its own bonds, which are guaranteed by the Philadelphia and Reading Railroad Company to the extent of $12,413,500.

At the present market value of anthracite coal lands in Pennsylvania, according to sales recently made to other companies, the lands of the company would be worth at least double the amount paid for them.

Owing to the causes heretofore referred to, which reduced the quantity of coal sent to market during the past year, the tonnage from the lands was not so great as had been expected, but the managers have every reason to expect that it will exceed four millions of tons in 1874.

In addition to the amount advanced to the Coal and Iron Company during the year, a reference to the statement of items added to capital account will show an additional expenditure of over three and a half millions of dollars, as follows:

Real estate	$856,621 30
New railroads	416,306 19
New workshops, depots, &c, including new ship yard	378,451 92
New wharves	121,578 57
New engines and cars	1,252,055 39
New steam colliers	521,342 14
New coal barges	8,916 94
Total	$3,556,267 45

The entire amount of instalments upon the convertible loan received during the year were $4,295,855, leaving a balance due in future instalments of $3,899,015.

On the first of October last a new improvement mortgage loan of ten millions of dollars in gold was created, and coupon bonds to that amount, payable October 1, 1897, bearing interest at six per cent gold, payable in gold dollars or sterling, at the holders' option, secured by a mortgage upon the property of the company, and protected by a cumulative sinking fund of two per cent per annum, were issued. This loan was all disposed of in London, in the month of October last, at the rate of eighty seven and a half per cent in gold, and up to this date $6,631,615 58 have been drawn for by the company on its account. A copy of the mortgage securing the bonds is herewith submitted.

The annexed table will account for the manner in which all of the money obtained by the company upon its different loans during the last five years has been expended;

LOANS.	
Loan 1870-'90, convertible	$5,000,000 00
Loan 1871-1911, consolidated mortgage	19,110,000 00
Loan 1873-'03, convertible	6,600,985 00
Loan 1873-'97, improvement mortgage	6,631,615 58
	$37,342,600 58
Expended as follows:	
Account Philadelphia and Reading Coal and Iron Company	$26,366,116 04
Real estate	2,352,825 43
Engines and cars	3,510,263 91
New railroads	2,119,390 30
Stocks and bonds	853,707 53
Steam colliers and barges	1,038,069 77
Wharves	239,402 34
Workshops, &c	459,695 15
Loan of 1871 and 1872 paid off	212,000 00
Materials—increase in amount since 1869	902,707 28
	$38,054,167 75

It is believed that all of this money has been well spent, and though the annual interest account has been very greatly increased, the net revenues of the company are sufficient to meet all interest, provide for sinking funds, and continue the usual dividends to the stockholders. The following table will show in detail carefully prepared estimates of the present value of the property of the company, as compared with that at which it is represented on the balance sheet. The great increase in value of most of it since it was acquired, and the fact that much of it was paid for out of the surplus earnings of the company without any increase of capital account, will explain the difference between its present value and that at which it appears upon the books of the company:

	Charged in Balance sheet at	Present Market Value.
Railroads, 759 m.	$25,583,747 08	$36,096,000 00
Depots	3,594,473 98	4,901,110 00
Real estate	7,408,852 94	10,801,500 00
Engines and cars, including 400 locomotives, 7,765 eight wheeled coal cars, 7,427 four wheeled coal cars, 4,659 freight cars, 281 passenger cars, &c., &c.	8,732,774 89	1,3622,340 00
Stock and bonds held by the company	5,033,650 22	5,981,837 47
Steam colliers and coal barges	1,352,704 15	1,758,704 15
Materials on hand	1,904,512 50	1,904,512 50
Debts due to the company, cash and uncollected bills	3,548,210 59	3,429,713 45
Coal lands of Philadelphia and Reading Coal and Iron Co., say 90,000 acres, including collieries, houses and all improvements thereon.	26,366,116 04	
Estimated at $600 per acre ($54,000,000), less Coal and Iron Co's bonds ($13,487,500)		40,562,500 00
	$84,825,551 18	$119,053,222 56
		84,825,551 18
		$34,227,671 38

The above, which is believed to be a moderate estimate of the present value of the property, shows a surplus of $34,227,671 38 over and above all the debts and capital accounts of the company, equal to a premium of $44 94 per share above the par value of its stock.

By order of the Board of Managers.

FRANKLIN B. GOWEN, President.

Philadelphia, January 9, 1874.

At the annual meeting of the stockholders of the Philadelphia and Reading Railroad Company, held January 12, 1874, the following resolutions were adopted:

Resolved, That the report of the board of managers, this day presented and read, be, and the same is, hereby approved, accepted, and adopted, and that the action of the board in relation to the several matters therein mentioned are ratified and approved.

2. Resolved, That the action of the Board of Managers in reference to the issue of the bonds of this company, dated October 1, 1873, to the amount of $10,000,000, and securing the same by mortgage, and in reference to guaranty by this company of the bonds of the Perkiomen Railroad Company, secured by the mortgage of June 2, 1873; the first mortgage bonds of the Ringgold Iron and Coal Company; the first mortgage bonds of the Danville Iron Company; the first mortgage bonds of the Kutztown Iron Company; the first mortgage bonds of C. M. Atkins and James Lanigan, and the leasing of the section of the old line of the Philadelphia, Wilmington and Baltimore Railroad Company between Gray's Ferry and Ridley Junction, are hereby ratified and confirmed.

3. Resolved, That the Board of Managers be, and they are hereby authorized, at their discretion, to carry into effect any of the measures proposed in their report, and, if in their opinion needful, to enter into any contracts or agreements for that purpose.

4. Resolved, That the powers and authorities conferred upon and granted to the Board of Managers by the resolutions passed at prior annual meetings be and the same are hereby continued.

5. Resolved, That a vote of thanks be and the same is hereby presented to the President and Board of Managers for the able manner in which the business of the road has been conducted during the past year.

At the annual meeting of the stockholders of the Philadelphia and Reading Railroad Company, held January 12, 1874, the following gentlemen were unanimously elected officers for 1874:

President.—FRANKLIN B. GOWEN.

Managers.—H. Pratt McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashhurst, Charles E. Smith.

Treasurer.—SAMUEL BRADFORD.

Superintendent.—DAVID J. BROWN.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending January 10, at 181,811 tons, and for the coal year 718,726 tons, against 750,122 tons to corresponding time last year, being an increase of 31,396 tons. The bituminous tonnage for the week is 21,255 tons, and for the year 29,757 tons, giving a total of all kinds for the week of 202,061 tons, and for the year of 749,482 tons, against 775,364 tons to same time last year, being an increase of 1,416,805 tons.

☞ Hon. J. R. Swan has been appointed General Solicitor of the Pittsburg, Cincinnati and St. Louis Railway Company, with the general direction of all the legal business of the company.

☞ The debt of the city of Petersburg, Va., is $1,033,000 78, the annual interest being $78,780 78, ranging from 6, to 10 5-8 per cent.

Chicago and Lake Huron Railroad.

At a meeting of the newly elected Board of directors of the Chicago and Lake Huron Railroad Company, held at Bay City, Mich., the following executive officers were chosen:

President.—W. Bailey Lang, of New York.

Vice President and General Manager.—Wm. L. Bancroft, of Port Huron.

Treasurer.—Sidney W. Hopkins, of New York.

Secretary and General Superintendent.—E. B. Taylor, of Port Huron.

Chief Engineer.—Charles Palmer, of Imlay City.

Counsel.—L. D. Dibble, of Battle Creek.

The report of the directors shows that the road is now being operated between Port Huron and Flint, a distance of sixty six miles and between Lansing and Valparaiso, a distance of 165 miles, at which point a connection is made with the Pittsburg, Fort Wayne and Chicago Railway, over which trains run to Chicago. Arrangements are now being perfected to complete the line between Port Huron and Chicago by finishing the link between Lansing and Flint, a distance of forty seven miles, which the directors expect to accomplish at an early day.

☞ The yield of the precious metals for 1873 is stated in the California papers, on the authority of the report of Wells, Fargo & Co's Express, at $72,258,693, an increase of $10,000,000 over the previous year. Nearly one half the product is from Nevada, which sent eastward during the year over $35,000,000, chiefly in silver. Of the balance, California produced one half, $18,000,000. Utah produced nearly $5,000,000, Colorado $4,000,000, Montana nearly $4,000,000, Idaho more than $2,000,000. Oregon $1,500,000, Washington $250,000, and Arizona $47,778. There were also shipped $1,250,000 from British Columbia, and nearly $1,000,000 from Mexico.

☞ The earnings of the Missouri, Kansas and Texas Railroad for the last six months of 1873—July to December, inclusive—were $1,961,775, the expenses $943,367, and the net earnings $1,108,408, or $1,295 per mile. In the corresponding six months of 1872, the earnings were $1,216,910, the expenses $735,155, and the net earnings $481,754, an average of $819 per mile. The traffic over the through line of 786 miles was conducted the last six months at an expense of 48 per cent. The previous year over an average of 588 miles at an expense of 60 per cent.

☞ The Towsontown Union says: "A considerable force of workmen are engaged on the grading of the road near the point at which it intersects the Northern Central road, and it will require but a comparatively short time to complete the grading of the entire road-bed from Towsontown to the connecting point, and place it in condition for the reception of the cross ties and rails. It will then only remain to grade the short portion of the line embraced between the York road and Stansbury's Gap to complete an unbroken road-bed from the Gunpowder river to the Northern Central Railroad, a distance of nearly nine miles."

☞ James S. Hagerty has been elected President of the Citizens (Baltimore) Passenger Railway Company.

Statistics of the Tobacco Trade.

Comparative statement of revenue collected on cigar, smoking and chewing tobacco, and export stamps for the years 1872 and 1873:

Plug tobacco	$2,250,470 42	$2,843,202 60
Smoking tobacco	220,878 36	230,373 90
Cigars	15,542 25	15,404 70
Export	11,994 15	2,549 10
Total	$2,498,885 18	$3,091,530 30

The amount of manufactured tobacco held by manufacturers on the 1st of January, 1874, was about 8,000,000 pounds. The amount of cigars held by manufactures on the 1st of January, 1874, was about 700,000.

☞ Arrangements have been completed for the consolidation of the Montreal, Chambly and Sorel and the Missisquoi Junction Railway Companies into one company by the name of the Southern Railway Company of Canada. The road will extend from Montreal, Can., east by south to Chambly, on the Richelieu River, and thence southeast to Franklin or Sheldon, Vt. The rails are laid from Montreal to Chambly, some twelve miles.

☞ It is reported from St. Albans, Vt., that a compromise has been effected between the Presidents of the Central Vermont and the Vermont and Canada Railroads in regard to their financial difficulties. It is said that the terms laid before the directors of the latter company are the sale of the Vermont and Canada road to the Central Vermont for $3,000,000, payable in twenty years, secured by first mortgage in trust at 6 per cent.

☞ The extension of the Cairo and Fulton Railroad was finished to Texarkana on the 15th inst., at which point connection is made with the Texas and Pacific Railroad and the entire system of railroads. The opening of this road shortens the distance from St. Louis to Northern Texas over 150 miles, and gives Texas a line to the East via Cairo, 240 miles shorter than by any other route.

☞ Work on the Illinois River Railroad, which is to connect Chicago with the coal fields of Will county, is being pushed rapidly. All the grading has been finished; track laying will begin in a month, and by next May the road will be completed, and Chicago have access to a cheaper coal market than any it now has.

☞ The manufacture of copper from ores found in Pennsylvania, has, for a year past, been successfully conducted at Phœnixville. About 25,000 pounds of fine copper are produced monthly. This is a new industry in that State that deserves every encouragement.

☞ Alexander Rieman has been elected President, and John M. Wood Vice President and General Superintendent, of the Western Maryland Railroad.

☞ The terminus of the Portland, Dallas and Salt Lake Railroad has been located at Corinne, and the leading men of Corinne and Malad have agreed to grade and tie fifty miles of the road.

☞ The first rail on the Des Moines Narrow-Gauge Road was laid at Des Moines on the 12th inst., Governor Carpenter driving the first spike and clinching it with a short speech.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

Bullion Yield for 1873.

Mr. Jno. J. Valentine, General Superintendent of Wells, Fargo & Co's Express, furnishes us with the following statement of precious metals produced in the States and Territories west of the Missouri River, during 1873:

WELLS, FARGO & CO'S EXPRESS,
GENERAL SUPERINTENDENT'S OFFICE,
San Francisco, December 31, 1873.

DEAR SIR: We hand you herewith a copy of our annual statement of precious metals produced in the States and Territories west of the Missouri River—including British Columbia—during 1873. A comparison with the statement for 1872, published in the *Alta* of January 3d, will show that the aggregate exceeds that of 1872 more than $10,000,000. Arizona, California, British Columbia, Oregon, Washington, Idaho, and Montana decrease. Nevada, Utah, and Colorado increase. The increase in Nevada alone is nearly $10,000,000, the total product of which about equals all the others. As stated in our report for 1872, we only touch the borders of Arizona; therefore the figures given do not furnish a correct basis for estimating the product of that Territory; but it is inappreciable as compared with the others. Mexico is represented in silver only, and the amount named will not give a correct idea of the product of the Pacific or West Mexican Coast, as the Pacific Mail Steamship Company carry independent of Wells, Fargo & Co., in addition to which large amounts are conveyed by British war-vessels to Panama or San Francisco, of which we make no record.

The combined product of all shows—for 1872, $62,236,913; for 1863, $72,258,693—undoubtedly the largest yield for one year in the history of the Pacific Coast. Yours truly,

JNO. J. VALENTINE, Genl. Supt.

STATEMENT.

STATES AND TERRITORIES.	Gold Dust and Bullion by Express.	Gold Dust and Bullion by other Conveyances.	Silver Bullion by Express.	Ores and Base Bullion by Freight.	TOTAL.
California	$15,709,958	$1,570,996	$264,771	$480,000	$18,025,722
Nevada	219 141	48,828	30,185,921	4,807,617	85,254,507
Oregon	1,146,991	229,398	.....	.....	1,376,389
Washington	171,951	34,390	.....	.....	209,396
Idaho	1,171,181	284,226	988,297	.....	2,843,654
Montana	3,241,288	648,247	3,325	.....	3,892,810
Utah	112,008	22,400	1,210,234	3,561,500	4,906,337
Arizona	37,074	7,415	3,289	.....	47,778
Colorado	1,856,639	.....	899,862	1,886,767	4,088,268
Mexico	.....	.....	868,798	.....	868,798
British Columbia	1,041,696	208,389	.....	.....	1,250,085
Grand total					$72,258,693

This statement compares with the year 1872 as follows:

California	$19,049,089 24
Nevada	25 548,801 09
Oregon	1,905,034 92
Washington	226,051 06
Idaho	2,514,089 78
Montana	4,442,134 90
Utah	3,521,020 09
Arizona	143,777 00
Colorado	3,001,750 85
Mexico (west coast)	535,071 80
British Columbia	1,350,064 16
Total	$62,236,913 89

This shows an increase for 1873 of $10,021,780. The total yield for 1871 was $58,284,029, or nearly $4,000,000 less than for 1872. Wells, Fargo & Co.'s statements are considered the most accurate of any given, yet they do not embrace the total yield, as considerable gold bullion finds its way to this city through private hands. As, for instance, the Hite Mine, of Mariposa County—one of the large bullion-producing mines of this State—ships nine-tenths of its bullion in this way, much of it being carried by Mr. Hite himself. So with many smaller claims. Yet these private shipments would not bring the aggregate up, perhaps, more than a million of dollars; but if they were added to the amounts sent through the channels mentioned in Mr. Valentine's letter, the grand aggregate for 1873 would foot up, perhaps, $80,000,000.

This increase of 1873 over 1872 is marked and very encouraging, it being about two-thirds greater than the increase for 1872 over 1871. From the developments now being made in many of our prominent mines in this State and in Nevada, we should not be surprised to see the yield of 1874 foot up $90,000,000. We stated last February that we anticipated a yield for 1873 of $10,000,000 in excess of 1872, basing our opinion upon the fact of a more extended field and more skillful operations; and the same facts confirm us in our opinion as to the result of 1874.

The State of Nevada, as shown by these figures, presents the singular anomaly of an annual production in excess of the value of its taxable property—that being only about twenty-seven or twenty-eight million dollars. Estimating its population at 50,000, its bullion product for 1873 was $705 for each inhabitant. Can any other section of the Union excel this "sage-brush State?" Another remarkable fact is, that about two fifths of its bullion yield was from two mines—Belcher and Crown Point.—*San Francisco Jour. of Com.*

Minnesota State Bonds.

Judge Dillon, of the United States Circuit Court of Minnesota, has rendered a decision respecting the State railroad bonds, in which he declared that justice and honor alike require that the State should recognize these bonds as binding upon it. The St. Paul *Pioneer* describes the case in which the decision was given as follows:

"The suit in the United States District Court was brought by Selah Chamberlain, the holder of $500,000 State bonds, not against the old companies to which they were issued, but against the present new companies, to which the State granted the lands, property, and franchises of the old companies to recover from them the value of the bonds, charging them with a trust for the payment thereof. Judge Dillon decides that the present railroad companies received from the State their roads, lands, and franchises, free from any incumbrance whatever, and are not subject to any trust in favor of the creditors of the State, or of the former companies. The bonds are no lien on the new companies, as the State guaranteed a clear title. The most important feature of Judge Dillon's opinion is the explicit, direct decision that the Minnesota Railroad bonds, issued under the amendment to the State Constitution of April 15, 1858, were legally issued, and are valid and binding against the State itself. He truthfully asserts that the bonds have been repeatedly recognized as valid by subsequent Legislatures, and affirms that 'if the State were sueable in the courts, there can be no doubt the bonds would be legally enforceable against it.' And in another place he says: 'A State with such a future before it as the State of Minnesota cannot afford to bear the odium of reputation.' Doubtless, this case will go up to the Supreme Court of the United States, on an appeal, and the result must, unquestionably, be the same as in the Circuit Court. The bondholders have been for a long time defeated of their claims from defeat of remedy, but their claims must be paid in some form, and the present Legislature will act wisely if the percentage on gross earnings of the railroads, in addition to the internal improvement bonds, shall be set apart and funded to meet the emergency that will be sure to arise, for no one will dare to lisp repudiation if the highest judicial authority in the land shall affirm the decision of the Circuit Court.

☞ The Supreme Court of the United States has given a decision in favor of Mr. Geo. O. Marcy, 75 State street, Boston, confirming the validity of $40,000 Illinois Registered Town Bonds, issued in aid of the Illinois Grand Trunk Railroad. The town attempted to avoid paying the interest on the bonds alleging that they were illegally issued. The basis of the Court's decision was that no irregularity precedent to issue, not even fraud on the part of the agents of the town, can vitiate the bonds in the hands of an innocent holder. The same rules are applied to these bonds as are applied to commercial paper.

☞ It is asserted that English car-builders consider American car-wheels superior to any others. Their excellence is attributed to the peculiar manner of manufacture and to the use of iron smelted by charcoal. In 1871 there were 2,819 wheels exported; in 1872, 4,660; and in 1873, 7,715. The other day the steamer Ohio, on her trip from Philadelphia to Liverpool, took out 1,200.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*), occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, January 24, 1874.

Stock Exchange and Money Market.

Money has been in unusually liberal supply since our last, both at bank and in private channels, and borrowers have been enabled to make very favorable terms, especially as compared with recent experience. Call loans have been quoted down to 4@6 per cent, with a fairly active demand noted, on speculative account, chiefly from Stock and Gold Board operators. Choice to very good grades of commercial paper have been in more favor and quoted at from 7@9 per cent per annum. The last city bank exhibit was an extremely strong and encouraging statement—probably the most satisfactory that has been made within a year. The banks appear to increase their loans quite moderately, as compared with their present ability. The deposits of the City banks show an increase of over 11½ millions; the item of legal tender notes, of nearly four and a half millions; and the specie reserve of nearly 1⅝ millions. The banks enlarged their loan and discount average, nearly three millions; and again contracted their circulation slightly. The U. S. Sub Treasury, reports an addition of about 2⅞ millions to its currency reserve, and of a small amount of Gold, as the result of the week's business. The City banks increased their average of gold last week to $34,810,000, as against $32,679,100 the preceding week; and their greenback average to $54,417,900, as against $50,926,000, on the previous return. Their depos its stood at 231¼ millions, giving an increase of $11,573,900. The loan item was 268⅝ millions, against 265⅝ millions on the former exhibit. The circulation was under 27⅛ millions, against a little over 27⅛ millions the week before.

The U. S. Sub-Treasury, last week, enlarged its currency balance $2,873,451, and reduced its coin reserve $46,967. Its currency balance at the close of the week was $30,144,192; and its coin reserve $52,117,083.

The cash balances in the Treasury Department, at Washington, on Wednesday were as follows: Currency, $3,500,000; special deposits of legal tenders for redemption of certificates of deposit, $40,730,000; coin, $86,500,000; including coin certificates outstanding, $45,500,000; outstanding legal tenders, $382,739,837.

The Gold movement has been moderately active since our last The speculative dealings have been on a restricted scale. The export drain has been less than half a million. The custom call has shown some increase The extremes of the price have been 111⅛@111⅞, closing at 111⅝ as against 111⅜ on Wednesday of the preceding week. The specie outflow, last week, was $482,945. The imports of specie at this port last week were $6,000, and since Jan. 1, $105,347, against $53,609 same time last year.

The customs demand for Gold last week averaged $436,500 a day. The total customs revenue of the Government, in coin, at this port, since July 1, 1873, has been $61,381,195, against $74,825,017 same time in 1872-'3. Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1873, $37,093,543 against $52,238,642 same time in 1872-'3. The export drain of specie since July 1, 1873, has been $22,811,584 against $38,699,417 in 1872-'3.

There has been a moderate inquiry noted for foreign exchange, with prices ruling weak and and irregular. Bankers' sixty day bills on London closed on Wednesday at $4 82½@$4 83⅛; sight bills on London, at $4 85½@$4 86⅛. The week's exports of Domestic Produce have been to the currency value of nearly six millions.

Government securities, have been in very good request, especially for investment purposes, and the market has been ruling strong and buoyant. The more favorable revenue reports have tended to stimulate the demand.

U. S. sixes of 1881 closed on Wednesday of this week at 117⅞@118; U. S. Five-Twenties of 1862, 113⅞@114⅛; U. S. Five-Twenties of 1864 at 115⅞@116; U. S. Five-Twenties of 1865 116¾@117; U. S. Five-Twenties of 1865 consolidated 115¾@116; U. S. Five-Twenties of 1867, 117⅛@117⅜; U. S. Five-Twenties of 1868, 117@117¼; U. S. Ten-forties at 113⅝@114; U. S. Fives of 1881 (Funding Loan) 112½@113; Six per cent. currency Sixes from 114¾@115.

Business in Railway and Miscellaneous securities has been quite active. The market has been more than usually influenced by the manipulations of operators of conflicting views as to values, and fluctuations have been frequent. The market closed more firmly.

There has been an improved demand noted for State and Railway bonds which have been strong and buoyant in price. Central Pacific first mortgage six per cents closed firmly at 96⅜@96½, ex the January coupon of three per cent. Chesapeake and Ohio First Mortgage Bonds, Six per cents, 61.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,712,254, as compared with $11,282,162 same week last year. The exports of domestic produce are $5,960,132, as against $4,586,333 last year. The exports of Gold and Silver, $482,495, as against $328,155 last year. The customs in Gold deposited during the week in the New York Office of the Treasury amounted to $2,619,000, comparing with $2,915,975 same week last January.

The outstanding amount of U. S. legal tender notes on Wednesday was 382½ millions, showing an increase, during the week, of one million.

An improved trade has been noted in Produce and Merchandise. The demand has been more active for the leading articles. Cotton, Breadstuffs, and Provisions closed rather less firmly Groceries, somewhat stronger in price. Petroleum and Naval Stores held higher. Tobacco and Wool, steady. The Live Stock markets have been moderately active, with prices comparatively well supported. Copper has been in good request, with sales reported of 500,000 lbs., including Lake, at 24½c.@25c., and Baltimore at 24@24½. Iron has been in limited demand as a rule but quoted firm; stocks offered moderately; Scotch Pig is scarce. We quote: Eglinton Pig at $40@41; Glengarnock, $42@$42 50; Coltness, $45; Gartsherrie $47; No. 1 American Pig at $35@$36; No. 2 do. at $32@$33; Forge, $28@$31; English Rails at $55@$60, gold; American Rails at works, $62 50@$65; Old Rails, $40; Wrought Scrap, $38 50. Sales 5,000 tons Old Rails Western delivery, and 10,000 tons Steel Rails on p. t. Pig-lead has been in very quiet, with foreign quoted at 6¾c.@6¾c., gold, for ordinary, and domestic at 6c., gold; Bar, 9¼c.; Sheet and Pipe, 10c. Spelter has been rather inactive at 7⅜c.@7⅝c., gold, for foreign, and 8c.@11c. for domestic. Pig-tin has been very quiet with Straits quoted at 28c.@28¼c., gold; English at 26c.@26¼c., and Banca at 32c.@32½c., gold. There has been a fair inquiry noted for Tin Plates, with Charcoal Plates quoted at $10 50@$10 75; Charcoal Terne, $9 25@$10; Coke $8 25@9; Coke Terne 6 75@$8 50, gold, per box. Zinc wholly unsettled. Ocean freight, stronger, and business brisker.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ We Buy and Sell Government Bonds, Gold, and Gold Coupons at current market rates.

We buy and sell Investment Stocks and Bonds at the Stock Exchange on commission for cash.

We make Collections for merchants and others at all points in the United States and Canada.

We receive Deposits subject to draft at sight and allow interest at the rate of four per cent per annum.

We issue Certificates of Deposit available in all parts of the country, and in case of Special Deposits allow interest at rates to be agreed upon.

We Collect Dividends, Coupons, Interest on United States Registered Bonds, and attend to Banking Business generally for out-of-town Banks, Bankers, and Correspondents on reasonable terms.

We call attention to the present favorable opportunity for investment in Central Pacific and Western Pacific Gold Bonds, which are actively dealt in, both in this country and Europe, and which, at current prices, are every way desirable.

We offer for sale, at 85 and accrued interest, a limited amount of the Six per Cent. Land Grant Mortgage Bonds of the Central Pacific Railroad Company.

Interest payable April 1 and Oct. 1. Principal and interest payable, in gold, in New York City.

Secured by a first mortgage on the entire Land Grant of the company, amounting to over 11,000,000 acres, and valued at nearly $30,000,000.

The Central Pacific Railroad Company now own and operate over 1,200 miles of completed railroad, the Net Earnings of which, over Operating Expenses, are now paying the interest on their entire bonded debt and semi-annual dividends of Three per cent. in gold on their paid-up Capital Stock of $54,275,500, and are constantly increasing.

FISK & HATCH,
Bankers and Dealers in Government Securities.

☞ The total receipts of the Western Maryland Railroad for fifteen months preceding January 1, 1874, were $254,585 71. The disbursements, irrespective of interest on funded coupons and loans, was $229,040 88; balance $25,544 83. This balance is expended in interest, materials, equipments, &c.

☞ Francis T. King has been elected a director of the Baltimore and Ohio Railroad Company *vice* Johns Hopkins, deceased. It is stated that the receipts of the road for December, 1873, amounted to $1,086,986 53—showing an increase over the corresponding month of 1872 of $51,640 27.

☞ W. D. Washburn, has been elected President of the Minneapolis and St. Louis Railroad Company.

☞ Joseph Keeling has been elected President of the Ormsby street (Pittsburg) Passenger Railway Co.

☞ The Calumet and Hecla Mining Company has declared a dividend of $5 per share, payable February 16th.

Southern Maryland Railroad.

The Upper Marlboro' *Gazette*, Prince George's county, Md., says that Colonel Smoot has just closed a contract for 5,500 tons of iron rails from Pottsville, Pa., to be delivered by the 15th of March, and five locomotives, from the Baldwin (Pa.) works. In the purchase of the iron and the locomotives at this time the company save about $120,000, as the market now is some 30 or 40 per cent lower for these articles than it has been for years. The road is now graded the entire distance from Brandywine to Point Lookout, except about thirteen miles, and Messrs. P. H. Alderbaugh and G. W. Smoot, contractors to lay the rails have been notified to be ready at a moment's warning to begin their work, and it is predicted that the cars will run from Brandywine to Point Lookout before the next summer shall have ended.

☞ Mr. Enoch Pratt has been chosen President of the Baltimore City Passenger Railway Company. It is not definitely known what changes will be inaugurated in the affairs of the company, but a well authenticated report states that it is the intention to secure a practical working superintendent, who will control the operations of the lines under the supervision of the Board of Directors.

☞ The largest sale of land that has probably ever taken place in the West has just been made by the Atchison, Topeka and Santa Fe Railroad Company to the leaders of the Mennonite colony, by which 18,000 acres near Halsted, Harvey county, have actually been purchased and 26,000 more are engaged to be taken during the coming season.

☞ The basis of consolidation proposed between the New Bedford and Taunton and Taunton Branch Railroads is that four shares of New Bedford and Taunton are to be equal to three shares of the Taunton Branch, and the holders of the shares of the Taunton Branch in exchanging their shares for consolidated shares, are to receive $33 33 on each share.

☞ The statement of the Lake Shore and Michigan Southern Railroad Company for the fiscal year ending September 30, 1873, as rendered to the New York State Engineer at Albany, shows that the earnings for the year were $19,355,385, against $17,591,620 during the preceding year.

☞ Since the three-foot narrow gauge railroad system came into vogue, no less than 1,445½ miles have been built in this country and in Canada, which roads, when completed, will have a mileage of 4,562½ miles, while there are 1,291 miles under construction.

☞ Asa Packer has been re-elected president of the Lehigh Valley Railroad Company. The total coal tonnage for the year was 4,172,866 tons; total receipts, $7,424,895; expenses, $3,884,859; net income, $3,540,035.

☞ A *Herald* special from the City of Mexico, dated 15th, says the grant to the Mexican Railroad Company has been approved by Congress. The grant to the Tehuantepec Company has been suspended for a year.

☞ The capital stock of the Marietta, Pittsburg and Cleveland Railroad Company has been increased from $4,000,000 to $4,500,000.

OFFICE OF THE ILLINOIS CENTRAL R. R. Co., NEW YORK, December 20, 1873.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 2d day of February next, to the holders of full-paid shares, registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH,
Assistant Treasurer.

The American Wood Carbolizing Co.

Is organized for the purpose of Creosoting Timber for Docks, R. R. Ties, Fence-Posts, Pavements, and all other uses where Timber is exposed to the action of water or air. This Company also proposes to License R. R. Companies and others who desire to erect their own apparatus.
Drawings and specifications of apparatus, either stationary or portable, will be furnished on application.
67,112 miles of Railroad in the United States use annually over twenty-six million Ties for renewing those destroyed by decay.
The preservation of wood from decay and the attacks of marine worms, has been largely practiced in Europe for thirty years; and with such success that the use of natural wood is now the exception; and of all the various methods that have been employed, that in which creosote oil was used, has best endured the test of time.
This Company, benefiting by the thirty years' practical experience in the use of creosote oil abroad, offer to the public a system of application which is adapted to the wants of our own country, in that green wood can be rapidly and thoroughly treated, even better than dry, and the application of the oil, in connection with the use of moderate heat, be made more uniform and effective than is possible by any other means.
Experience has demonstrated that creosote or dead oil is the only substance by which wood can be treated so as to certainly resist the attacks of marine worms.
Creosoted wood exposed in Charleston Harbor was not attacked by the teredo, while natural wood attached to it was completely honey-combed.
It is confidently asserted that Railroad Ties creosoted will outlast three sets of ordinary Ties, and that creosoted Paving Blocks being beyond the reach of decay, will last as long as stone, with all the advantages of an elastic roadway, beauty and economy of construction.
The economy in the use of creosoted wood, where the term of service is trebled, is measured by adding to the wood used, the cost of the labor expended in construction, and the loss of time spent in replacing the structure, when either decay or attacks of marine worms destroy it.
The system of Seely and Pelton, employed by this Company, has been fully examined and indorsed by Gen. McClellan, Gen. Barnes, Gen. Babcock, Rob't Harris, C. B. & Q. R. R., Prof. Silliman, Capt. Eads, Gen. Cram, Gen Humphreys, Gen. Meigs, Gen. Belknap, Prof. Chandler, Gen. Gilmore, Gen. Newton, A. B. Mullet, C. H. Haswell.
It has been used by the U. S. Government upon the Dykes of the St. Clair Flats, and upon Gun Platforms for the fortifications on the Atlantic coast; upon pavements in New York and Pittsburgh, by the Department of Docks of the City of New York and the Board of Public Works of the District of Columbia.
Detailed information can be obtained and specimens of creosoted wood examined at the office of the Company.

American Railroad Journal.

New York, Saturday, January 31, 1874.

The Past and Future of our Trunk Railroads.

In order to accurately appreciate the growth of industry and the wealth of the generation in which we live it is proper to look backward at the past. A distinguished English statesman has recently remarked that England accumulated more wealth in the last 150 years of its history than in all the previous period; and that the greater part of this accumulation was within the past 50 years, "or since the yoking of steam as the servant of man." Reckoning in smaller measures of time, the same rule may be applied to the growth of our own country. The accumulation of the past 35 years far outrun all the previous accumulations since the settlement of the country, and of this accumulation the greater part has been within the past 15 years, notwithstanding the ravages of war in the interval. Measured either by the activity of our adult population, as revealed by the census, or by the conditions of living and our habits of expenditure, there has been an enormous multiplication of our physical powers, and an immense saving of human efforts in nearly every branch of industry. In 1830 we had scarcely a mile of railroad in operation, operated by steam; in 1835 we had upwards of 1,100 miles; in 1845 we had nearly 5,000; in 1855 nearly 20,000; in 1865 over 35,000 miles, and in 1874 we have more than 74,000 miles; or more miles of rail route than all Europe, though not quite as much as the total track mileage. Only 20 years ago a single company ventured to run its weekly steamer between a single port of this continent and Liverpool; now there are twenty lines, averaging a departure for each day of the week, between United States ports and Western Europe. A few years ago there was not a single steamship plying between any of our Pacific Ports and the Great Indian and Chinese Empires of Eastern Asia. Now there are a dozen; and it is the opinion of all who are familiar with it, that the trade with those teeming regions of the earth has but just begun. Ten years ago letters for the Pacific States and Territories were sent from the Missouri River by Pony Express, in from 14 to 20 days, while the newspaper and heavy mails were sent by steamer *via* the Isthmus of Panama, in from 20 to 25 days. The territory west of the Missouri River, excepting a narrow strip of Eastern Kansas, was a desert, dotted only here and there by a military post or mining camp; now the mails and passengers are wheeled safely and luxuriously over this tract at the rate of six hundred miles a day, or in 6½ days from New York to San Francisco.

Judging by the past, whoever lives to see the close of the century will, without doubt, see a nation of a hundred million people, with our railroad mileage swollen to ten times its present dimensions, and the productive industry of the country increased in similar ratio; while the transportation interests of the country will have grown from their present babyhood to dimensions which it would be accounted visionary to reduce to figures. The importance in the function of our great East and West Trunk Lines must be magnified, (even more than mere local lines,) and especially those reaching to the Pacific. It is not too much to expect that a mighty fleet of steamers at New York, Boston, Portland and the much talked of new central port of call on the Chesapeake, will be connecting with the several trunk lines leading to the Mississippi and beyond; while at San Francisco, the dominant port on our Pacific Coast, a similar fleet will be bearing to and fro the merchandise of Asia in multiplied exchanges for the manufactures and wares of our own unrivalled workshops. By casting a look backward to the past generation, and a look forward to the next, we may comprehend how the enterprises, which are now struggling into success, are the beginnings of the vast consolidated and irresistible institutions which it will be the fortune of our children to enjoy.

Brooklyn Steam Transit Co.

On the 2d of December last Mr. I. C. Buckhout, Engineer of the Fourth Avenue Improvement, New York, reported to the directors of the Brooklyn Steam Transit Company the result of a survey with a view to ascertain the cost of an underground railroad to commence at the Bridge pier and run to the intersection of Flatbush, Atlantic and Fourth avenues, and from that point run two lines to East New York, through such streets easterly of Prospect Park as seem likely to furnish the most feasible and desirable route; also, to commence at the same point of intersection of Flatbush, Atlantic and Fourth avenues, and thence run on the westerly side of Prospect Park, through or in the vicinity of Fourth avenue, to the best point for diverging to the city line, and then diverge and run to the city line upon the best route to accommodate the passenger and freight traffic which the company may expect to have. The report estimates as follows the cost of the three routes selected as most feasible:

Butler Street Route—Construction and tracks, complete, $4,034,900; sewers, water and gas, $155,425; right of way, $521,600; depots, $500,000; equipment, engine house, &c., $475,000; engineering and contingencies, $175,000; total, 6.41 miles, $5,861,925; cost per mile, complete, $914,496 88.

Flatbush Line—Construction, tracks, &c., $3,599,830; right of way, $400,400; sewers, water and gas, $156,550; depots, $485,000; equipment, engine house, $475,000; engineering and contingencies, $175,000; total, 6.03 miles, $5,241,780; cost per mile, $756,389 62.

South Brooklyn Line—Construction $3,470,000; right of way, $310,400; depots, $485,000; sewer, water and gas, $179,530; equipment, engine-house, etc., $475,000; engineering and contingencies, $175,000; total, 5.37 miles, $5,094,930; cost per mile, $948,776 53.

The directors have as yet taken no action on this report. The president of the company, Mr. S. B. Chittenden, says:

"For the trifle of five millions of dollars, transit between Fulton Ferry and East New York can be secured by regular train on a double track of street rails, by tunnel open cut and surface way, without loss of more than fifteen minutes! And our further belief is that no one (having properly investigated the subject) can deny that the work finished would be worth to Brooklyn and its citizens more than twice that sum. But, just at the moment, we do not know where to put hands on the five millions."

Railroads of the United States, 1874.

It has been usual for the Editors of the AMERICAN RAILROAD JOURNAL to publish at the commencement of each succeeding year a detailed list of all the Railroads in the United States, whether projected or completed, showing their length, cost, &c. To give such details was more a labor of love than utility, and served simply to verify the general results summarized from them. The list has now, however, become so extensive that if published this year it would occupy some ten pages, more usefully devoted to other subjects; and hence we have decided to give only the general summary—the crystalization—in our usual form. The details, however, will be found almost complete in our standing stock tables, which represent about 800 roads, large and small, and to these we refer those who care for minutiæ.

The first table we present to our readers is the mileage and cost of the railroads, existing in the States and Territories severally, at the opening of 1874. The results of our enquiries show the status of this great interest to be as follows:

States, &c.	—Length in Miles.— Total.	Completed.	Cost of Road & equipm't.
Maine	1,062.71	947.18	$39,872,126
New Hampshire	1,169.22	982.31	31,315,912
Vermont	937.71	813.92	43,718,974
Massachusetts	1,897.57	1,739.82	90,307,291
Rhode Island	207.19	168.31	8,217,339
Connecticut	1,076.39	917.49	47,411,987
	6,350.79	5,568.98	$260,843,629
New York	6,842 39	5,316.09	$352,729,308
New Jersey	1,699.81	1,497.22	137,319,405
Pennsylvania	7,941.87	6,188.78	361,222,798
Delaware	297.62	288.61	8,712,921
Maryland & D.C.	1,206 53	989.17	56,819,752
West Virginia	1,121.78	493.30	58,310,017
	19,109.85	14,668.17	$974,214,201
Virginia	2,897.88	1,545.91	$70,807,218
North Carolina	1,749.46	1,401.74	35,719,222
South Carolina	1,591.26	1,388.94	38,341,652
Georgia	2,966.27	2 226.82	58,814,711
Florida	775.70	475.70	17,691,654
	9,480.02	7,038.61	$220,384,457
Alabama	2,846.87	1,916.09	$67,311,729
Mississippi	2,319.77	1,017.28	41,319 876
Louisiana	1,218.00	560.00	27,841,316
Texas	4,922.00	1,582.38	54,918,892
Arkansas	1,857.68	789.07	42,927,801
Tennessee	2,898.17	1 681.29	57,318,729
Kentucky	2,375.98	1,397.23	61,102,709
	17,937.87	8,843.24	$352,740,052
Ohio	5,629.31	4,121.68	$248,915,215
Michigan	4,817.39	3,211.16	157,914,098
Indiana	5,622.19	3,849.97	187,827,512
Illinois	10,315.68	7,029.81	346,817,212
Wisconsin	4,317.29	2,871.13	91 811,777
	30,701.81	20,583.75	$1,082,285,814
Minnesota	3,107.17	1,992 06	$92,177,379
Dakota Ter.	1,800.00	322.00	16,107,812
Montana Ter.	489.00	....	48,900
Idaho	120.00	....	12,000
Iowa	5,703.00	4,129.07	166,392,222
Nebraska	2,108.79	1,323.92	89,727,833
Wyoming Ter.	679.29	454.00	42,817,922
Missouri	5,611.31	3,079.08	156,313,713
Kansas	3,555.29	2,132.77	87,111,937
Colorado Ter.	1,692.42	679.18	28,993,169
N. Mexico Ter.	1,000.00	....	10,000
Indian Ter.	1,722.73	359.88	17,598,329
	27,589.00	14,471.96	$582,810,756
California	3,897.00	1,713.24	$91,817,945
Nevada	1,461.00	598 02	52,312,017
Utah Ter	813.60	478.62	37,896,522
Oregon	2,784.00	337.09	16,201,737
Washington Ter.	777.00	106.00	5,316,979
Arizona Ter.	879.00	....	87,900
	10,611.60	3,227.97	$203,133,100

General Recapitulation by Sections.

N. E. States	6,350.79	5,568.98	$260,843,629
Middle States	19,109.85	11,668.17	974,214,201
S. E. States	9,480.02	7,038.61	220,384,457
G'lf & S.W.St's	17,937.87	8,843.24	352,740,052
Interior, East	30,701.81	20,583.75	1,032,285,814
Interior, West	27,589.00	14,471.96	582,811,756
Pacific Slope	10,611.60	3,227.97	203,133,100
Grand total	121,780.44	74,402.68	$3,626,413,009

The following exhibit makes a statement of the increase of mileage and cost in the several sections, as deduced from a comparison of the statistics of the previous year and those of the present year:

	—Length in Miles.— Total.	Completed.	Cost of Road & equipm't.
N. E. States	393.52	422.01	$18,571,419
Middle States	1,204.14	1,125.83	93,862,882
S. E. States	290 95	198.12	9,186,928
G'lf & S.W.St's	1,826.26	810.13	47,904 082
Interior, East	853.80	975.10	59,457,080
Interior, West	3,212.37	1,273.72	82,700,823
Pacific Slope	675.80	439.67	33,860,100
Total increase	8,456.84	5,244.58	$290,543,264

From the above tabulation it appears that there were in the United States, at the opening of 1874, no less than 74,403 miles of railroad, which has been built at a cost of $3,626,413,009, or at an average cost of $48,740 per mile; and that there were constructed during the year 1873 5,245 miles, at a cost of $290,543,264, or at an average cost of $55,180 per mile. It is probable that a considerable share—say, 10 per cent of this average—belongs to sections of road not yet completed, and hence we may calculate that the average cost of railroads is in the neighborhood of $50,000 per mile. Yet again another large per centage may be taken from the average as having been expended on improvements, double tracking and steel railing previously existing railroads, and in adding to rolling stock, &c. Say, that 10 per cent ought to be deducted for these, and the average price is reduced to $45,000. But the cost of roads in different sections and over different surfaces is so diverse that to generalize is of little positive use. It is evident, however, that the roads built in 1873 have been built at a larger cost than is shown on the full average. It ought also, to be stated that in the aggregate of 74,403 miles are included 1,250 miles to represent mining and manufacturing roads, not otherwise designated, and for roads so near completion at latest reports that their absolute completion by December 31, 1873, was all but certain. The first class are chiefly in Pennsylvania, and the latter class scattered over the Northern States, from the Atlantic to the Pacific. Other compilers ignore these and hence give a smaller aggregate. Deducting these, the apparent aggregate would be 73,153 miles. The *Railway Monitor* gives the total of 71,565 miles, which we assume to be too low an estimate. The same authority gives only 4,191 miles as the construction in 1873—evidently an error.

The double-tracking of roads and the extension of side-tracks has been very actively carried on within the last few years; and we have every reason to believe that the length of these now in use is at least one-fourth that of the railroads themselves. If this be the case we have, besides the main and branch lines, 18,600 miles of these auxiliary tracks or a total length on the basis of single track of 93,000 miles. We have also at least 7,000 miles of city and suburban passenger tracks, which with the steam tracks now in use makes up the round 100,000 miles of track of all kinds.

The progress of railroad construction in the United States from the opening of the Granite Railroad at Quincy, Mass., in 1827, to the commencement of 1874, is shown in the following statement:

Year.	Miles open.	Yearly Increase.	Year.	Miles open.	Yearly Increase.
1827	3		1851	8,589	1,114
1828	3		1852	11,027	2,438
1829	28	25	1853	13,497	2,470
1830	41	13	1854	15,672	2,175
1831	54	13	1855	17,398	1,726
1832	131	77	1856	19,251	1,853
1833	576	445	1857	22,625	3,374
1834	762	186	1858	25,090	2,465
1835	918	156	1859	26,755	1,665
1836	1,102	184	1860	28,771	2,016
1837	1,431	329	1861	30,593	1,822
1838	1,843	412	1862	31,769	1,176
1839	2,220	477	1863	32,471	702
1840	2,797	577	1864	33,860	1,389
1841	3,319	522	1865	32,442	582
1842	3,877	558	1866	35,351	909
1843	4,174	297	1867	36,696	1,545
1844	4,311	137	1868	38,822	1 926
1845	4,522	211	1869	42,272	3,460
1846	4,870	348	1870	48,860	6,588
1847	5,336	466	1871	55,535	6 675
1848	5,682	346	1872	62,647	7,112
1849	6,350	668	1873	69 158	6,511
1850	7,475	1,125	1874	74,403	5,245

This table shows a large falling off in construction. This phase of circumstances has been brought about chiefly by the continued stringency in the money market; and the wilderness railroads, built to secure land-grants, have proved in the main to be illusory in their character, non-productive and ruinous to both stockholders and bondholders. Several thousands of miles of such roads have been built within the past five years, only a small moeity of which are able to earn interest on their bonds. Hundreds of miles beyond the Missouri are still waiting for population to use them.

The financial crash of last September, however, has been the sorest cut of all; and from that date very little has been done in railroad building—no new enterprise has been inaugurated. The Great Northern Pacific and the Chicago and Canada Southern—two of the most promising lines then in course of construction have been forced to stop work; and scores of roads of less pretentions have been swamped in their inception or early career.

It is not probable, therefore, that 1874 will advance greatly the mileage now in existence. A few roads in forward progress will probably be brought to completion, and possibly a few of the projected connecting roads finished. But as to any great work being commenced—that is out of the question.

The high price of iron and steel and the dearness of labor will also militate largely against further progress. Iron, however, must be obtained for repairs; the annual quantity required can be approximately calculated. On the basis of a life of ten years the 74,403 miles of road now in existence would call for 654,746 tons of 56 pound iron per annum. On the same basis the total iron now in railroads in the United States is 6,547,464 tons.

Fitchburg Railroad.

At the annual meeting of the stockholders of this company held in Boston on the 27th inst., the following gentlemen were unanimously elected directors for the ensuing year: Wm. B. Stearns, Charlestown; Alvah Crocker, Fitchburg; P. B. Brigham, Boston; Seth Bemis, Newton; Robert Codman, Boston. The annual report of the directors for the year ending September 30, 1873, was presented and accepted, and ordered to be placed on file.

The next business was to determine whether the stockholders will accept the act of the Legislature, approved March 19, 1872, to increase the capital stock of the company, and to determine whether the stockholders will authorize the issue of stock and bonds, or either, as provided by said act, and to take all such action as may be deemed necessary in reference to the same.

Mr. Stearns stated that the capital stock of the company in 1851 was $3,540,000, and that in twenty-three years it was increased $460,000, making a capital of $4,000,000. During this time great improvements have been made and valuable additions made to the real estate of the corporation.

Mr. Seth Barnes, of Watertown, offered the following resolution:

Voted, That the company accept an act of the Legislature of Massachusetts approved March 19, 1872, entitled "an act to increase the capital stock of the Fitchburg Railroad Company," and that the directors be, and they are hereby, authorized to issue in their discretion stock of the company to the extent of one million of dollars, as provided by said act of the Legislature of Massachusetts.

Provided, however, that the directors may as a substitute for all or any part of said stock issue bonds of the company payable in not exceeding twenty years after date, with interest at a rate not exceeding seven per centum per annum payable semi annually; provided that the whole amount of stock and bonds so issued shall not exceed the sum of one million dollars.

Mr. Welch of Boston moved to amend the motion of Mr. Barnes by adding the words "or to dispose of the stock in such other way as the Directors may think most for the benefit of the stockholders and agreeable to law."

The amendment was accepted.

Mr. Derby rose to endorse the amendment as well as the original motion. He favored the increase of stock and congratulated the stockholders that the tunnel had been perforated and that the consolidation had been completed. Mr. Derby spoke at length upon the future prospects of the road. He thought that if the State could be satisfied that this company, which had been frugal and was now strong, was prepared to run the Hoosac Tunnel line they would allow the stockholders to retain this increased capital.

The motion was further supported by Col. Needham and Mr. Crocker, and as amended was adopted by a unanimous vote.

The meeting then adjourned without day.

The Central Pacific Railroad Land Grant.

From a recent statement of the Financial Agents of this company, we gather the following particulars in regard to the Farming and Timber Lands granted by Congress:

The total grant of Lands by the U. S. Government to the Central Pacific Railroad Company (including the grant to the California and Oregon Railroad Co., now the property of the Central Pacific, by consolidation) amounts to over 13,000,000 acres. After making allowance for reservations, pre-emptions, &c., the company will realize from their grants about 11,700,000 acres.

The policy of the company as stated in their last Annual Report with regard to their farming lands has been "to sell them at low prices and on easy terms to actual settlers. This course of action invites an industrious agricultural population, whose improvements and productions tend to increase the business of the roads and enhance the value of the still vacant lands. Most of the lands that have been sold were purchased for gold on a credit of five years; a payment of 20 per cent being made at the time of sale, and the remainder in equal annual instalments, with interest at the rate of 10 per cent per annum, payable in advance on all sums remaining unpaid.

Of these lands there were sold previous to October 1, 1870, 127,635 55 acres, which brought the sum of $295,065 50, being an average of $2 21 per acre. From October 1, 1870, to December 31, 1872, there were sold 122,765 09 acres for $484,227 97, being an average of $3 93 per acre. From December 31, 1872 to June 30, 1873, there were sold 20,638 71 acres for, $132,337 54, or $6 41 per acre. These sales were made to 1,446 individual purchasers, being an average of about 187 acres to each buyer.

The annual advance in the average price of land sold indicates the increasing value of the unsold lands, and when viewed in connection with the annual increase of the road business, fully justifies the policy of selling, as far as practicable, to the actual settlers for cultivation. Immigration promises to be more than double that of any year since the junction of the roads at Ogden. The wealth of the soil, as exhibited in its great wool, grain and wine productions, and the advantages of climate are attracting attention that must each year largely increase the inflow of population."

It will be seen, from the foregoing statements that the Central Pacific Railroad exhibits a constantly increasing importance and success in its career as the great artery of trans-continental travel and traffic, connecting the Atlantic States with the principal seaport of the Pacific coast—the gateway to the commerce of Eastern Asia—and is carrying off the immense crops from the broad and fertile grain and fruit fields of California, and the precious metals from the clustering mines of California, Nevada and Utah, while at the same time it conveys a corresponding volume of merchandise, wares, &c., to the growing sites of industry along its whole length.

The Central Pacific Railroad Company, having passed, with unimpaired credit and resources through the great convulsion of the past six months, it is safe to predict for it a still more prosperous and successful result in the year just commenced, and to expect that its securities will continue to maintain their place among the most substantial and desirable in the investment markets of the world.

Finances of Wisconsin.

From the Message of the Governor of Wisconsin we learn that the total receipts into the State Treasury for the year ending September 30, 1873, including all sources of income, were $1,774,558 55. The total disbursements, for all purposes, were $1,798,023 14. The balance in the treasury at the commencement of the fiscal year was $239,109 11. The excess of total disbursements over total receipts during the year was $23,464 59, thus leaving in the treasury, to the credit of all funds, $215,644 52. The excess of total disbursements over total receipts was due to an excess of expenditure from the general fund, as will be seen by facts hereinafter stated.

The total receipts of the general fund during the fiscal year were $1,095,872 29. Of this sum, the amount of $781,8.5 60 was derived from direct state tax upon the assessed valuation of property, $210,874 99 from taxes on gross receipts of railroad companies, $68,299 98 from taxes on fire and life insurance companies, and the balance from miscellaneous sources.

The total disbursements from the general fund during the fiscal year were $1,991,966 01, an excess of $96,093 72 above the receipts. Deducting from this excess of expenditure the balance in the general fund at the commencement of the fiscal year—September 30, 1872—and the deficiency in this fund for the year ending September 30, 1873, is found to be $66,923 80. The total disbursements were divided among the several classes of current expenditure as follows: Salaries and permanent appropriations, $261,572 36; legislative expenses, $103,730 22; state prison and charitable institutions, $501,246 83; miscellaneous, $325,416 60.

The deficiency in the general fund, of $66,928 80, is an overpayment, in excess of all proper resources for current expenditures, from the trust funds of the State, and is, in fact, an increase of the State debt to the precise amount of the sum thus abstracted from those funds.

The legal debt of the State, denominated the "bonded and irreducible debt," at the close of the fiscal year, was $2,252,057. Of this sum $9,238,900 consists of certificates of indebtedness to the various trust funds, $18,100 of outstanding bonds, and $57 of currency certificates.

The total productive accumulations of all the trust funds of the State, on the 30th of September, 1873, were $3,870,653 71, showing an increase during the last fiscal year of $94,468 56. At the same date these funds were thus divided:

School Fund	$2,510,181 12
University Fund	216,519 38
Agricultural College Fund	225,809 73
Normal School Fund	918,643 48

The State tax levied for 1871 was $629,143 10; for 1872, $765,291 55; for 1873, $671,582 38. The rate per cent of this tax upon the assessed valuation for the three years named, respectively, is as follows: 1871, 1 38-100 mills; 1872, 1 96-100 mills; 1873, 1 72-100 mills. The assessed valuation for 1873 was $390,454,875.

☞ The directors of the Portland (Me.) Horse Railroad Company, recently elected, are: H. O. Wheeler, H. J. Libby, J. T. McCobb, E. Norton and Charles Holden. An annual dividend of five per cent was declared. The company has a cash balance on hand of almost $4000.

Grand Trunk Railway of Canada.

REPORT OF THE DIRECTORS FOR THE HALF YEAR ENDING JUNE 30, 1873.

The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines, have been		£898,700
Deduct—		
The ordinary working expenses (being at the rate of 73.21 per cent, against 68.48 of the corresponding half of last year)	£667,951	
The renewals, &c., of the permanent way and works in the half-year debited to revenue	63,698	
		721,649
Leaving an available balance earned in the half year of		£177,050
Deduct loss on American currency		9,903
Leaving a sum of		£167,147
From which, however, has to be deducted the amount of postal and military revenue due for the half-year to the postal bondholders of		15,990
Which leaves the balance of		£151,157
Applicable for the following payments, viz.:—		
Interest on hired cars		£9,630
Honorarium to Mr. Grant, late secretary		1,050
Interest, &c., paid on lands	£1,768	
Interest on mortgage to bank of Upper Canada	4,424	
Interest on temporary loans, bankers' balances, promissory notes, European exchange, &c.	1,075	
Interest on British American Land Company's debentures	616	
Interest on Montreal Seminary debenditures	616	
Interest on Island Pond debentures	2,700	
Half yearly instalment on Portland sinking funds	2,568	
		13,767
Atlantic and St. Lawrence lease (in full)	42,451	
Detroit line lease (in full)	11,250	
Montreal and Champlain bond interest	12,081	
Buffalo and Lake Huron rent	30,000	
		95,782
1st Equipment bond interest	15,000	
2nd " " "	15,000	
		30,000
Balance		926
		£151,157

In the terms of the Arrangements Acts of this year the sum of £200,000 has been appropriated out of the proceeds of the new issue of ordinary stock towards the payments of dividends on the first and second preference stocks for the current year, which, with the balance of £926 shown in the preceding statement, makes the amount available for dividend £200,926. The directors have been advised that the full dividend on the First Preference Stock for the whole year is secured under the Act, and the amount required for that purpose is £160,907, of which one moiety has been applied to the payment of dividend on First Preference Stock on 1st September last, and the remaining moiety (£80,454) has to be reserved in trust to meet the dividend payable on 1st March next. Out of the balance remaining of £40 019, the sum of £38,408 has been applied in the payment on 1st September last of a dividend on the Second preference Stock at the rate of £1 18s. per cent for the half year, leaving a balance of £1,611 to be carried to next account. Comparing this half-year with the corresponding period of 1872, the gross receipts show an increase of £29,220, or 3.36 per cent. There was an increase in the passenger receipts of £24,608, or 9.19 per cent, and in the freight receipts of £3,-885, or 0.65 per cent. The total number of passengers carried was 761,741, against 783,748, and the quantity of freight was 772,572, against 787,361 tons. The average receipts per passenger was 6s. 9d., against 6s, 5d., and per ton of freight 15s. 8d., against 16s. 3d.

Half year.	Passengers. Nos.	Average per passenger. s. d.	Freight Tons.	Average per ton. s. d.

The expenses for the half-year amounted, including the renewals as charged in the ordinary revenue account, to £721,649, or 80.30 per cent of the gross receipts, as against £672,197, or 77.31 per cent for the corresponding six months of 1872. Excluding the renewals, the ordinary working expenses were 73.21 per cent against 68.48. There was an increase of expenditure for the half-year of £62,585, at the rate of 10 50 per cent, against an increase of 3.36 per cent in the receipts. This additional expenditure was wholly due to the enhanced cost of fuel and other materials used in the working of the railway, to the rise in wages, and the extra cost of clearing snow caused by the exceptionally severe weather in the early part of the year. The total train miles run were 3,292,-746 against 3,280,362, showing an increase of 12,-384 miles; and there was a decrease in the car mileage of 541,906. The cost per train mile in the locomotive department was 38.11 cents against 33.36 cents. The increase in the item of fuel in this department was no less than £20,651, and the increase in the wages amounted to £8,171. These two items alone represent very nearly the increased cost of the working of the locomotive department in the half-year. The capital account has been increased during the half-year by £6,031,-962. Out of the authorised issue of £10,000,000 of new ordinary stock £7,500,000 has been offered to the shareholders and the public, and the whole amount subscribed for. The discount and commission allowed thereon amounts to £6,075,000, and there is also the further charge of £200,000, being the amount specially appropriated under the Arrangement Act of this year towards the payment of dividend on the 1st and 2nd preference stocks, making a total sum of £6,275,000. The expenditure on new works, new rolling stock, and narrowing the guage, &c., and which is shown in detail in the accounts, amounts to £147,248, making the charge against capital for the half-year £6,422,248, from which, however, has to be deducted a credit of £390,286, principally arising from the issue of securities of the Atlantic and St. Lawrence Railway, which reduces the total charge against capital for the half year to £6,031,-962. The receipts in American currency during the half-year amounted to $2,074,856, as against $1,902,431, of which $551,800 was converted into gold, against $617,240, entailing a loss of £9,903 against £10,635 for the corresponding period of 1872. The change of gauge of 421 miles of the main line between Stratford and Montreal was completed on the 3rd and 4th October. The International Bridge across the Niagara River was opened for traffic by the president, on the 3rd of November last. The president returned from Canada on the 29th of December last, and he will at the adjourned meeting to be held on Thursday, the 22nd inst., render an account of his recent prolonged visit. The directors have, since the last half-yearly meeting in April, 1873, lost the invaluable co operation of two of the oldest and most respected of their colleagues, Lord Wolverton and Mr. Thomas Baring,. M P., men whose places in the councils of the company it is almost impossible to supply. They have elected Mr. Newmarch to succeed Lord Wolverton, and they will in due course propose a successor to Mr. Thomas Baring. By Mr. Newmarch's selection the office of auditor has become vacant, and Mr. Albert Creak has signified his intention of seeking election to this important office at the approaching meeting.

RICHARD POTTER, President.

Providence and Worcester Railroad.

The income of this company for the years ending September 30, 1872 and 1873, was as follows:

	1872.	1873.
From passengers	$367,060 54	$411,746 98
" freight	508,552 66	534,739 47
" mails	3,989 95	3,874 52

	$292,793 89	
Less due other roads	21,526 65	
	$271,267 24	
Less property on hand September 30, 1872	197,375 04	
		73,892 20
Total, as above		$457,103 35

The length of road in Massachusetts is 25.51 miles; do., in Rhode Island, 17,90 miles—total, 43.41 miles. Length of double track, 28.15 miles. Length of branch, 1 mile, single track. Length of sidings 27 miles. Length of roads belonging to other companies operated by this company, 15.43 miles. Total miles of road operated by this company, 58.84 miles. The report says:

The general condition of the road and its equipment is very satisfactory, indicating that a proper care has been exercised to keep it up to a high standard of excellence.

The winter of 1872-'3 was one of unusual severity, and in consequence the expense of maintaining the way has been in excess of other years, but economy has not been lost sight of in repairing the damage that resulted from a condition of things which human agency could not control.

Progress has been made with the second track and it will be completed as early as practicable.

There has been an addition to the equipment during the year, of three first-class locomotives, four passenger, one baggage, and thirty-three coal cars; extensive turnouts and commodious and substantial platforms and cattle pens have been built in North Providence, thereby enabling the road to relieve the City of Providence of the numerous cattle trains, long a source of annoyance.

During the year the bridges in Massachusetts, and Orms street bridge, in Rhode Island, constructed in 1872, have been completed and finished in the most thorough manner.

The numerous highway bridges between Providence and Pawtucket becoming unsafe from age and exposure, it is deemed necessary to rebuild, and so construct and enlarge them that four tracks will be accommodated, giving increased facility to the large and growing business of the road. Branch Avenue bridge, in North Providence, the first to receive attention, is nearly completed.

It is a matter of regret that the stone work originally laid on the line, was so poorly done as to require rebuilding in almost every instance, thereby adding greatly to the cost of all new work.

The Hopkinton Railroad, completed with the year 1872, has been operated the past season under lease, bearing date May, 1873, and serves to bring into close connection that region and the Blackstone Valley.

The question of reaching tide water by some route outside the city, has finally resolved itself into the building of a branch road by this company, independent of all alliance, from Valley Falls, following the east side of the Pawtucket river to Bold Point. The road is under contract and the work rapidly progressing; with the completion of this branch, affording as it will, unsurpassed facilities for handling our heavy freights, we can confidently look for a marked reduction in the expense of working our freight department.

Upon the whole, the road enters upon the new year in excellent condition, and, notwithstanding the financial panic that has swept over the country, vigorous and hopeful for the future.

The company have 29 locomotives, 40 passenger, mail and baggage cars, and 1,027 freight and other cars, and 2 snow plows.

Miles run by passenger trains, 218,975; by freight trains, 269,968; by other trains, 87,455—total, 526,128. Number of passenger carried, 1,785,967; do., carried one mile, 16,070,376. Tons of merchandise carried, 530,620; do., carried one mile, 15,888,480.

BALANCE SHEET, September 30, 1873.

Construction		$1,976,024 55

Superintendent.—WILLIAM D. HILTON.

Central Pacific Railroad.

The stock of the Central Pacific Railroad Company has been admitted to the Stock Exchange list. The following is the report of the Committee on Stock List approved by the Governing Committee:

Official statement of the Central Pacific Railroad Company, organized under charters from the United States and State of California.

Main line and branches now built and in operation:

	Miles.
Main line from San Francisco to Ogden	882.89
California and Oregon branch from Junction to Redding	151.48
San Joaquin Valley branch from Lathrop to Goshen	146.80
San Jose branch from Niles to San Jose	17.54
Alameda branch from Alameda wharf to Hayward's	14.75
Oakland branch from Oakland wharf to Brooklyn	5.55
Total	1,218.51
Second and side track	110.40
Aggregate mileage, main line, branches and sidings	1,328.91

Bonded debt of the company, less bonds in sinking funds		$53,411,210 65
United States Subsidy Bonds		27,855,680 00
Floating debt		3,244,136 60
		$84,511,027 25
The amount of authorized capital stock is	$100,000,000	
In shares of $100 each.		
The amount of capital stock subscribed is	$62,608,800	
The amount of capital stock issued is	54,275,500	
Represented by 542,755 shares of $100 each, all full paid.		
Total cost of road and branches, including equipment		$139,746,811 14

Total number of acres of land grant, upwards of 13,000,000.

Earnings:	Gross.	Net.
1871	$9,467,072 15	$5,171,192 95
1872	12,734,729 88	7,207,284 63
First six months of 1873, gross	6,325,408 49	
First six months of 1872, gross	5,508,616 66	

☞ We learn from Cincinnati that the trustees of the Cincinnati Southern Railroad have purchased the railroad from Lexington to the Kentucky River, twenty-three miles, thirteen miles of which, to Nicholasville, are now in operation, the remaining ten miles being graded to Kentucky River, where piers for a bridge are ready for the superstructure. The price paid for the road, depots and yards was $300,000 of Cincinnati seven per cent currency bonds.

Metropolitan Railroad.

At the annual meeting of the stockholders of this company, held in Boston on the 14th inst., the following directors were chosen: John W. Draper, President; Wm. Hendry, Silas Potter, Liberty Bigelow, George H. Vincent, Harvey Jewell, William T. Hart, Nathan Cushing and Dexter N. Richards.

From the report which was presented we learn that the income from all sources was $1,015,369 59, and the expenses $954,253 35—leaving net earnings $61,116 24. To which add surplus from 1872—making a total of $186,628 40; from which dividends amounting to $185,000 have been paid—leaving a surplus of $1,628 40.

The company have 201 cars and 1,269 horses. The cars and other vehicles of the company have run during the year ending Nov. 30, 1873, 452,562 round trips, a total distance of 2,600,623 miles, and have carried in all 18,973,456 passengers; being an average of 7,125 miles run and 51,982 passengers carried for each day in the year.

The assets and liabilities of the company are as follows:

ASSETS.

Road		$1,108,015 86
Real estate and buildings		808,190 18
201 cars		189,956 94
1,269 horses		165,819 69
Sleighs and coaches		59,323 35
General equipment		58,106 50
Railroad iron		22,928 85
Hay, straw and grain		12,837 41
Notes receivable		7,520 76
Amount paid on contract for Bartlett street car-house and stable		35,000 00
Sundry accounts		63,254 85
Cash		9,529 93
Tremont street land account		71,078 14
		$2,601,562 46

LIABILITIES.

Capital stock	$1,500,000 00	
Notes payable	604,020 27	
Mortgage notes on Guild Estate, due in 1877	257,137 87	
Sundry accounts	51,875 84	
Outstanding tickets	18,676 10	
		2,431,710 08
Excess over liabilities		$169,852 38

Prince Edward Island Railway.

One-third of the entire length of this line, viz., from Charlottetown to Summerside, is now in running order, this section being fifty miles in length. It will be remembered that this is a 3 ft. 6 in. road; runs from Tignish on the northeast to Souris on the south-east, the main trunk extending from Georgetown to Alberton. The entire length of the road when completed will be nearly 200 miles. We believe the road is being constructed at a very moderate cost, and must, therefore, prove a most excellent investment for the inhabitants of Prince Edward Island.

☞ The amount of interest in arrears on the State debt of Virginia and due on the first of January and the first of July, 1874, is, according to the report of the second auditor of the State, about $2,242,083 98.

☞ The total valuation of the State of Rhode Island, as reported by the Board of State Valuation, is: real estate, $243,658,190; personal, $84,872,369—total, $328,530,559.

Finances of New Jersey.

The Governor of new Jersey in his annual Message gives the following statement of receipts and disbursements on account of the various funds, for the year ending October 31, 1873:

	Receipts.	Disbursements.
Agricultural College Fund	$6,960 00	$6,960 00
Library Fund	3,550 00	279 62
War fund	864,778 00	863,028 62
School Fund (including State School tax)	1,340,912 25	1,337,303 08
State Fund	1,218,134 84	1,154,669 48
Total	$2,934,335 09	$2 862,740 80

It will be seen that the receipts exceeded the disbursements $71,504,29. This excess of receipts over expenditures added to the amount in hand at the commencement of the fiscal year, left the balance in bank to the credit of all the funds, on the 31st of October, 1873, $178,043 54.

The ordinary receipts and expenses of the Government did not vary much in amount from those of the last preceding year. The disbursements were largely increased by payments out of the State fund on special appropriations. The payments of this character amounted to about $470,000, of which sum $383,000 went towards the erection of the new Lunatic Asylum, and $57,000 to reimburse the commissioners having in charge the S ate House extension for money which had been advanced by them in former years.

To provide for such unusual drain upon the Treasury the ordinary revenue was inadequate, and the financial officers of the State were, therefore, obliged to avail themselves of the law authorizing them to dispose of any securities held by the State Fund, whenever expedient or necessary to do so, to prevent embarrassment to the Treasury. $159,000 were thus raised by the transfer of railroad stock, which will be redeemed during the next month. The treasurer will also be obliged to make a temporary loan of $50,000.

The probable disbursements of the present fiscal year are estimated at about $1,250,000. The income is estimated at $1,500,000, leaving a surplus of over $250,000.

The debt of the State, all of which was contracted during the late war, principally for the support of families of volunteers, is now about $2,600,000, represented by war bonds, of which about $100,000 will fall due annually. These bonds, as they mature, together with interest on the whole amount unpaid, will be extinguished by a part of the money derived from the yearly taxes, together with the income of the sinking fund. No additional tax need be raised for this purpose. There are now in the sinking fund securities worth over $1,300,000. If to these the securities in the State fund be added, it will be seen that the debt might at once be reduced to a small amount should the holders of the bonds that have not matured consent to accept payment and surrender them.

☞ E. P. Jones has been elected President, C. P. Duff Secretary, and W. H. Hagan Superintendent of the Central Passenger Railway of Pittsburg Pa. The earnings of the road to December 31, 1873 (10 months and 19 days) were $24,038 94, and the expenses $17,843 42—an excess of receipts of $6,190 .

Boston, Barre and Gardner Railroad.

From the report of the directors of this company it appears that the total income for the year ending September 30, 1873 was $95,796 70; total expenses, $80,535 37. The increase in earnings for the year was $20,807 09, and the increase in expenses, $10 844 85. The road was opened from Worcester to Gardner Sept. 4, 1871. It is hoped that during the present year the road, which now terminates a mile from its intended termination in Worcester, may by an amicable arrangement with the Worcester and Nashua Railroad be carried to completion in that direction. Contracts for the extension of the road from Gardner to Winchendon were made over a year ago, the road to be completed and connection made with the Monadnock Railroad Jan. 1, 1875. The contractor, however, was allowed to give up his contract, and the company has done what it could to complete the extension, carrying it to within less than a mile of its destination and completing the connection at present by the use of the Cheshire Railroad. The total assessments made and paid on the stock subscriptions thus far are $838,800. The cost of the road and equipment has been $1,182,550. The indebtedness is $307,360. Bonds to the amount of $400,000 have been issued, of which only $55 000 have been sold.

Providence, Warren and Bristol Railroad.

The stockholders of this road held their annual meeting at Providence, R. I., on the 26th inst. The report of the directors shows that large expenditures have been made under the new management to place the road in a safe condition, an expenditure of $20,182 51 having been made for new iron. The equipment of the road has been increased by one new locomotive, two new passenger cars and six new freight cars. During the year there has been a falling off in the number of through passengers, and an increase in the number of passengers carried short distances. The report of the Treasurer gives the total income of the road at $113,504 76, and the total expenses at $104,421 76. The following gentlemen were elected directors for the ensuing year: John H. Clifford, New Bedford; Samuel W. Church, Bristol; Thomas G. Turner, Warren; T. P. I. Goddard, Providence; William R. Robeson, Boston; Henry A. Whitney, Boston: William Gooddard, Warwick.

☞ The new London Northern Railroad Company are making improvements to the extent of $300,000 at East New London, on which the lessees of the road, Gov. Smith and Mr. B. P. Cheney of the Central Vermont, will pay ten per cent. The improvements include a round house for 20 engines, now in process of construction, a machine shop, and a dock 1,125 feet long.

☞ The estimated earnings of the Erie Railway company for the week ending January 15, are $401,769; and since January 1, $702,735—an increase over the corresponding period of the previous year of $64,048.

☞ The Portland Company (Portland, Me.) have declared a semi-annual dividend of 5 per cent, payable Feb. 1. The company is understood to be in a very prosperous condition.

☞ The Summit Branch Railroad will pay a dividend of 8 per cent Feb. 16.

Debt of Boston.

The board of commissioners on the sinking funds for the redemption of the debt of the city of Boston have presented their sixth semi annual report, for the six months ending December 31, 1873, from which we learn that the gross funded debt at that date was $35,486,395 71, against $30,543,616 80 on the 30th of June—an increase of $4,942,778 91. The total amount of redemption funds on the 31st of December was $13,213,494 17; on the 30th of June the amount was $12,710,304 18—an increase of $503,189 99. The net debt December 31, 1873, was $22,272,901 54, against $17,833,312 62 on the 30th of June—an increase of $4,439,588 92. The amount of debt redeemed at maturity and cancelled with revenue bonds, during the six months was $210,397 74.

☞ The Eastern (Mass.) Railroad, connecting Boston and Portland, is about to add to some of its first-class engines a feed water heater, by which a great saving is made in the amount of coal consumed. The apparatus consists of a coil of pipe placed inside the smoke-stack, and connected with the pipe which supplies the boiler. The cold water from the tender passes through this pipe, and is heated by the exhaust steam and the heat spent from the flues. It has been in operation on the Boston and Maine locomotives for some time, and makes a saving of one thousand three hundred pounds of coal daily.

☞ Manager Brydges of the Grand Trunk Railroad announces that the gauge of that road between Portland and Montreal will be changed by September 1. The whole line will then be uniform with the other railroads and through trains can be run between the West and Portland and Boston, via the Grand Trunk, and no breakage in bulk be made in freight.

☞ The Cheshire (N. H.) *Republican* says that the long talked of project of a railroad connecting Keene with Hillsboro' by way of the 'Branch' Valley of the Ashuelot River is being revived, and that there is now considerable local enthusiasm being manifested along the route in regard to the same.

☞ The gross receipts of the Portland and Ogdensburg Railroad for twelve months ending November 30, 1873, were $144,982 26: expenditures, $95,907 28; leaving income account, $49,074 98. The amount charged to construction and equipment account for the year was $391,946.63.

☞ The new railroad from Grafton Station, on the Boston and Albany road, to Milford, is in process of construction. Several miles of the road have been graded, and the rails are being laid. It is expected the road will be completed the coming season.

☞ The annual report of Lloyd Tilghman, president of the Queen Anne's and Kent Railroad Company, shows the earnings of the road for the past year to have been $24,276 01, and the total cost of operating the road $20 437 64.

☞ The Philadelphia *Ledger* says that a mass convention of the members of all the associations of iron and steel manufacturers in the United States, will be held in that city on the 5th of February next.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, January 31, 1874.

Stock Exchange and Money Market.

The offerings of Money have been gaining on the demand for accommodation, from all sources, and rates have been working more and more in favor of responsible borrowers, whose wants have been less urgent, and, as a rule, very promptly met, within the range of 3@6, mainly at 4@5 per cent on call, and 6@9, mostly at 6@7 per cent per annum, in the best discount form. The last weekly bank exhibit was a very strong one, showing that the banks held 27⅝ millions more than the 25 per cent of legal tender reserve, as to liabilities, required by the National banking law. The corresponding week of last year they so held 5¼ millions and in 1872 9¼ millions. The deposits of the City banks show nearly 1½ millions; the item of legal tender notes, nearly 2½ millions; and the specie reserve nearly half a million. The banks enlarged their loan and discount average, ⅞ths of a million; and again contracted their circulation slightly. The U. S. Sub Treasury reports an addition of about 1⅜ millions to its currency reserve, and about ¼ million of Gold, as the result of the week's business. The City banks increased their average of gold last week to $34,729,100 as against $34,310,000 the preceding week; and their greenback average to $57,883,300, as against $55,418,500, on the previous return. Their deposits stood at 232⅝ millions, giving an increase of $1,450,700. The loan item was 269⅝ millions, against 268½ millions on the former exhibit. The circulation was under 27⅛ millions.

The U. S. Sub-Treasury, last week, enlarged its currency balance $1,316,680, and reduced its coin reserve $209,813. Its currency balance at the close of the week was $31,460,872; and its coin reserve $52,226,902.

The cash balances in the Treasury Department, at Washington, on Wednesday were as follows: Currency, $2,652,363; special deposits of legal tenders for redemption of certificates of deposit, $44,845,000; coin, $86,586,398; including coin certificates outstanding, $45,459,100; outstanding legal tenders, $381,910,787.

While Gold has been maintained on a comparatively firm basis as to price, the dealings have been on a restricted scale, and the market has been devoid of features of special interest. Speculation has been less confident. The customs call has been increasing. The export drain has been moderate. The extremes of the price have been 111⅛@111⅞, closing at 111⅝ as against 111⅝ on Wednesday of the preceding week. The specie outflow, last week, was $1,027,079. The imports of specie at this port last week were $20,406, and since Jan. 1, $125,753, against $86,049 same time last year.

The customs demand for Gold last week averaged $408,747 a day. The total customs revenue of the Government, in coin, at this port, since July 1, 1873, has been $63,679,395, against $77,261,167 same time in 1872-'3. Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1873, $38,169,543 against $53,637,251 same time in 1872-'3. The export drain of specie since July 1, 1873, has been $23,589,789 against $41,655,263 in 1872-'3.

Foreign Exchange has been more active, but variable as to price, closing with rather more firmness. Bankers' sixty day bills on London closed on Wednesday at $4 83½@$4 84⅛; sight bills on London, at $4 86½@$4 87⅛. The week's exports of Domestic Produce have been to the currency value of nearly 5⅛ millions.

Government securities have met with a very ready market at generally firm and buoyant prices, on restricted offerings of the leading issues.

U. S. sixes of 1881 closed on Wednesday of this week at 118⅜@118⅝; U. S. Five-Twenties of 1862, 114¾@115; U. S. Five-Twenties of 1864 at 116⅛@116¾; U. S. Five-Twenties of 1865 116¾@117⅞; U. S. Five-Twenties of 1865 consolidated 116¾@116⅞; U. S. Five-Twenties of 1867, 117⅞@118⅛; U. S. Five-Twenties of 1868, 117¾@118; U. S. Ten-forties at 114⅛@114⅜; U. S. Fives of 1881 (Funding Loan) 113@113⅛; Six per cent. currency Sixes from 115⅛@115¼.

There has been a less active business noted in Railway and Miscellaneous securities, prices of which have been unsettled, and, at the close, rather weak.

A fairly active inquiry has been noted for State and Railway bonds which have been held with increasing firmness. Central Pacific first mortgage six per cents closed at 95¾@96. Chesapeake and Ohio First Mortgage Bonds, Six per cents, 60⅛@61.

The outstanding amount of U. S. legal tender notes on Wednesday was about 382 millions, showing a slight decrease, during the week.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $4,794,247, as compared with $10,106,398 same week last year. The exports of domestic produce are $5,406,967, as against $4,856,819 last year. The exports of Gold and Silver, $1,027,078, as against $2,955,846 last year. The customs in Gold deposited during the week in the New York Office of the Treasury amounted to $2,298,200, comparing with $2,487,110 same week last January.

Messrs. Fisk & Hatch are offering for sale a limited amount of the Six per cent Land Grant First Mortgage Bonds of the Central Pacific Railroad Company at the rate of 85 and accrued interest. The Loan, which bears date Oct. 1, 1870, and has twenty years to run, is secured by a first mortgage on the entire land grants of the United States Government to the Central Pacific and the California and Oregon Railroad Companies, the latter having become the property of the Central Pacific Railroad Company by consolidation. The company will realize from these grants between eleven and twelve millions of acres, which, at a very low estimate, are valued at nearly $30,000,000, while the total amount of land grant mortgage is $10,000,000. As the lands are marketed, the proceeds of the sales will be devoted to the purchase and redemption of the land grant bonds until all the loan shall have been retired. The bonds, which are recommended as an excellent form of investment, are of the denomination of $1,000 each, with interest payable April 1 and Oct. 1, and both principal and interest payable in gold in the City of New York.

Activity in general business increases, as the season advances, and, on the whole, quite encouragingly. Breadstuffs have been in fair demand, but with more liberal supplies of the leading kinds, prices closed in favor of purchasers. Cotton and Provisions have been more freely dealt in, but at irregular figures. A moderate inquiry has been noted for Tobacco, Live Stock, and Wool at firm rates. Copper has been in fair request, including Lake, at 24½c.@25c., and Baltimore at 24@24½. Iron has been in rather slack demand as a rule, with Eglinton Pig quoted at $40@41; Glengarnock, $42@$43; Coltness, $45; Gartsherrie $47; No. 1 American Pig at $35@$36; No. 2 do. at $30@$33; Forge, $27@$31; English Rails at $55@$60, gold; American Rails at works, $62 50@$65; Old Rails, $40; Wrought Scrap, $38@50. Pig-lead has been more sought after, with foreign quoted at 6¾c.@6¾c., gold, for ordinary, and domestic at 6c.@6½c. gold; Bar, 9½c.; Sheet and Pipe, 10c. Spelter has been rather quite at 7⅜c.@7⅝c., gold, for foreign, and 8c.@11c. for domestic. Pig-tin has been in limited request, with Straits quoted at 28c.@28¼c., gold; English at 26c.@26¼c., and Banca at 32c.@32½c., gold. There has been a moderate movement noted for Tin Plates, with Charcoal Plates quoted at $10 50@$10 75; Charcoal Terne, $9 25@$10; Coke $8 25@9; Coke

Terne 6 75@$8 50, gold, per box. Naval Stores and Petroleum has been more inquired for and quoted firmer. Ocean freights, have been more active, but at variable rates.

At the auction sale of Scranton Coal on Wednesday 50,000 tons were sold at a slight advance on some kinds, the range having been from $4 35 @$5 27½, as against $4 20 to $5 87½ in December.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending January 17, at 158,991 tons, and for the coal year 994,933 tons, against 1,085,840 tons to corresponding time last year, being a decrease of 140,917 tons. The bituminous tonnage for the week is 34,234 tons, and for the year 77,259 tons, giving a total of all kinds for the week of 193,255 tons, and for the year of 1,022,192 tons, against 1,160,056 tons to same time last year, being a decrease of 137,864 tons.

☞ The Bureau of Statistics reports that the exports of wheat from the United States to Great Britain, from 1860 to 1878 inclusive, were 274,657,182 bushels. Exports of the same article from Russia to Great Britain during the same period were 238,343,547 bushels.

☞ The Boston *Advertiser* says that Alexander Wallace, a Danbury (Conn.) contractor, has just taken a $250,000 contract on the New York and Canada Railroad. The work he has to do will occupy the better part of two years.

☞ The estimated cost of the branch railroad from Stillwater, on the Providence and Springfield Railroad, to Greenville, is $70,000, and of this amount $22,000 has been pledged by private subscription.

☞ The Ohio Falls Car Company at Jeffersonville, Ind., which suffered by the late panic, has perfected satisfactory arrangements with their creditors and will resume work.

☞ Hon. Odin Bowie has been elected President and General Manager of the Baltimore City Passenger Railway Company, Vice Mr. Enoch Pratt resigned.

BANKING HOUSE OF FISK & HATCH.

NEW YORK, Jan. 27, 1874.

The CENTRAL PACIFIC RAILROAD COMPANY own and operate over 1,200 miles of first class, finished railroad, which is earning over operating expenses the interest on their entire bonded debt and semi-annual dividends of three per cent., gold, on their paid-up capital stock of $54,000,000, with a considerable surplus over, and the earnings are constantly increasing from year to year.

The gross and net earnings of the road, the interest on bonded debt, and surplus for the last three years, have been as follows, viz:

	Gross Earnings.	Net over operating expenses.	Interest payments.	Surplus after paying interest.
1871.	$9,467,072	$5,171,192	$2,884,414	$2,286,778
1872.	12,734,729	7,207,284	3,554,299	3,652,985
1873.	13,871,089	8,281,649	3,514,357	4,767,292

We have for sale a limited amount of the Land Grant Mortgage Bonds of the Company at 85 and accrued interest.

These bonds were issued Oct. 1, 1870, and have twenty years to run from that date.

They are secured by a first mortgage on the land grants of the United States Government to the Central Pacific and California and Oregon Railroad Companies, the latter having become the property of the Central Pacific Railroad Company by consolidation.

The company will realize from these grants between eleven and twelve millions of acres, which, at a low estimate, are valued at nearly $30,000,000.

The total amount of the Land Grant Bonds is $10,000,600, of which the unsold balance is less than $1,000,000.

The bonds are $1,000 each; interest payable April 1 and Oct. 1; principal and interest payable in gold in the City of New York.

The proceeds of sales of lands will be devoted to the purchase and redemption of the Land Grant Bonds until all are retired.

We buy and sell Government Bonds and Gold at current market rates; buy Gold Coupons; receive Deposits, and allow interest at the rate of four per cent; make collections; buy and sell Stocks and Bonds at the Stock Exchange on commission for cash, and transact a general banking and financial business.

FISK & HATCH.

☞ The annual meeting of the stockholders of the Pennsylvania Railroad Company will be held on the 10th of March. The election for officers will take place on the 23d of the same month.

☞ R. E. Robbins has been re-elected President, and Thomas Kirke Clerk and Treasurer of the Newton and Waltham Street Railway Company.

☞ The Central Mining Company of Lake Superior has declared an annual dividend of $8 per share ($160,000) payable Feb. 9 in New York.

☞ The Quincy Mining Company has declared a dividend of eight dollars per share, payable Feb. 20.

☞ The Portsmouth and Dover Railroad will be opened for business about the 1st of February.

OFFICE OF THE ILLINOIS CENTRAL R. R. Co., NEW YORK, December 20, 1873.

A DIVIDEND OF FOUR PER CENT. HAS BEEN declared by this Company, payable on the 2d day of February next, to the holders of full-paid shares, registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH,
Assistant Treasurer.

The American Wood Carbolizing Co.

Is organized for the purpose of Creosoting Timber for Docks, R. R. Ties, Fence-Posts, Pavements, and all other uses where Timber is exposed to the action of water or air. This Company also proposes to License R. R. Companies and others who desire to erect their own apparatus.

Drawings and specifications of apparatus, either stationary or portable, will be furnished on application.

67,112 miles of Railroad in the United States use annually over twenty-six million Ties for renewing those destroyed by decay.

The preservation of wood from decay and the attacks of marine worms, has been largely practiced in Europe for thirty years; and with such success that the use of natural wood is now the exception; and of all the various methods that have been employed, that in which creosote oil was used, has best endured the test of time.

This Company, benefiting by the thirty years' practical experience in the use of creosote oil abroad, offer to the public a system of application which is adapted to the wants of our own country, in that green wood can be rapidly and thoroughly treated, even better than dry, and the application of the oil, in connection with the use of moderate heat, be made more uniform and effective than is possible by any other means.

Experience has demonstrated that creosote or dead oil is the only substance by which wood can be treated so as to certainly resist the attacks of marine worms.

Creosoted wood exposed in Charleston Harbor was not attacked by the teredo, while natural wood attached to it was completely honey-combed.

It is confidently asserted that Railroad Ties creosoted will outlast three sets of ordinary Ties, and that creosoted Paving Blocks being beyond the reach of decay, will last as long as stone, with all the advantages of an elastic roadway, beauty and economy of construction.

The economy in the use of creosoted wood, where the term of service is trebled, is measured by adding to the wood used, the cost of the labor expended in construction, and the loss of time spent in replacing the structure, when either decay or attacks of marine worms destroy it.

The system of Seely and Pelton, employed by this Company, has been fully examined and indorsed by Gen. McClellan, Gen. Barnes, Gen. Babcock, Rob't Harris, C. B. & Q. R. R., Prof. Silliman, Capt. Eads, Gen. Cram, Gen Humphreys, Gen. Meigs, Gen. Belknap, Prof. Chandler, Gen. Gilmore, Gen. Newton, A. B. Mullet, C. H. Haswell.

It has been used by the U. S. Government upon the Dykes of the St. Clair Flats, and upon Gun Platforms for the fortifications on the Atlantic coast; upon pavements in New York and Pittsburgh, by the Department of Docks of the City of New York and the Board of Public Works of the District of Columbia.

Detailed information can be obtained and specimens of creosoted wood examined at the office of the Company.

New York, Saturday, February 7, 1874.

Railroad Movements in 1874.—The Trunk Lines.

One of the first effects of the financial break down of last year was to stop railroad construction, especially of new lines; and, as was shown in our last number, there will be far less railroad building in 1874 than in 1873. The new lines were, for the most part, competing lines, or branch tributaries of existing roads. So far as the former class are concerned their interruption will tend only to strengthen and promote the older roads; and so far as the branches are concerned, their stoppage is not of vital consequence. The business of the completed roads will be larger, their profits larger, and inasmuch as the money markets are swept clear of a multitude of small borrowers, their facilities for obtaining money will be, for some years, better than before.

We look, therefore, for an early impetus to be given to the construction of such roads as are under the protection of the great trunk roads. As examples we may mention that the Pennsylvania Company is constructing a new low-grade freight line between Pittsburg and Harrisburg, following the valleys of the Allegheny and Susquehanna, whereon the maximum grades are said to be 28 feet per mile. The same company (now absolved from any compact of not entering the territory of its great rival) is pushing a line through West Virginia, from a point west of Pittsburg, to Wheeling, and will probably extend it to Charleston on the Kanawha. At the eastern end the company will no doubt complete its third track between Jersey City and New Brunswick for the accommodation of freights on its over-crowded rails on that portion. The Baltimore and Ohio Company, fresh with the inspiration of a new loan in the London market, negotiated before the panic, is pushing out its independent feeder between the Sandusky and Newark line and the city of Chicago.

At the eastern end are important symptoms. The Philadelphia, Wilmington and Baltimore Company, having preserved its independence in spite of the tremendous pressure of its two great antagonist neighbors, is interested with the Baltimore and Ohio in procuring a choice of routes to New York. We are not surprised to hear, therefore, that the first steps have been taken to complete the missing link in the chain, the route being over the Central of New Jersey to Flemington for the present, (the ultimate point of departure for a short through line will be to leave the latter road two miles west of Elizabeth) thence to the Delaware river by a new piece of road, partly graded, and thence to Philadelphia by the North Pennsylvania. Such a line will be of about the same length as the old road, with grades quite as low, and capable of making the trip in less time. The great advantage of this combination is in the magnificent water front and access which its eastern terminus will have near this city. Further south the Baltimore and Ohio (like the Pennsylvania) is carrying a line up the Shenandoah Valley to an intersection with the Chesapeake and Ohio at Staunton.

The Chesapeake and Ohio Company, although somewhat crippled last year, has since been completed between the salt water wharves below Richmond and Huntington on the Ohio River, and is now carrying a fair amount of through merchandize from one navigation to the other. The Louisville connection of 87 miles *via* Lexington will doubtless be made at an early day, as it connects two finished roads, having ample equipment and constituting an important through line between the seaboard and the Mississippi. The extension to deep water near the entrance of the Chesapeake Bay, can be built in six months and at a cost of $1,500,000, whenever the western connections and the European lines of steamers are ready for it.

The Erie Company will probably be content to acquire, if possible, the control of the Cleveland, Columbus, Chicago and Indianapolis system of roads as their own western connection; to assist the Canada Southern, and to straighten and relay portions of their main line, without venturing into new lines. A new mortgage of $30,000,000 is talked of in London, with the net avails ($10,000,000) of which they may alter the gauge of the line from New York to Buffalo. This movement would draw with it a similar change on the part of the Atlantic and Great Western.

The New York Central in like manner will probably be content to add to such portions of its route as readily admit of it, a third or even fourth track for freight traffic. The load its managers have had to carry for similar purposes on behalf of the Lake Shore Road, will probably prevent any bold or aggressive campaign in taking in new territory. The Boston and Albany and Troy and Greenfield will come into the use of the Hoosac tunnel, doubtless by midsummer. The long talked of Portland and Ogdensburg line, is still lacking some of its mountain links. When completed, it will be a sharp competitor with the Canada Grand Trunk.

On the whole, therefore, we may expect a revival of the more solid and healthy enterprises in railroad construction; a consequent demand for iron and steel, and corresponding improvement in our coal and iron industries.

☞ The surveys for the extension of the Piscataquis branch of the European and North American Railroad have been completed. The river route has been selected. The heaviest grade will be 75 feet. The road will run to within a quarter of a mile of Abbot village, thence following the river to about one-half mile from Blanchard village, thence through Shirley to the West Cove in Greenville. A branch to Monson will afford facilities for the trans-shipment of immense freights from the State granaries. It is expected to extend the

road to the lake. This would open a through line by Lake Megantic to Montreal and the West.

Philadelphia, Wilmington and Baltimore Railroad.

The earnings of this road for the years ending October 31, 1872 and 1873, were as follows:

	1872.	1873.
From passengers	$1,608,214 74	$1,728,957 71
" freight and exp.	1,088,676 36	1,225,801 15

		$593,052 24
Deduct for amount taken to Renewal Fund		75,000 00
Leaving balance to credit of revenue October 31, 1873		$518,052 24

The gross receipts as compared with those of 1872, show an increase of 8.98 per cent, while the expenses were in excess of those of 1872 by 20.85 per cent.

The receipts of the last nine years were in the aggregate $25,480,011, while the operating expenses, including taxes, but excluding interest, were $16,316,745, or 64.04 per cent of the receipts.

The receipts of the last year were $3,159,120 72, while the operating expenses, including taxes but excluding interest, were $2,042,269 90, or 64.64 per cent of the receipts.

Our last Annual Report showed that extraordinary repairs and expenses were foreseen for 1873, and that a Renewal Fund of $150,000 was set aside from the net earnings of 1872 to meet them; but in view of the necessity of gradually replacing the wooden bridge over the Susquehanna by an iron structure, a portion of which work is now being done, it was thought best to let the expense account of 1873 bear the unusual expense of the year; and also to add $75,000 of the net earnings of 1873 to the Renewal Fund, which now amounts to $225,000.

During the past year your road and leased roads sustained serious injuries by freshets. The double arched stone bridge over the Christiana was destroyed, although deemed a very substantial structure, which was coeval with the construction of your road. It has been replaced by an iron bridge of most approved construction; but only a portion of the cost thereof was paid in the year ending 31st October, 1873. The breaking of a reservoir of the Chesapeake and Delaware Canal, swept away about one-half of the Delaware Railroad bridge over the Canal, together with one abutment and an embankment of 300 feet long and 30 feet high. The same freshet destroyed thirteen culverts upon the same road; the cost of repairs falls entirely upon this company as lessee. A portion of the work was done in 1873, and the cost thereof (viz; $28,078 90) was charged to expenses of 1873. By these accidents the traffic of the Delaware Railroad was closed for eight working days, and as the break occurred in the height of the peach season, not only did the revenue of the Delaware Railroad suffer, but there was a heavy loss of income upon the P., W. & B. and N. C. and Frenchtown Railroads.

All claims for damages growing out of the accident near Edge Moor, in November, 1872, have been settled, without resort to the courts, excepting three of minor importance, where the claims put forward are so unreasonable, in view of the facts, that the company has decided to abide the decision of the courts rather than to settle with the claimants.

The amount charged to expenses of the fiscal year 1873, in payment of these damages, was $56,604 29, and one claim was settled in December, 1873. This company has uniformly preferred to settle claims which are not preposterous in the extreme, rather than to contest them.

The mileage performed by your locomotives in 1873 was 19 per cent in excess of that of 1872, and 35 per cent in excess of that of 1871. Much of this was due to the competition between the Pennsylvania Railroad Company and the Baltimore and Ohio Railroad Company: and to this company's policy of accommodating those companies and the public, even at a present sacrifice.

During the year the sum of $165,616 28 was expended for new and additional locomotives, cars and station buildings, and charged to repairs.

The renewals of rails have been made altogether with steel, upwards of twenty miles of track have been thus relaid in steel in 1873, although a portion of this material was charged to expenses of 1872. We have now 110 miles of track in steel. It is the practice of this company to charge all such outlay to operating expenses, to fully offset any possible depreciation in the company's property generally.

The new road from Gray's Ferry to the vicinity of Chester, about 10 miles in length, rendered unnecessary the maintenance of the old line between those points; and the latter was leased to the Philadelphia and Reading R. R. Co. in July last, on a satisfactory basis, for a long term.

Your directors egret to say that this company, notwithstanding our persistent attempts to obtain reasonable compensation for mail service, have to this date utterly failed so to do so. This company was not paid so much in 1873, for mail service on main line, as in 1858, viz; $37,500 in 1873, and $38,250 in 1850. Then, we carried the mail in baggage cars, twice per day, at low speed; now, we carry the mails in expensive Postal cars, as travelling post offices, six times per day, at high speed, besides being required to carry free, numerous agents and friends of the Post Office Department, whose fares, if paid, would amount to over $17,000 per annum. In 1850 we were paid in funds equivalent to gold, and wages were low. Now, we are paid in depreciated currency, and wages are high.

Toward the close of the session of Congress in the spring of 1873, pending the consideration of an amendment of the Postal Acts, several railroad companies who are forced to apply the money of their stockholders to the transportation of mails, to an extent far in excess of their mail pay, notified the Post Office Department, that unless payment could be made for the use of postal cars (first introduced in 1864 on this company's road, and since that date placed upon many of the principal railroads) they should withdraw them on 1st May, 1873, and carry the mails as they were formerly carried, i. e., in bulk in baggage cars. Our letter giving this notice was read in the Senate, and a Senate Committee was charged with the investigation of the subject of mail service on railroads. Pending this investigation, the railroad companies deemed it respectful to the Senate, to suspend our proposed action, and to continue to give our service and bear our losses. That committee gave the companies four days hearing in April last, and we are encouraged to expect their report this month. Our testimony showed that this company was paid at the rate of thirteen cents only per 30 foot per mile, for expensive postal cars, lighted and warmed at our cost, and carrying a large number of post office servants, while on the same train, the express companies pay us sixty cents per car per mile for 30 feet freight cars. The companies claim for mail transportation only two-thirds of what the public pay for commensurate service: and inasmuch as two-thirds of railroad receipts are generally consumed in expenses, this claim is tantamount to our waiving all profit from mail transportation.

With singular inconsistency, our Republican form of Government, considered, the railroad companies have no voice in fixing the rates for mail service, but Congress alone dictates them.

In England, since 1837, the rates paid railway companies for mail service, are the subject of negotiation between the parties interested, and the Act of Parliament (2d Victoria, 1838) provides a commission, mutually chosen, to settle cases of dispute as to rates.

It is confidently hoped that Congress will either adopt the English method of establishing reasonable rates of pay for mail service, or will permit the Post Office Department to pay us at least two-thirds as much as the public will pay us for the use of the cars now employed in the mail service.

Your directors, from personal observation, are enabled to report that all depreciation of any portion of the property of the company has been compensated by the general improvement of other portions, and that the whole property is in a sound and wholesome condition.

The earnings of the New Castle and Frenchtown Railroad were:

	1872.	1873.
Passengers	$25,000 00	$28,686 51
Freight	59,753 32	54,970 16
Mail	881 24	881 24
	85,634 60	$84,237 91

The company have 70 locomotives. The number of miles run by engines over the Philadelphia, Wilmington and Baltimore Railroad, including service on Port Deposit Branch was 1,437,207

Miles run on Delaware Division, between Wilmington and Delmar, 340,966.

The car equipment consists of 16 twelve-wheel passenger, 2 twelve-wheel chair, 1 twelve-wheel baggage car, 1 twelve-wheel postal car; and 4 twelve-wheel smoking and baggage cars; 79 eight-wheel passenger, 18 baggage, 4 chair 10 smoking and baggage, 7 baggage and mail, 13 express, 1 postal, 3 milk, 1 pay, 621 house, 77 stock, 318 platform, 98 dump, 81 truck, 50 lime, and 12 tool, construction, etc., cars.

President.—ISAAC HINCKLEY.

Vice President.—ENOCH PRATT.

Directors.—Isaac Hinckley, Samuel M. Felton, William Sellers, Samuel Welsh, Jesse Lane, Joseph Bringhurst, Samuel Harlan, Jr., Thomas Kelso, Enoch Pratt, Thomas Donaldson, Thomas Whitridge, Samuel M. Shoemaker, Jacob Tome, Nathaniel Thayer, William Minot.

Secretary and Treasurer.—ALFRED HORNER.

Philadelphia and Reading Railroad.

The following information in reference to this road is in addition to that given in the annual Report of the President, published in our issue of the 24th ult:

The extension of the Reading machine shop cost $3,247, and the work, so far on the depot, is estimated at $103,808.

During the year 750 eight-wheeled coal cars were built; 9 express cars, 195 house cars, 412 gondolas, 50 lime cars, 50 four-wheeled cars and 16 new first-class passenger cars, 1,489 in all, at a cost of $1,017,591.

For the same period 14 new freight engines were built, 4 new passenger engines, 2 new wharf engines and 2 snow ploughs at a cost of $324,464.

Also 8 steam colliers and 5 coal barges for Susquehanna canal, and 49 for Schuylkill canal.

The Superintendent says: "The number of locomotives now owned by the company—400 in all—makes it necessary that some additional shop facilities be provided for their renewal and repair."

The mining account shows that $1,302,424 were paid to engineers, conductors, firemen and brakemen last year for wages; 9,409 cords of wood were burned, and 187,435 gallons of oil were used. The tallow, lard, grease and cotton waste cost $66,157, and the locomotives and engines burned 266,794 tons of coal. The magnetic telegraph cost $51,863.

The wages paid machinists, blacksmiths, carpenters, mechanics and shop hands, were $897,999. Paid to depot hands, $191,708; salaries of all officers, clerks and agents under control of Superintendent, $319,517; office account, printing, etc., $98,780.

At present the company own 344 first-class engines, 48 second class do., 2 third do., do., and 6 fourth do. do.; total, 400. They have 3 eight wheeled iron coal cars, 7,762 eight wheeled wooden cars, 1,993 four wheeled iron coal cars, and 5,434 four wheeled wooden coal cars, 15,192 coal cars in all.

In freight cars they have 1 sixteen wheeled platform gun car, 1,103 eight wheel house cars, 114 cattle cars, 2,047 gondolas, 221 lime cars, 40 four wheel house cars, 26 do. gondolas, 21 do. sand cars, and 253 do. lime cars, 3,826 in all.

Passenger cars they own 220, 44 baggage, 15 mail and baggage, 1 four wheel passenger car for small express engines, 280 in all.

In addition to the above there are 102 mixed open cars, 104 cabooses, 59 stationary engines, 18 snow plows, 34 carts, 44 express wagons, 208 horses and mules, 64 express horses, 41 extra tenders for locomotives, 3 dirt scows, and 1 sweeping car for snow.

In the roadway department there are 10 eight wheel wreck cars, 90 platform cars, 97 four wheel platform cars, 22 crane cars, and 308 dumping cars, total 527. Making a grand total of 31,694 four wheel cars.

As the engines stood at last report, 348 were in daily use, 26 in the shops, 16 ready for use, and 10 out of service.

To take a loaded coal train of 623 tons from the mines down to Philadelphia, and bring back the empty cars, the cost is as follows:

$6.62 for engineer, $4.70 for fireman, $4.72 for conductor, $12.38 for brakemen and signalmen, $29.16 coal for engine (9 tons), $1.79, oil, &c., $8.14 grease for cars, $93 repairs on engine, tender and cars; supplying water, kindling wood, assistant engineers, car couplers, time keeper, &c., making in all $166.64.

A daily round trip of 98 miles for a passenger train costs about $41.26, equal to about 76 cents per through passenger, at 54 passengers per train.

A daily trip of 93 miles for a freight train conveying through loads of 208 tons of merchandise costs about $55.14, equal to $26.48 per ton, or 60.7 cents per ton carried through.

The Chief Engineer, in his report, says that 8,874 tons of steel rails have been laid in all. At one of the most trying places in Reading, 41 tons of steel rails were laid in 1867, and did excellent service for 6 years to date. An iron rail never lasted more than four months at that place.

Of the Port Clinton tunnel the report says: The great expense of widening it and the necessity of re-arching it the whole length, made it advisable to locate a new line. The tunnel will remain its present width, single track. Work is now under progress, masonry of the bridges finished, and the new line will be open for trade early in the autumn.

The new depot can be occupied during the early part of the present year; and it is believed will give all required facilities.

Pittsburg, Virginia and Charleston Railroad.

At the annual meeting of the stockholders of this company, held in Pittsburg on the 13th ult., the following gentlemen were elected directors: John Scott, B. F. Jones, Geo. V. Lawrence, Moses Thompson, Joseph Walton, Wm. J. Howard, Henry B. Hays, J. C. Risher, and Alex. Patton. John Scott was elected President, and B. F. Jones vice President. The report of D. P. Corwin, Secretary and Treasurer, shows the total receipts for the year 1873 to have been: from passengers, $36,702 33; from freight, $16,543 94; from rents, $5,895 68; and from miscellaneous $7,995 16—a total of $67,137 11. The operating expenses during the same time were: for conducting transportation, $11,008 75; maintenance of way, $17,825 09; motive power, $12,142 09; and maintenance of cars, $1,082 22—a total of $41,558 15; showing a gain of $25,578 96. The number of passengers carried during the year was 140,788; tons of freight, 56,328. The rolling stock of the road consists of two first class passenger engines, two shifting engines, three first class and three second-class passenger cars; three baggage, five box, fifty gondola, five construction and seven hand cars. The report describes in detail the condition of the road, which is excellent.

Perry's Railway Station Indicator.

This simple, but effective device, is one which has been long needed, and whenever it shall be adopted, it will be greatly for the convenience of passengers, and for the advantage of the road. The passenger will not be obliged to hesitate, perhaps not hearing the name of the station distinctly, but knowing sometime before hand, will be ready to leave the cars the moment the train stops. This will, without doubt, cause a great saving of time, especially to accommodation trains. The INDICATOR is operated by either the conductor or brakeman, and can be changed in a moment, bringing the name of any desired station to view, and, at the same time, a bell strikes, calling the attention of the passengers to the change. This indicator is manufactured by V. D. PERRY & SON, Hartford, Conn.

☞ The bids for the new seven per cent twenty-year bonds of the Boston and Maine Railroad Company, for which sealed proposals were advertised about the first of the month, were opened Saturday, and all were found to be above par. The total amount of the bonds subscribed for was about $500,000, or about $200,000 in excess of what the proposals called for. These bonds, dated January 1, 1874, with interest payable July 1 and January 1, each year, will be issued in denominations of $1,000 or $500 each, and can be registered or coupon, as the purchaser may desire. It is understood that the award was mostly made at about 101@101½.

New Snow Scraper.

The Citizens Passenger Railway Company of Baltimore have in use a new and ingenious scraper for the purpose of keeping the tracks clear of snow. It is the invention of Mr. Hagerty, of the firm of Keen & Hagerty, of that city, and is said to have done its work very effectually during the recent storm. The following is an accurate description of the scraper: A bar of cast iron is fixed to the car immediately over the front wheels; to this is attached an arm screwed to a steel scraper. This scraper is carried in the car and can be affixed to the arm in a moment. The scraper works upon a hinge so as to allow the car to back. The scraper cleans the rails immediately in front of the wheels, and weighs only seventeen pounds. It avoids all salting, and in this way preserves the horses' feet from the suffering inflicted by using salt on the track.

Sioux City and Pacific bonds, 1862-64	1,628,320 00	8,141 60
Totals	$64,623,512 00	$323,117 56

Interest paid by United States, $22,886,691 26; interest repaid by transportation of mails, &c., $4,800,055 21; balance of interest paid by United States, $17,856,636 41.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, January 31, 1874.

WILLIAM A. RICHARDSON,
Secretary of the Treasury.

Railroads of the State of Maine.

The Railroad Commissioners of this State, Messrs. S. H. Blake, A. W. Wildes and John F. Anderson, in their Annual Report to the Legislature for 1873, say that the railroads, after careful and repeated examinations, are found to be in very fair condition, and tolerably well managed; and then add:

The Androscoggin has 70½ miles of railroad; Atlantic and St. Lawrence, 82 miles; Bangor and Piscataquis, 48 miles; Bath Branch, 9 miles; Belfast and Moosehead Lake, 33½ miles; Boston and Maine, 44 miles; European and North American, 114 miles; Houlton Branch, 8 miles; Knox and Lincoln, 48½ miles; Maine Central, 127½ miles; Newport and Dexter, 14 miles; Portland and Kennebec, 100 miles; Portland and Ogdensburg, 51 miles; Portland and Oxford Central, 27½ miles; Portland and Rochester, 49¾ miles; Portland, Saco and Portsmouth, 52 miles; Portsmouth, Great Falls and Conway, 4½ miles; St. Croix and Penobscot, 22 miles; total, 900½ miles. No new roads have been opened for passenger travel this year, excepting the Boston and Maine extension to Portland. The Somerset road from West Waterville has been opened for freight thirteen miles to the south side of the river at Norridgewock. The Lewiston and Auburn Branch is nearly graded. The Bucksport and Bangor Railroad is well under way, and will be completed in another year. It is to connect with the European and North American Railway at Bangor. Projects for other railroads are being agitated.

BOSTON AND MAINE RAILROAD.

Since the date of the last annual report the extension of this road has been completed to Portland, 44 miles in Maine. The amount expended upon the extension up to September 30, 1873, was $3,941,822 66. Much yet remains to be done in and about the city of Portland.

The bonded debt of the Boston and Maine is $1,227,500; stock paid in, $6,921,274 52; gross earnings for year ending September 30, 1873, $2,300,093 68; net earnings for year ending September 30, 1873, $572,268 68; earnings from passengers, $1,302,190 55; earnings from freight, $850,512 44; number of passengers carried (equal to 61,760,456 for one mile), 5,008,074; number of tons of freight carried, 520,720.

There has been added to the rolling stock the past year 18 passenger and 3 parlor cars, 1 baggage and 117 freight cars, and 1 snow plow. Total, 1,400 freight, 120 passenger and 3 parlor cars and 69 locomotives.

There has been laid (including that laid on the extension) 5,000 tons of iron and 1,700 tons of steel rails. There have been six passenger depots and four freight houses built in Maine.

EUROPEAN AND NORTH AMERICAN RAILWAY.

By the lease of the Bangor and Piscataquis road the consolidated European and North American Railroad embraces 250 miles of railroad, 162 of which are in Maine. Its road and rolling stock are in good condition. Freight and travel have largely increased. When the Piscataquis road is extended to reach Canadian travel and traffic, as is said to be in early contemplation, and the Riviere du Loup when opened as far as Tobique, if no farther, already completed to Woodstock, and already making its contributions to the consolidated European and North American sensibly felt, will, more than any individual enterprises, swell the volume of business upon the main line.

The European and North American Railway Company still retains the lands donated to it by the State, being about 700,000 acres. The road claims about 260,000 acres more, which the State land agent thinks it is not entitled to under the legislative resolve of March 3, 1868.

The bonded indebtedness of the road Jan. 20, 1869, is $1,000,000 from Bangor to Winn; March 1, 1869, $2,000,000 from Bangor to Vanceboro'; $2,000,000 debentures from Vanceboro' to St. John; $822,000 from Bangor to Guilford on the Piscataquis road. The $2,000,000 of March 1, 1869, are secured by mortgage upon the lands donated by the State.

The earnings of the consolidated European and North American were in 1872 about $536,000; in 1873, $652,000; estimating a portion of December—increase $116,000.

GRAND TRUNK RAILWAY.

The road is reported in good condition, great improvements having been made during the last two or three years, and greater ones are proposed the coming summer. The gauge of the Canadian portion of the road has been changed the past season from 5 feet 6 inches to the prevailing gauge of the country 4 feet 8½ inches, and it is understood that the gauge will be changed between Montreal and Portland some time during this year.

The capital stock of the division between Island Pond and Portland is $5,000,000; funded debt, $3,484,000.

HOULTON BRANCH.

This is a branch of the New Brunswick and Canada Railroad, embracing three miles in Maine. The branch is a good piece of road, but the main road needs more gravel and ballast.

KNOX AND LINCOLN RAILROAD.

The cost of the road, including extension to tide water at Rockland, is about $2,705,502 85; bonded debt, $2,395,000; stock paid, $961,655. Liabilities are more than balanced by bills receivable and cash on hand.

CONSOLIDATED MAINE CENTRAL RAILROAD.

On the Portland and Kennebec division the road has been repaired and improved. On the Somerset and Kennebec division the track is in fair condition. Improvements and repairs have been made on the Maine Central division. Nothing has been done in the way of repairs and improvements on the Belfast and Moosehead Lake branch. This road is leased by the Maine Central. Its cost was about $850,000; bonded debt, $150,000; its liability beyond is upon stock. The Dexter and Newport branch is a pecuniary success. It is leased by the Maine Central, 6 per cent being paid on its entire cost, which was $300,000; town of Dexter bonds, $125,000; town of Corinna bonds, $50,000; stock, $125,000. That portion of the Androscoggin division between Crowley's Station and Leeds is not in so good order as the other portion of the line, and will require extensive repairs the coming season.

In consequence of the burning of the Kendall's Mills bridge, a new line has been built from Winslow (at the easterly end of Waterville bridge) to a point of junction with the line of the old Maine Central road in Benton, four miles in length. A new iron bridge is being built near Holland's Brook across the Kennebec, one and a half miles above Waterville, which is expected to be ready for the crossing of trains by the 10th of March.

The rolling stock of the road now consists of 57 locomotives, 88 passenger and baggage cars, and 1,119 freight cars.

The bonded debt is $7,674,108; stock paid in, $3,634,520; liabilities (floating debt), $983,747 12; gross earnings (estimate), $2,052,000; net earnings, after paying working expenses, $695,000.

PORTLAND AND OGDENSBURG RAILROAD.

This road is steadily and surely advancing toward completion. The receipts from passengers, freight, &c., have been $144,982 26; expense of operating (estimated), $95,907 28, say 66 15-100 per cent of earnings. Mileage—passenger trains, 78,464; freight and mixed trains, 45,698; ballast trains, 6,064; construction trains, moved by contractors, 17,510.

PORTLAND AND OXFORD RAILROAD.

This road still remains in a dilapidated and neglected condition, with unsuitable rolling stock. The Commissioners regard it as being unsafe. The Legislature has declared the charter of the road forfeited for manifest abuses of its rights and privileges. It may require further legislation to make the forfeiture practically effective. The Commissioners say that it is due to the officials of the road to state that they have always expressed a desire to have it repaired and put in good condition, but they seem not to have the necessary funds.

PORTLAND AND ROCHESTER RAILROAD.

The Commissioners report the continued improvement of this road and its increasing value as one of the important avenues of business to and from the city of Portland. The road is also assuming a prospective importance as one of the through lines from Portland to New York.

The gross earnings of the year have been $142,573 89, an increase over 1872 of $11,009 61. The expense accounts have been $101,595 46; net, $49,975 48. The capital stock of the road is $636,111 80; city of Portland bonds, A, $700,000; city of Portland bonds, B, $357,500; Portland and Rochester bonds, $350,000; bills payable, $188,460 74; total, $2,177,072 60.

Passengers carried, 142,846; tons of freight carried, 64,490.

PORTLAND, SACO AND PORTSMOUTH RAILROAD.

This road is in its usual good and safe condition. It is now operated by the Eastern Railroad Company. The rolling stock is first-class in every respect, and no pains have been spared in keeping it up to the highest demands of usefulness, safety and comfort.

PORTSMOUTH, GREAT FALLS AND CONWAY RAILROAD.

This road is also controlled by the Eastern, and its length of track in Maine is 4¼ miles.

ST. CROIX AND PENOBSCOT RAILROAD.

The track of this road is in fair condition, but needs gravel and new ties, which deficiencies are being supplied. An effort is making to extend the road to Grand Lake stream, or to a connection with the European and North American road. The principal business of the road is in transporting manufactured lumber from Baring to tidewater at Calais. No report of the finances of the road has been made.

New "Chain Bridge" at Washington.

The new wrought iron bridge over the Potomac river, near the Little Falls, says the Washington *Star*, will be completed before May, 1874. The style of the bridge is what is known as the "Murphy-Whipple Truss." It is divided into eight spans; two of 160 feet and six of 172 feet each. The entire length is 1,352 feet. The spans are separate and independent of each other, resting on cast-iron bridge seats, securely anchored to stone coppings; one end of each span is fixed, and the other rests upon friction rollers provided for the expansion and contractions of the iron. The trusses are 28 feet in depth and placed 22 feet apart from centre to centre. Each truss of 172 feet is divided into twelve panels, and each truss of 160 feet into eleven panels of 14½ feet each. The upper cords, main and intermediate posts, are formed of Phœnix column iron, and the lower cords, main and intermediate ties of the forged links, without welds. The posts are fitted to cast iron caps and seats, the bottoms of the former and the tops of the latter being truly turned for that purpose. Turned wrought iron pins, three inches in diameter, lock in one connection the caps of the columns and the diagonal tier, also the bottom cords, the seats of the columns, the diagonal ties, and the floor beam suspenders. The floor beams are fifteen inch Phœnix rolled beams, and the floor joists and flooring are to be of the best North Carolina pine, three inches thick and not over six inches wide, with edges sawed straight, laid close, and securely spiked. There will be no sidewalks, but an iron railing four feet high is to be placed on either side of the carriage way. The width of the roadway is twenty feet, and the bridge is proportioned so as to safely carry, in addition to the weight of the structure, 100 pounds for each square foot of roadway, and the maximum strain produced by this load is 10,000 pounds per square inch of section, or about one-sixth of its ultimate strength. The contract price for the entire work is $94,000.

The Trans-Allegheny Canal.

The engineers who surveyed the proposed routes for the extension of the Chesapeake and Ohio Canal from Cumberland, Md., to the waters west of the Alleghenies, have completed their labors, and are now engaged in preparing a report for transmission to Congress. The survey of last season presents a route different in many points from previous surveys, leading along the Potomac to Savage river, up which it leads to a point selected for the summit level, which requires a tunnel six miles in length, to connect on the west side with the Castleman river feeder of the Youghiogheny. The advantages claimed for the new line are, first, the fact that it leads from Cumberland, Md., directly through the Cumberland coal basin, thirty miles west from the present point of coal shipments, by water, and would thus make a reduction of some eighty cents per ton in cost of handling, and, second, it would open up for operation and use the great coal basin on the west slope of the Allegheny mountain, crossing what is known as the Salisbury coal fields, which are not now extensively worked, because of want of facilities for transportation to a market. The estimated cost of the Savage and Castleman river line, including the tunnels, is twenty millions, and would extend the canal from its present terminus at Cumberland, to Connellsville, on the Youghiogheny, a distance of 120 miles, from which point there is slack water and river navigation to Pittsburg. The water supply is sufficient to fill the proposed reservoirs thirteen times each season, and each time the reservoirs are filled the supply would be amply sufficient to furnish water, allowing for every waste, for one hundred and seventy boats per day for one hundred and ten working days, or a capacity of six millions of tonnage each season of ten months' navigation.

Texas and Mississippi Railroad.

By an act of Congress, approved June 3, 1856, public lands to the amount of six sections to the mile was granted to the State of Louisiana to aid in the construction of a railroad from the Texas State line, via Greenwood, Shreveport and Monroe, in that State, to a point on the Mississippi river, opposite, Vicksburg, Miss. The length of the road when completed will be one hundred and ninety miles. During the first five years of the ten years allowed by the act for the completion of the road, ninety-four miles, or about one-half of the road, was constructed. The late civil war then intervened, during which time the road was almost completely destroyed by military forces of the United States and of the confederate States. Since the war that portion of the road completed prior to the war has been reconstructed and restocked.

An official letter of the commissioner of the general land office, recently transmitted to Congress, shows that more than two thirds of the land granted by the original act lies opposite the uncompleted one half of the road, there being but comparatively a small amount of public land opposite the completed one half of the road. The completion of this road will give to the entire system of railroads east of the Mississippi river a direct connection with the railroads of Texas and the Texas and Pacific Railroad, of which this is the direct eastern prolongation. The House committee on public lands therefore recommend the passage of the bill reviving the grant of lands heretofore made. The grant covered 858,211 acres. The quantity which has not reverted is 100,652 acres, leaving 252,559 acres which have reverted to the United States, and which the bill lately reported by the House committee on public lands would reinstate.

☞ The annual meeting of the Rutland Railroad Company was held in Rutland on the 27th ult. The directors's report showed the affairs of the road to be in a favorable condition. The election of directors was deferred for six months, and the time for the annual meetings of the corporation was changed to the fourth Tuesday in July.

☞ The damage to the large wheel at the Boonton Iron Works has been repaired and the works are in full operation again with large orders. The prospect for steady work is good, and, if no accident occurs to prevent it, full time will be made hereafter.

☞ We learn that the Erie Railway Company are engaged in making a survey of a short cut from Corning to Olean, running nearer to the Pennsylvania line and saving nearly forty miles distance between the two points.

☞ The revenues of the Washington and Georgetown Railroad for the year ending December 31, 1873, were $399,334 92. The cost for carrying each passenger was 4.56 cents.

☞ The Brazilian Parliament has authorized the Government to construct railways and to raise a loan of 40,000,000 milreis for the purpose. This loan may be raised either at Rio Janeiro or abroad, as the Government may think fit; and it is further empowered either to construct the various lines and sections for itself or to accord subventions or guarantees of interest of 7 per cent to contractors. It may be possible for railroad builders in this country to acquire part of this work, as the American system of construction is better adapted for this continent than any other.

☞ The gross revenue of the Atlantic, Mississippi and Ohio R. R. for the past year was $2,193,757 39; the current expenses were $1,279,722 22; leaving a balance as net revenue of $914,035 17; while the corresponding results of the previous year were: gross revenue, $1,969,053 06; current expenses, $1,284,725 14; net revenue, $734,327 92.

Commerce of New York.

We give below, from the *New York Journal of Commerce*, a statement of the Commerce of New York, for 1873, in comparison with that for the five preceding years. The following is a comparative table showing the relative totals imported at New York in each year since 1850:

Year.	Dutiable.	Free Goods.	Specie.	Total.
1851.	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1,814,425	213,556 649
1857.	196,279,362	21,440,794	12,898,033	230,618,129
1858.	128,578,256	22,024,691	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165 516
1860.	201,401,693	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30,353,918	37,088,413	162,768,790
1862.	149,970,415	23,291,625	1,390,277	174,652,317
1863.	174,521,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2,265,622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,583	9,578,029	306,613,184
1867.	238,297,955	11,044,181	3,306,339	252 648,475
1868.	232,344,418	11,764,027	7,085,389	251,193,834
1869.	275,779,976	14,789,235	15,788,462	306,357,673
1870.	289,618,878	13,716,500	11,864,644	315,200,022
1871.	349,635,398	28,878,294	6,348,608	384,862,300
1872.	369,083,458	57,429,020	5,594,208	432,106,686
1873.	293,035,348	86,924,877	18,605,611	398,565,836

Under the head of dutiable, in the above table, are included the goods entered directly for consumption which are subjected to duty, and also those entered in bond for warehousing. These, with the free goods and the specie, make the total landed at the port. Including the specie, the imports for 1873 are $33,540,860 below the total for 1872; but deducting the specie in both years, the falling off in merchandise imports for the twelve months amounts to $46,552,253—a decline of almost one million per week.

The following table will show the classification of imports at New York for the years—

	1871.	1872.	1873.
Dry goods.	$132,480,777	$136,831,612	$114,160,465
Gen. mdze.	246,032,915	289,680,866	265,799,760
Specie....	6,348,608	5,594,208	18,605,611
Total	$384,862,300	$432,106,686	$398,565,836

The following is a quarterly statement of the exports from New York to foreign ports, exclusive of specie, for the years named:

Quarter.	1871.	1872.	1873.
1st.....	$59,716,950	$53,396,192	$63,171,761
2d.....	55 344,997	58,082,291	76,316,120
3d.....	58,243,492	60,209,529	75,764,054
4th	61,360,798	70,191,285	84,993,470
Total....	$234,666,237	$236,859,297	$300,245,405

Foreign imports entered at New York during the years 1868, 1869, 1870, 1871, 1872 and 1873:

ENTERED FOR CONSUMPTION.

	1868.	1869.	1870.	1871.	1872.	1873.
January	$7,855,830	$11,698,755	$11,970,771	$14,189,556	$17,940,512	$17,270,231

Australian Railways.

The proposed new railway lines consist of one from Melbourne to Sale—the Gippsland railway, 120 miles at a cost of £882,000; a branch line from Wangaratta to Beechworth, 22 miles, at a cost of £126,500; a line from Ararat to Stawell, 18 miles, at a cost of £106,575; a line from Ararat to Hamilton, 64 miles, at a cost of £368,520; a line from Sandhurst to Inglewood, 30 miles, at a cost of £172,500; a line from Maryborough to Avoca, 15 miles, at a cost of £86,250; a line from Leigh Road, on the Geelong and Ballarat railway, to Colac, 42 miles, at a cost of £241,500; and a line from Portland to Hamilton, 55 miles, at a cost of £316,250. For this purpose £2,250,675 will be required, and the Government will have to borrow £1,000,000, and take the rest, as appropriated by Act of Parliament from the Land Fund.—*Herapath.*

☞ The Huntingdon and Broad Top Railroad Company, in its annual report of business for 1873, shows a coal tonnage of 474,178 tons, against 318,372 tons in 1872, an increase of 155,806 tons. Of this tonnage 350,246 tons were Broad Top coal and 123,932 tons Cumberland coal. The report shows what may be expected from the opening of this interior route for Cumberland coal to the New York and Philadelphia markets. The tonnage by this route from the Cumberland mines is expected to steadily increase, thus improving the business of the Huntingdon and Broad Top Railroad Company until that long depressed company may be, and at no distant day, fully re-established in credit.

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending January 24, at 163,517 tons, and for the coal year 1,145,883 tons, against 1,285,687 tons to corresponding time last year, being a decrease of 139,754 tons. The bituminous tonnage for the week is 38,747 tons, and for the year 113,140 tons, giving a total of all kinds for the week of 201,264 tons, and for the year of 1,259,023 tons, against 1,390,461 tons to same time last year being a decrease of 131,438 tons.

☞ The sales of the Land Department of the Flint and Pere Marquette Railroad during the past year were 7,407 acres, amounting to $67,797, or an average $9.15 per acre. This is the smallest quantity sold in any one year since 1869, when the first sale was made. The total sales of the department to January 1st were 252,284 acres, amounting to $2,006,897, or an average of $7.95 per acre. About half of the land grant has been disposed of.

☞ Articles incorporating the Rising Sun, Aurora and Hardintown railway have been filed at Indianapolis, Ind. The length of the road is fifteen miles, all in Ohio and Dearborn county, Ind. The capital is $150,000. The Directors are A. C. Downey, J. W. Talbott, R. L. Davis, H. G. Dodd, T. T. Williams, D. J. Rabb, H. O. Espy. The line will connect with the Indianapolis, Cincinnati and Lafayette Railroad.

☞ The directors of the Worcester and Nashua Railroad Company, recently elected, are: F. H. Kinnicutt, Stephen Salisbury, Francis H. Dewey, Isaac Davis, Alexander H. Bullock, Worcester; Calvin B. Hill, Thos. Chase, Nashua; Jacob Fisher of Lancaster, J. E. Smith of Barre. F. H. Kinnicutt was re-elected President, and T. W. Hammond Clerk and Treasurer.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, February 7, 1874.

Stock Exchange and Money Market.

Money has been unusually abundant in the open market through the past week, and borrowers in good standing have had the advantage as to rates in all new negotiations. Call loans have been quoted down to 4@5 per cent to the leading Street houses; and strictly prime discounts have been quoted at 6@7 per cent per annum. The demand has been less active from speculative sources; and fair for mercantile purposes. The comparatively tame movements at the Stock and Gold Boards have had the effect of lessening the inquiry for speculative use. The last weekly bank exhibit shows that the banks hold 27¼ millions more than the 25 per cent of legal tender reserve, as to liabilities, required by the National banking law. The deposits of the City banks show an increase of nearly half a million; and the item of legal tender notes, of nearly a million; while the specie reserve indicates a reduction of about 1⅜ millions. The banks enlarged their loan and discount average, 2⅜th millions, and contracted their circulation abont ⅛th of a million. The U. S. Sub-Treasury reports an addition of about 1⅞ millions to its currency reserve, and over 1⅝ millions to its specie hoard. The City banks reported their average of gold last week at $28,342,100 as against $34,739,100 the preceding week; and their greenback average at $58,877,700, as against $57,883,300, on the previous return. Their deposits stood at 233⅛ millions, giving an increase of $428,000. The loan item was nearly 270 millions, against 269⅝ millions on the former exhibit. The circulation was about 26⅞ millions.

The U. S. Sub-Treasury, last week, enlarged its currency balance $1,890,980, and its coin reserve $1,574,510. Its currency balance at the close of the week was $33,851,811; and its coin reserve $53,901,413. The aggregate receipts of the office in January were $72,485,911, including $10,195,296 from customs; payments on all accounts, $68,757,184, including $9,752,291 of coin interest.

The Gold movement has been very tame and of little interest, during the week. Speculation has shown little, if any, spirit. A moderate inquiry has been noted for customs; with a very light export drain. The extremes of the price have been 111⅛@111¾, closing at 111¾ as against 111⅝ on Wednesday of the preceding week. The specie outflow, last week, was only $297,491. The imports of specie at this port last week were $20,406, and since Jan. 1, $125,753, against $86,049 same time last year.

The customs demand for Gold last week averaged $393,833 a day. The total customs revenue of the Government, in coin, at this port, since July 1, 1873, has been $66,049,091, against $78,820,789 same time in 1872-'3. Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1873, $39,990,314 against $54,676,948 same time in 1872-'3. The export drain of specie since July 1, 1873, has been $24,089,789 against $42,246,842 in 1872-'3.

Foreign Exchange has been in moderate request, and somewhat firmer in price. Bankers' sixty day bills on London closed on Wednesday at $4 84@$4 85; sight bills on London, at $4 87@$4 88. The week's exports of Domestic Produce have been to the currency value of nearly 5¾ millions.

The offerings of the Public Funds have been on a limited scale, while the demand has been moderate, mainly on investment account, with prices generally well maintained. The Public Debt exhibit for January shows a decrease of $1,845,212.

U. S. sixes of 1881 closed on Wednesday of this week at 118⅛@118⅝; U. S. Five-Twenties of 1862, 115¼@115½; U. S. Five-Twenties of 1864 at 116⅝@116¾; U. S. Five-Twenties of 1865 117⅝@117⅞; U. S. Five-Twenties of 1865 consolidated 116¾@116⅞; U. S. Five-Twenties of 1867, 117⅞@118¼; U. S. Five-Twenties of 1868, 117¾@118; U. S. Ten-forties at 114¼@114½; U. S. Fives of 1881 (Funding Loan) 111⅝@111⅞; Six per cent. currency Sixes from 115¼@115½.

Business in Railway and Miscellaneous securities, has been devoid of animation and prices have been somewhat irregular, closing with some show of steadiness, on the reduced volume of dealings.

The investment demand for State and Railway bonds has been good, especially for the latter, which have been quite firm in price. Central Pacific first mortgage six per cents closed at 95¼@95½. Chesapeake and Ohio First Mortgage Bonds, Six per cents, 60@60½.

The outstanding amount of U. S. legal tender notes on Wednesday was about 381¾ millions, showing a further slight decrease during the week.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $5,888,972, as compared with $9,661,598 same week last year. The exports of domestic produce are $5,672,206, as against $5,611,700 last year. The exports of Gold and Silver, $297,491, as against $591,579 last year. The customs in Gold deposited during the week in the New York Office of the Treasury amounted to $2,369,696, comparing with $2,138,000 same week last January.

In the way of general business, a comparatively moderate movement has been reported with values, in several instances, quoted easier and irregular. Breadstuffs, Provisions, Cotton, Hides and Naval Stores, cheaper. Wool, Tobacco, Hemp, Leather and Seeds, steady; Petroleum, dearer; Coffee, much lower. The Metal trade shows a moderate degree of animation in a few specialties, but nothing like general activity. Holders are firm in their views, and do not press supplies on the market. Of Ingot Copper, 800,000 lbs. sold, on private terms, with early deliveries quoted at 25½c.@25⅝c., and future options at 26c. Iron has been in rather more demand on the basis of previous quotations. Sales include 150 tons Coltness Pig, 100 tons Glengarnock do., and 400 tons Wrought Scrap, on private terms. We quote: Eglinton Pig at $41; Glengarnock, $41 50@$42 50; Coltness, $45@$46; Gartsherrie $48; No. 1 American Pig at $35@$36; No. 2 do. at $30@$33; Forge, $29@$31; English Rails at $55@$60, gold; American Rails at works, $62 50@$65; Old Rails, $40@41; Wrought Scrap, $42 50@45. Lead in less demand, with Foreign quoted at 7c., gold, for ordinary, and domestic at 6½c.@6⅝c., gold; Bar, 9¼c.; Sheet and Pipe, 10c. Spelter has been quite dull at 7⅜c.@7⅝c., gold, for foreign, and 8c.@11c. for domestic. Pig-tin has been inactive, but quoted about as before in price, with Straits 27¾c.@28c., gold; English at 26c., and Banca at 32c.@32½c., gold. Tin Plates, have been held in quite moderate demand. We quote: Charcoal Plates at $10 50@$11; Charcoal Terne, $9 25@$10 12½; Coke $8 25@9; Coke Terne 7@$8 75, gold, per box. No important dealings reported. Zinc neglected and nominal. At the Live Stock, Markets, trade has been fairly active, with rates quoted somewhat firmer. Ocean freights, lower, and without notable activity.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

BANKING HOUSE OF FISK & HATCH.

No. 5 Nassau st.,
New York, Feb. 2, 1874.

We buy and sell GOVERNMENT BONDS and GOLD at current market rates; buy Gold Coupons; buy and sell Stocks and Bonds at the Stock Exchange on Commission for cash; receive Deposits, and allow interest at the rate of four per cent; make Collections, and transact a general Banking and Financial business.

We also deal in the CENTRAL PACIFIC and WESTERN PACIFIC GOLD BONDS, which, at present prices, are very desirable for investment.

We are selling also the small balance of the CENTRAL PACIFIC GOLD SIX PER CENT. LAND BONDS at 85 and accrued interest. The immense value of the Company's lands, (some $30,000,000,) together with the enormous and increasing business of the road—reaching last year $14,000,000, of which over $8,000,000 were net, while the interest on the entire bonded debt, including the Land Bonds, is only $3,500,000—render these bonds, as well as all other securities issued by this Company, undoubtedly good.

FISK & HATCH.

☞ Messrs Knoblauch & Lichtenstein, 37 Broad St., N. Y., have for sale, at 87½ and accrued interest, a limited amount of the First Mortgage 7 per cent coupon bonds of the Central Railroad Extension Company of Long Island. These bonds are of the denominations of $500 and $1000 each, due in 1893, with interest payable 1st May and 1st November in each year. The road is an extension of Mr. A. T. Stewart's Central Railroad of Long Island, and is in full operation.

☞ The Dividend (yearly) on the Preferred Stock of the Milwaukee and St. Paul Railway, 7 per cent, is payable March 2, in the new Consolidation Mortgage Bonds of the company at par value. The transfers close Feb. 14. The Consolidated Mortgage for $35,000,000 with L. P. Morton and Russell Sage as Trustees, has been confirmed by the board of directors.

☞ The estimated earnings of the Erie Railway Company for the week ending January 23, are $380,548, and since January 1, $1, 088,283—an increase over the corresponding period of the previous year of $100,687.

☞ It is stated that a plan has been made of the contemplated railroad which is to run from Oak Grove, on the Boston and Maine Railroad through Malden and Saugus, to Lynn. The work involved will be the construction of seven miles of road from Oak Grove to Lynn, by which a new avenue of communication will be opened from Lynn to Boston, by the way of the Boston and Maine Railroad.

☞ A project is being matured for the immediate building of a railroad from a central point in Winthrop, across Breed's Island (now owned by the Boston Land Company) and over the property of the Cary Improvement Company, connecting with the Eastern Railroad near Broadway in the City of Chelsea. This road is intended to take the place of the proposed Boston, Revere Beach and Lynn Railroad.

☞ The officers of the Granite Railway Company, recently elected are: President John S. Tyler; Vice President, John C. Pratt; Clerk and Treasurer, George Lewis.

☞ The Fredericton (N. B.) *Express* says that the New Brunswick Railway Construction Company have decided to proceed with the road as far as Tobique this year. Preparation will also be made for the construction of the bridge at Woodstock. Work will be continued through the winter in the neighborhood of Hartland, Moquart and Muniac. The traffic over the road between St. Mary's and Woodstock is steadilyi ncreasing.

☞ At the annual meeting of the stockholders of the Providence and Worcester Railroad Company, held in Providence, R. I., on the 2d inst., the following gentlemen were unanimously re-elected directors for the ensuing year: Earl P. Mason, Paul Whitin, Isaac Davis, Henry Chapin, William S. Slater, John Carter Brown, Gideon L. Spencer, Elijah B. Stoddard, Lyman A. Cook, Estes Lamb, John C. Whitin, James Y. Smith, George A. Leete, Eben B. Phillips, John R. Balch.

☞ The Louisville and Nashville Railroad Company, in conjunction with the Pullman Palace Car Company, have recently leased the Mammoth Cave property, and will build a branch road from Glasgow Junction to a point near the cave.

☞ At a meeting of the Southern Maryland Railroad Company, held in Washington on the 27th ult., it was announced that before the close of the summer trains would be running from that city to Point Lookout. The work of construction is going on busily. Col. S. S. Smoat was re-elected president, with John C. McKelden, for treasurer, Chas. H. Winder, secretary, and Hon. B. G. Harris and Geo. T. T. Crittenden, solicitors.

RAILROAD IRON.

THE undersigned agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh Rails**, and of any required weight and pattern

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.

This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Cars

having received their special attention, they are prepared to receive orders and to deliver promptly.

They have furnished the following Roads with Narrow Gauge freight cars, viz: Denver and Rio Grande, Kansas Central, North and South R. R. of Ga., Iowa Eastern, Painesville and Youngstown, Ripley R. R. of Miss., Utah and Northern, Costa Rica R. R., C. A., and others.

Photographs of Narrow Gauge cars sent by mail.

C. Billmeyer. D. L. Small. J. H. Small.

The American Wood Carbolizing Co.

Is organized for the purpose of Creosoting Timber for Docks, R. R. Ties, Fence-Posts, Pavements, and all other uses where Timber is exposed to the action of water or air. This Company also proposes to License R. R. Companies and others who desire to erect their own apparatus.

Drawings and specifications of apparatus, either stationary or portable, will be furnished on application.

67,112 miles of Railroad in the United States use annually over twenty-six million Ties for renewing those destroyed by decay.

The preservation of wood from decay and the attacks of marine worms, has been largely practiced in Europe for thirty years; and with such success that the use of natural wood is now the exception; and of all the various methods that have been employed, that in which creosote oil was used, has best endured the test of time.

This Company, benefiting by the thirty years' practical experience in the use of creosote oil abroad, offer to the public a system of application which is adapted to the wants of our own country, in that green wood can be rapidly and thoroughly treated, even better than dry, and the application of the oil, in connection with the use of moderate heat, be made more uniform and effective than is possible by any other means.

Experience has demonstrated that creosote or dead oil is the only substance by which wood can be treated so as to certainly resist the attacks of marine worms.

Creosoted wood exposed in Charleston Harbor was not attacked by the teredo, while natural wood attached to it was completely honey-combed.

It is confidently asserted that Railroad Ties creosoted will outlast three sets of ordinary Ties, and that creosoted Paving Blocks being beyond the reach of decay, will last as long as stone, with all the advantages of an elastic roadway, beauty and economy of construction.

The economy in the use of creosoted wood, where the term of service is trebled, is measured by adding to the wood used, the cost of the labor expended in construction, and the loss of time spent in replacing the structure, when either decay or attacks of marine worms destroy it.

The system of Seely and Pelton, employed by this Company, has been fully examined and indorsed by Gen. McClellan, Gen. Barnes, Gen. Babcock, Rob't Harris, C. B. & Q. R. R., Prof. Silliman, Capt. Eads, Gen. Cram, Gen. Humphreys, Gen. Meigs, Gen. Belknap, Prof. Chandler, Gen. Gilmore, Gen. Newton, A. B. Mullet, C. H. Haswell.

It has been used by the U. S. Government upon the Dykes of the St. Clair Flats, and upon Gun Platforms for the fortifications on the Atlantic coast; upon pavements in New York and Pittsburgh, by the Department of Docks of the City of New York and the Board of Public Works of the District of Columbia.

Detailed information can be obtained and specimens of creosoted wood examined at the office of the Company.

American Railroad Journal.

New York, Saturday, February 14, 1874.

Who Shall Control the Union Pacific Railroad?

There are reasons for believing that the proprietorship of the Union Pacific Railroad is not very tenaciously held, and that the road is now, as it has been for some time, subject to changes of ownership. The stock has been buffeted up and down in the markets; the arm of the government being invoked to aid one or other of the competitors for its control. A renewed contest is now said to be imminent. The parties, or interests who see an advantage in securing the largest ownership of this road, may be roughly described as three several combinations of trunk lines of roads which connect with the Union Pacific at its Eastern extremity, but which have different homes, or bases, on the Atlantic seaboard. They may be styled, respectively, the Boston, the New York, and the Philadelphia parties. Certain Boston capitalists, who early made investments in western roads, of which Mr. J. F. Joy is the prominent and central executive figure, own, or are in close alliance with, the links of a line reaching from Boston to Omaha, *via* Niagara Falls, Detroit, Chicago and Burlington. Between Niagara Falls and Albany there is a choice of routes, which ensures nearly all the advantages of direct control. This combination is rich and powerful; but a large part of their profit, of late years, has been expended in constructing branch lines. Some years ago this party succeeded, through Oakes Ames, in wresting from the hands of the speculators who then held the franchises of the Union Pacific Company, (for there was then but little of the road built) the control of the line. Adverse influences seem to have overcome the captors; for a short time after its completion the Pennsylvania interests were in the ascendant. This Philadelphia combination, the largest, (and by some regarded as the strongest) on the continent—possessing by lease or ownership the control of a continuous line from New York to Omaha *via* Philadelphia, Pittsburg, Chicago and Rock Island—seems either to have been weak-handed, and could not grip so much as they could temporarily grasp; or otherwise to have become enamored of some new and less burdened projected line to the Pacific; for after a very short enjoyment of their victory, we find the Union Pacific resigned back into the hands of the Boston and New York parties combined.

There it remains. The Vanderbilt or New York system, who are now mentioned as the probable successors to the control, are the holders of the New York Central and Lake Shore line to Chicago, and thence, by close alliance with the Chicago and Northwestern, to Omaha. These three rich and energetic combinations are each interested in (1) either securing the control for themselves, or (2) failing that, in preventing its passing exclusively into the hands of the others. It is noticeable in this connection that none of them have thus far entertained designs on the Central Pacific Railroad (the western half of the great overland line,) although that is the most profitable and valuable portion of the whole. It is obviously for the advantage of the Union Pacific to maintain its independence, distributing its through business over each of the three or four eastern lines with which it connects, as a free competition for both freights and passengers shall require; as it is also obviously for the interest of the connecting roads that no favoritism or discriminating policy should be adopted. But the Union Pacific in spite of bad management and reckless financing, has demonstrated its ability to outgrow these legacies of difficulty.

The interests which the government has in the Union Pacific Railroad have been judicially decided to be insufficient to create a trust or authority to interfere with its management or control, except under such circumstances as are not likely to occur—*i. e.*, refusal to carry troops, mails, &c., at ordinary rates. How, then, is the independence of this great and growing trunk line of a thousand miles to be preserved?

It is important to note that the Southern Pacific, or, as it is styled, the "Texas and Pacific" Railroad, or so much of it as lies east of the California boundary, is under the control of the Pennsylvania combination; the Vice President of the parent road being President of the western extension. It is stated that, recently, the Baltimore and Ohio have secured, by lease or otherwise, a through line to Saint Louis, and a diversion to Cairo. At the former point it will have an opportunity to unite with lines to Leavenworth, and thence over the Kansas Pacific to the Rocky Mountains; and at the latter point with the Cairo and Fulton to the Indian territory, whence to the Pacific we perceive a new charter under the name of the "Trans-continental" is being pushed through Congress in the interest of this and other southern lines. The Atlantic and Pacific Railroad which is finished about as far westward as the other projected roads—the Northern Pacific, Texas and Pacific and Trans-continental—is already under the influence of the Pennsylvanians, though apparently held chiefly as an alternative or tributary local line. None of these latter are built; from 1,500 to 2,000 miles are required to give any of them access to the Pacific ports. Many years, probably, must elapse before they can be built. In the meantime the Union Central route is in regular, effective operation, and settlement and trade are growing up along its line. Before any new line can be put in operation to the Pacific, the first one will be so strengthened and built up as to be a formidable competitor.

The organization which is powerful enough, and has given evidence of sagacity and ability to hold

and operate the Union Pacific Railroad, so as to deal impartially with the eastern rival connections is manifestly the Central Pacific Company. The original Pacific Railroad act of Congress authorizes a consolidation of these two portions of this through line without further legislation. Overtures of the kind have been made at times by the Union managers, but uniformly declined. There is no insuperable difficulty about such an union. The basis of agreement is one of terms merely. The Central Pacific, which has a very valuable local traffic besides the through business (which is guaranteed to it by the charter, in any event) has been expending its surplus earnings in the construction of branch lines in California, but might possibly be induced to extend their protecting arm over the Union. The increased value thereby given to the stock and bonds of the Union should be made good to the Central Pacific in some way, in the scheme of amalgamation. At any rate, whether the stockholders of the respective companies come to a common agreement in the matter or not, it is for the public interest that the new lines to the Pacific should be pushed through so as to open the overland business to free competition. But the interesting question remains, "who is to control the Union Pacific?"

Michigan Central Railroad.

Mr. James F. Joy, the President of this corporation, has issued a circular to the stockholders, from which we gather the following facts:

Competition compelling, large reductions of rates have made necessary a great increase of facilities in order to keep up the net amount of earnings. Double tracks, steel rails, enlarged grounds at terminal stations, increased equipment, and extensive repair shops being demanded have been provided, and the work is nearly finished the double track is all steel. The road is in excellent condition, prepared to meet the demands upon it for years to come.

The business for the past six months has not come up to reasonable expectations, owing to various causes, yet the increase in the business for the six months ending with November, 1873, has been $152,418 55. In this period earnings on local freight and west bound through freight fell off $131,494 42, the increase being on through eastern business, and amounting to $283,912 97. The months of December and January show a reviving business, the increase for seven weeks being $212,889 98. The gross increase of business from January 1 to December 31, 1873, was $526,291 03. A balance against the branch roads, amounting to $174,131 98, for the six months, is deducted from the net earnings of the road in the Treasurer's statement. These roads are held as a measure of defence. Improvements upon the Great Western Railway, which connects the Michigan Central with the New York Central and the Erie, have been fully as extensive as upon the Michigan Central, so that both roads are prepared for a heavy traffic. There has never been so heavy a tonnage passing over the line as at the present time, and the prospects are very encouraging for an access of business when the prosperity of the country is once more established.

The Treasurer's statement gives the operating expenses of the road for six months ending December 1, 1873, as $2,162,089 41; interest account, $194,422 33; balance against branch roads, $174,185 98; total, $2,530,647 67; per contra, receipts from June 2 to December 1, $3,119,570 60; balance of income account, $724,965 91; total, $3,844 586 51. The balance carried to new account is $1,313,888 84, the surplus of earnings and balance over expenses, &c. The whole of this balance has been expended upon permanent improvements. The net bonded debt of the road is $8,269,600. Capital stock, $18,788,204. Floating debt, $1,341,368 15. Construction account, $26,316,100 53.

In consideration of the facts above presented the stockholders have voted to pass the usual semi-annual dividend.

Fitchburg Railroad.

The receipts and expenditures of this road for the years ending September 30, 1872 and 1873, have been as follows:

Receipts:	1872.	1873.
From passengers	$524,420 28	$536,645 78
" freight	769,936 20	788,554 55
" expresses.....	30,301 68	29,466 27
" mails	9,391 65	11,165 34
" rents	15,978 01	21,965 86
" interest	261 48	11,514 95
	$1,350,298 35	$1,399,312 75
Expenditures:		
Repairs of road	$141,123 95	$148,957 83
" bridges.. ..	22,158 60	8,434 31

General salaries, office and other expenses	27,380 37	35,630 31
	$1,026,354 48	$1,059,234 10
Net earnings	$323 934 87	$340,078 65

The company have 39 locomotives, 48 passenger, 13 mail and baggage, 540 eight-wheel and 244 four-wheel merchandise, and 85 gravel and coal cars, and 8 snow plows. Number of miles run by passenger trains, 384,429; by freight trains, 331,461; by other trains, 13,191—total, 759,081. Number of passengers carried, 2,040,558; do. carried one mile, 25,706,375. Tons of merchandise carried, 777,268; do carried one mile, 20,908,492. Length of main line, (double track) 50.68 miles; length of Watertown Branch Railroad, 6.60 miles; length of Lancaster and Sterling Branch Railroad, 12.42 miles; length of Peterboro' and Shirly Railroad, 22.62 miles; length of side and other tracks, 39.27 miles—total length of road belonging to the company, 93.32 miles; total length of tracks belonging to the company, 183.27 miles. The report says:

The gross revenue for the year has been $1,399,312 75. The same receipts for 1872 amounted to $1,350,289 35, and the increase for the year is therefore $49,023 40.

The expenses amount to $1,059,234 10, which sum is $32,879 62 more than the like expenditures in 1872. The net earnings for the year are $340,078 65; an increase of $16,143 78, as compared with last year.

After severe storms, or a long succession of adverse winds, large fleets of vessels loaded with coal frequently arrive on the same day, so that we sometimes have from ten to twenty vessels at our wharf awaiting their turn to discharge, and it is impossible for them all to do this without considerable demurrage. To relieve our customers as much as possible from loss on this account, and to increase our facilities for transacting this business, we have constructed substantial coal pockets at Charlestown, and the success attending their operation has exceeded our expectations and greatly reduced the payments made for demurrage.

We have also thoroughly dredged out the channel in front of our coal wharves, and made other improvements for the better accommodation of this branch of our business.

In accordance with the vote passed by the stockholders at the annual meeting in January last, the directors early entered into negotiations with the parties named in said vote, and agreed upon a form of consolidation with the Boston and Lowell Railroad Company which promised the most favorable results. We appeared before the Railroad Committee of the Legislature in aid of the petition presented by the Boston and Lowell Railroad Company, for authority to make such consolidation. We desired consolidation with this corporation, and were also willing to consolidate on equitable terms with the Vermont and Massachusetts Railroad Company, but were finally compelled to remonstrate against and oppose the passage of the bill reported by the committee, as it was designed to force us to amalgamate with a road out of the State not subject to our laws, and forming a broken line by leaving the tunnel and State road between the two roads to be united. This bill was objectionable in many particulars, and although endorsed by the majority of the committee was rejected by the Legislature, as also was the plan reported by the minority of the committee for the State management of the line.

Your directors considered it very important that some arrangement should be made with the Vermont and Massachusetts Railroad Company, by which the two railroads could be operated together or at least in one interest, and after several meetings with the directors of that corporation, we appointed from the stockholders (as requested by the terms of the said vote passed at the annual meeting) a committee, of an equal number with the directors, to act with them as a Committee of Conference. This committee consisted of Messrs. C. A. Welch, of Waltham, E. Murdock, Jr., of Winchendon, Robert Codman, of Boston, Daniel French, of Waltham, and G. W. Gill of Worcester, all of whom are largely interested in our stock. This committee, acting with the directors, have had a number of meetings, and will, we hope, devise some plan to effect the desired object.

The Hoosac Tunnel, now opened through the mountain, will certainly be completed during the coming summer. Although the circumstances and conditions existing at the time of commencing this enterprise have changed in a wonderful degree by the construction of bridges across the Hudson river, and the opening of through routes to the West, a large business must soon begin to flow through the Tunnel, to accommodate which, quite extensive alterations and improvements must be made upon the Troy and Greenfield Railroad, and considerable expenditures will also be required, during the next few years, for the increase of our equipment, the laying down of new tracks, the erection of new buildings, and in the increase of our terminal facilities at Boston. The amount and quality of this business, and the terms upon which it may be transported, will very largely depend upon the action of the Legislature, and the manner in which the line shall be operated, and also, until an independent railroad connection is made with Oswego and beyond, upon arrangements which may be made with the New York Central Railroad. These matters are of the utmost importance, and upon a wise and judicious settlement of them must depend, in a great measure, the success of the line.

On the 8th of October, 1866, our corporation, jointly with the Vermont and Massachusetts Railroad Company, leased the Troy and Greenfield Railroad from the State of Massachusetts, agreeing to keep the same in good repair, and to pay an annual rent of thirty thousand dollars, from the time the road was finished until the completion of the Hoosac Tunnel. This lease will terminate during the present year. The operation of the road, including the stage line necessarily main-

tained over the mountain, while it has been of local benefit to that part of the Commonwealth, has always been unprofitable to us; but as the making of this lease induced the Commonwealth to complete the road, we believe the transaction will ultimately prove remunerative.

As stated in our last report, our Corporation united with the Worcester and Nashua Railroad Company, and leased the Lancaster Railroad for the term of fifty years. The Lancaster Railroad Company did not, however, finish their road at the time (July 1st, 1873,) fixed by agreement for its completion, and on the 12th of July, 1873, the Worcester and Nashua Railroad Company gave us notice, that as the contract for the completion of the Lancaster Railroad has not been fulfilled on the part of the Lancaster Railroad Company, they should wholly abandon the contract, and would proceed no further under the same.

American Iron and Steel Association.

A convention of the various Iron and Steel Associations of the United States was held at the Continental Hotel, Philadelphia, on the 5th inst. The call of the convention was signed by the secretaries of the American Iron and Steel Association, the National Association of Iron Manufacturers, the American Pig Iron Association, the Eastern Iron Masters' Association, the National Association of Nail Manufacturers and the National Association of Crucible Steel Manufacturers. There were delegates from all these associations present, together with delegates from the Western Rail Association.

At a meeting held on the 4th inst. of the American Pig Iron Association, National Association of Iron Manufacturers and the American Iron and Steel Association, for the purpose of effecting a consolidation of the three associations, the following resolutions were adopted:

Whereas, The business of collecting and publishing statistics of production and information concerning new inventions and processes in all branches of iron and steel manufacture, and of caring for the general interests of the whole trade and contributing and dependent industries can best be performed by a single association, which shall be national in name and character; therefore,

Resolved, That the several associations of iron and steel manufactures be asked to commit to the American Iron and Steel Association the general duties above referred to, and that their members are cordially invited to become members of the American Iron and Steel Association, with the understanding that the reorganized body will be made generally representative of all iron and steel interests.

Resolved, That the union of the National Association of Iron Manufacturers, the American Pig Iron Association and the American Iron and Steel Association be now formally declared to be complete under the name of the American Iron and Steel Association.

Resolved, That the Secretary of the National Association of Iron Manufacturers and the Secretary of the American Pig Iron Association be requested to give to the Secretary of the American Iron and Steel Association the names of members in good standing in their respective associations to be entered as members of the American Iron and Steel Association.

Resolved, That the constitution of the American Iron and Steel Association be formally adopted as the constitution of the reorganized body.

At the general convention held on the 5th inst., Hon. David Thomas, of the Thomas Iron Works, Catasauqua, presided, Mr. James W. Shwank was elected Secretary.

On motion of Mr. James I. Bennett, of Pittsburg, the following committee were appointed to represent the manufacturers of bar iron, plate iron, iron rails and pig iron:

Bar Iron—James C. Lewis, Pittsburg; Oliver Williams, Catasauqua; Robert McCarthy, Syracuse, N. Y.; Nathan Rowland, Philadelphia; Geo. L. Reis, Newcastle, Pa.

Pig Iron—W. Firmstone, Easton, Pa.; G. Fuller, Boonton, N. J.; J. H. Moxon, Missouri; C. J. Nourse, Columbia, Pa.; C. B. Herron, Pittsburg; A. B. Cornell, Albany, N. Y.; H. W. Braeme, Poughkeepsie, N. Y.

Plate Iron—James I. Bennett, Pittsburg; Dr. Charles Huston, Coatesville; C. H. Ashburner, Baltimore; C. L. Bailey, Pottstown, Pa.; W. R. McIlvaine, Reading.

Rail Iron—Daniel J. Morrell, Cambria Iron Co.; Captain E. B. Ward, Detroit, Mich.; I. A. Fuller, Cleveland Iron Co.; Chester Griswold, Troy, N. Y.; W. E. C. Coxe, Reading, Pa.

On motion of Mr. Joseph M. Wharton, the officers of the American Iron and Steel Association were declared the officers of the convention. The officers are:

President—Samuel J. Reeves, of Philadelphia.

Vice Presidents—E. B. Ward, of Detroit; A. S. Hewitt, of New York; S. M. Felton, of Philadelphia; James I. Bennett, of Pittsburg; James Park, Jr., of Pittsburg.

Secretary—James M. Shwank, of Philadelphia.

Treasurer—Charles Wheeler, of Philadelphia.

Mr. Samual J. Reeves took the chair.

On motion of Mr. Joseph M. Wharton, the committee appointed to represent the iron and steel manufacturers were constituted the executive committee of the convention.

A memorial to Congress, read in committee on the previous evening, was called up by Hon. D. J. Morrell. The memorial sets forth, that the iron manufacturers were seriously embarrassed by the financial panic, being obliged partially or wholly to suspend operations; and, though business is reviving, the iron and steel industries continue to be gravely embarrassed. The memorialists endure patiently the season of general calamity, and await with confidence such measures of general relief as Congress may devise for the benefit of the country. Believing that Congress is willing to be aided in this important labor, they express their views touching certain projects of legislation.

Therefore they urge the repeal of the second section of the act of June 6th, 1872, which made a reduction of ten per cent in the duties on a large number of staple articles, and which tended to discourage home production. This repeal is urged, not so much as a protective measure, as for the benefit of the National Treasury; as by the reduction the public revenue has been injuriously affected. The memorialists do not favor the proposition to amend the tariff laws by excluding the cost of packages and shipping charges from the invoice value of foreign goods upon which duties are to be assessed.

Relative to the bankrupt act, the memorialists believe that the power given to a single creditor, under the present bankrupt law, to force a debtor into bankruptcy against the will and to the injury of all others having claims upon the estate, is unjust in principle and disastrous in practice. The law should be so amended as to give to three-fourths of the creditors in interest the right to control the settlement of the affairs of an insolvent.

The memorialists further express their anxiety concerning the revised and codified laws of the United States, having learned that it is not an exact transcript of existing statutes, and they fear that the slightest changes in the schedules of customs duties may be most injurious to the business interests and the public revenue.

They suggest the creation of a Department of Industry, having a cabinet officer at its head, to be entitled Secretary of Industry. Under it every business question which becomes a subject of national concern might have appropriate reference, and commercial committees thus relieved of onerous labors, while there would be less danger, also, of partial or negligent legislation.

After discussing financial topics the memorialists recommend the following measures:

"First. Limitation of the issue of legal tender notes to $400,000,000. Second. Repeal of the limitation upon the currency and freedom of bank circulation under the National Banking laws, subject to such regulations as will tend to afford at all times an adequate supply of currency for the needs of legitimate business, and to prevent such periodical gluts as lead to injurious speculations. Third. Consolidation of the national debt in a loan bearing a low rate of interest, which shall be the sole basis of banking, and may be redeemed and retired only by purchase in the open market by the Government."

A resolution, offered by Mr. G. B. Stebbens, recommending a more careful assortment of kinds and a more critical classification of qualities and per centage of iron in the ore as of great importance to producer and consumer, was agreed to.

Mr. Z. S. Durfee, of New York, offered a resolution that a committee be appointed to consider whether the iron makers of the country, as a whole, can do anything to develop new railroads and cheapen the cost of their construction, which was referred to the Executive Committee.

Mr. W. E. C. Coxe offered the following, which was adopted:

Resolved, That we cordially approve the proposed exhibition of iron ores and products at the Centennial Exhibition, and promise our individual co-operation to the American Iron and Steel Association in securing a just representation of the iron resources of the country.

The following resolution offered by Mr. James I. Bennett, of Pittsburg, was also adopted:

Resolved, That the satisfactory progress of shipbuilding in the United States, and the especial activity in the construction of iron vessels for ocean commerce, is satisfactory evidence of the beneficial operation of the Registry laws, which should not be changed so as to allow free trade in ships, to the serious detriment of this growing industry, without conferring upon the carrying trade any real or permanent advantage.

☞ The following gentlemen have been elected directors of the Baltimore and Ohio Railroad Company on the part of the City of Baltimore: James Webb, Simon Kemp and Charles H. Nicolai, of the eastern section, and Robert T. Banks, Thomas White, John F. Wiley and A. R. May, of the western section of the city.

Des Moines and Ft. Dodge Railroad.

The Des Moines Valley Railroad Company, Western Division, has been reorganized under the name of the Des Moines and Fort Dodge Railroad Company, and the following gentlemen elected directors: George Bliss, John L. Ludlum, F. C. M. Paton, David E. Green, Charles Dana, Charles E Whitehead, George B. Smythe, John A. Elliott and C. C. Nourse.

At a meeting of the Board, at the office of Morton, Bliss & Co., Charles E. Whitehead was chosen president.

The President was authorized to immediately issue the stock of the company, and bonds to the amount of $2,400,000 secured by a first mortgage on the whole line of the road.

The Effects of the Panic upon the American Iron Trade.

The following is an extract from the Report of the Secretary of the American Iron and Steel Association read at a special meeting held at their rooms, No. 265 South Fourth St., Philadelphia, on the 4th inst.:

Since the opening of the new year the efforts of this office have been largely directed toward the collection of accurate information showing the effect of the panic upon the home iron trade. At the beginning of the panic, in September last, no industry in the country was so injuriously affected as the manufacture of iron and steel. Later in the year other industries partly revived, but no signs of a revival in the iron trade were apparent until near the close of December, when large quantities of pig iron changed hands at very low figures, some of them certainly not representing the cost of manufacture. Many of these sales were entirely speculative. These transactions gave encouragement to the belief in some minds that the effects of the panic upon the trade had been spent, and the business in the future would continue steadily to improve. These anticipations have not been realized. January was a very dull month in every branch of the iron business, and February opens with no brighter promise. At the end of almost five months of panic, the general iron trade of the country is very little nearer to a condition of health and prosperity than at the beginning. The reasons for this unfavorable situation will appear at a glance.

The quantity of iron of all kinds—railroad, bar, and pig—which has annually been required by the railroads of the country during the past few years has been more than one-half of the total iron production and importation of the country. This quantity has been required for new track, for relaying old track, for locomotives, cars, car-wheels, bridges, &c. The panic almost stopped the construction of new railroads and repairs to existing roads, and it compelled railroad companies to be so economical of their resources that few orders for new locomotives, cars, and bridges have since been given out. Here is the principal cause of the continued dullness in the iron market, and until railroad companies re-enter the market for the supply of all kinds of railway material there can be no general improvement in any branch of the iron business. How soon they will do this does not now appear. Other but subordinate causes of the continued dullness of the iron trade may be found in the interruption caused by the panic to all business operations largely requiring iron, such as the construction of iron buildings, agricultural implements, sewing-machines, stoves, ranges and heaters, mill-machinery, &c., and to the enforced economy of the people in dispensing with minor articles of iron manufacture which they could temporarily do without.

Having in general terms stated the effects of the panic upon the iron trade of the country we now proceed to present detailed information showing the condition of the trade at the beginning of January. This information has been derived directly from correspondence with the manufacturers of pig-iron and railroad iron, the two most important branches of the trade. The figures which we shall present concerning these branches will serve as a correct index to the situation of the merchant bar manufacture, the next most important branch.

BLAST FURNACES.

At the close of 1873 there were 650 blast furnaces in the country which were either making pig-iron or were prepared to make it. Returns have been received during the month of January from 385 of these furnaces, or about three-fifths of the whole number, showing the number of stacks in blast, the number out of blast, the number of tons of pig-iron on hand and unsold on the 1st of January, and the number of hands then out of employment. These returns are tabulated below:

RECAPITULATION.

Charcoal	147	105	42	99,076	6,209
Anthracite	126	83	43	83,340	2,686
Bituminous coal and coke	105	56	49	117,414	3,287
Coke and anthracite coal	4	2	2	8,000	165
Bituminous coal and charcoal	3	1	2	600	175
Total	385	247	138	308,430	12,522

Assuming that a proportionate number of the furnaces not heard from were out of blast, and had a proportionate quantity of tons of pig iron on hand and unsold Jan. 1, the total number of stacks out of blast at that date would be 233, thirty-six per cent of the whole number; the total quantity of pig iron on hand and unsold would be 520,726 net tons; the number of hands out of employment would be 21,141.

RAIL MILLS.

Of fifty-seven rail mills in the country which are prepared to make rails of heavy sections, returns have been received during January from fifty. Of the seven not heard from, one is certainly known to be idle, leaving only six from which no information has been received. Of these six, four are mills of small capacity. From the fifty reporting mills the following information has been received:

Whole number of rail mills	57
Number of mills making returns	50
Number of mills running Dec. 31, 1873	17
Number running full time	10
Number running half time	7
Number standing	33
Number proposing to resume in January	10
Number uncertain about resuming	23
Number of hands wholly unemployed	11,490
Number of hands employed half time	10,150
Number of mills selling rails	13
Number of mills not selling rails	37
Net tons of rails on hand and unsold Dec. 31	86,744

From the foregoing tables it will be seen how severely the two leading branches of the iron trade were affected by the panic at the beginning of the new year. Over 30,000 hands were wholly unemployed, and over 10,000 were employed only a part of their time. These figures it must be understood, do not include many ore and coal miners not directly connected with furnaces and rail mills, but who are out of employment in consequence of the general interruption to the iron business. Half a million tons of pig iron were unsold and in the makers' hands, and over 86,000 tons of rails were awaiting a purchaser. From a trustworthy source we also learn that there were in New York at the beginning of the year over 40,000 tons of foreign rails unsold. Statistics in our possession also show that the wages of all iron workers had been largely reduced, and that

such few mills as had been able to make sales of rails had been compelled to accept offers averaging twenty-five per cent below the prices which had prevailed before the panic. These figures do not require comment at our hands, but they should receive the careful consideration of Congress and the country.

IRON ORE STATISTICS.

The quantity of iron ore shipped from the Lake Superior region during the year 1873, according to the Marquette *Mining Journal*, was 1,163 057 gross tons, against 952,055 gross tons in 1872. Increase, 211,002 tons. These figures only represent shipments, and do not include the ore consumed in the production of 63,195 gross tons of pig iron in the district in 1872, and 74,507 tons in 1873. It should not be inferred that the difference between the ore product of 1872 and 1873 is correctly expressed by the figures above given; for nearly all of the ore produced in 1872 was shipped to greedy buyers, so great was the demand for pig iron, but much of the ore actually mined in 1873 was not shipped, owing to the panic and other causes. In December last the *Mining Journal* estimated that nearly one third of the ore which had been mined with the expectation of realizing on it in the season of 1873, was still in the hands of the mining companies.

Four mines unitedly shipped over 500,000 gross tons of ore in 1873; Lake Superior, 166,666 tons; Cleveland, 132 082 tons; Jackson, 113,892 tons, and Republic, 105,452 tons. These were closely followed by the Champion mine, 72,882 tons, and the New York mine, 70,982 tons. Shipments were made from 42 mines during the year. The estimated value at the ports of shipment of all the ore shipped was $8,141,000.

The price at Cleveland of first-class Lake Superior specular ore at the beginning of 1873 was about $12. After the panic the price fell to $10. The probability is that the price for 1874 will be about $9.

The statistics of the production of Missouri ore are withheld by the operators. The price of Iron Mountain ore delivered at St. Louis was $10 in 1870 prior to the panic. It is announced that the price of the same ore for 1874 has been fixed at $8, delivered at St. Louis.

Utilization of Mineral Waste Products.

"There are numerous useful applications of mineral waste that might be cited. Immense heaps of refuse, or 'tailings,' as they are technically termed, accumulate where mining operations are carried on upon a large scale, as in Australia and California. These contain a good deal of metal, which is now frequently economically recovered. The Chinese especially manage to make profits out of old waste-heaps. A mine-owner at the Sandhurst gold field, in Victoria, sold the right to wash a large heap of tailings to the Chinese three times, and each time the men seemed satisfied with the result of their labors. There are immense heaps of tailings containing auriferous pyrites in Victoria, which, if properly stacked and operated upon on a large scale, would yield nearly all the gold they contain, at but little cost of money or labor. The yield of gold thus obtained in Victoria from 1869 to 1871, by operating on about 8,200 tons, was at the rate of rather more than two ounces fourteen pennyweights per ton. At one large establishment twenty-five tons of pyrites on the average are now treated per week, the yield being at the rate of more than three ounces six pennyweights of gold per ton.

"Some few years ago, the Greek Government sold for a mere trifle to two foreigners their right over the rubbish heaps at the Laurium mines, which were first worked several thousand years ago, by the King of Athens, from the profits of which Pericles is said to have built the Parthenon. A company was formed to rework them, for it was soon found that even the *debris*, which had been cast aside by the ancients as worthless, possessed great value. Extensive beds of scoriæ, the refuse of the silver and lead mines worked during eight centuries by the Athenians, now yield to modern metallurgic skill some 7,000 to 8,000 tons of lead annually, which contains silver in the proportion of about one-half per cent. The company now conduct their operations on so large a scale, that a town containing 4 000 inhabitants has sprung up on what was formerly a solitude; a railway has been constructed to the nearest port, and a small vessel plies twice a week between Argosteria and Piræus, for the transport of the argentiferous tailings to the roasting furnaces, of which there are twelve at work.

"When sulphur became scarce and dear, owing to the monopoly in Sicily, our manufacturers who depend so much upon sulphuric acid, looked about where they could supply the demand, and pyrites, a waste mineral substance, was seized hold of, and now we import upwards of half a million tons annually from abroad, of the value of more than £1,400,000, besides a quantity obtained at home. The residue of the iron pyrites, after extracting the sulphur, is used in blast and puddling furnaces.

"There exist in various parts of the globe sea-beaches and beds of titaniferous iron-sand, a material formerly valueless. Now it has begun to be utilized in various ways as a molding sand, for making paint, and the manufacture of high-class steel.

"Other instances of the useful application of formerly waste substances that might be cited, are the petroleum oils, now forming so extensive an article of commerce, the asphalts, ozokerit, asbestos, etc., to say nothing of the immense trade in old scrap iron, old lead, and copper, and the recovery of tin from tin clippings. The slag and scoriæ of metals have now many industrial applications. The alkali and other wastes recovered from our chemical manufactures form now very profitable industries."—*From "No Waste in Manufactures," in* AMERICAN ARTIZAN *for February.*

Lehigh and Wilkesbarre Coal Company.

In the year 1820 the Lehigh Coal Mine Company (incorporated in 1793) and the Lehigh Navigation Company (formed in 1818) amalgamated, assuming the title of the Lehigh Navigation and Coal Company. Subsequently, in 1821, the title was changed to Lehigh Coal and Navigation Company, and this corporation, says a correspondent of the *N. Y. Times*, writing from Philadelphia under date February 7, 1874, was the only one that operated in the region until 1825. The mines were located nine miles from Mauch Chunk, and in 1827 a railroad was completed between the two points. The Lehigh slack water navigation was opened in 1829, and in 1837 the company began the construction of the Lehigh and Susquehanna Railroad, which connected the waters of the Lehigh at White Haven and the Susquehanna at Wilkesbarre. This was the foreshowing of a connection of the wonderful coal interest of the Lehigh and Wyoming regions, which has been fully consummated within the last few days, by the consolidation of the Honey Brook Coal Company with that of the Wilkesbarre Coal and Iron Company under the title of the Lehigh and Wilkesbarre Coal Company. The Wilkesbarre Coal and Iron Company was organized in 1864, its base of operations centering in the very heart of the rich coal district of Luzerne County. This corporation began business with nearly $4,000,000, and included in its property 6,000 acres of coal territory together with many thousands of acres of timber lands. The company has developed into a gigantic concern, the stockholders, it seems, preferring to invest their profit in new purchases and improvements rather than to declare a dividend.

The majority of the stockholders of the Honey Brook Company are composed of the same capitalists as those identified with the Wilkesbarre Coal and Iron Company.

The new combination has also taken up the collieries of the Lehigh Coal and Navigation Company, whose property is situated in the Lehigh and Wyoming region. The newly organized company now owns the subjoined valuable and extensive properties:

The Lehigh Basin, running from Mauch Chunk to Tamaqua, equal to nine square miles; the Honey Brook Basin, from Andenried to the Girard estate, equal to six square miles; the Wilkesbarre Basin, extending from Wilkesbarre to Newport, equal to ten square miles. One great advantage possessed is, that the land in each district lies together, not being in detached portions like that of the other large operating corporations, and contains the large amount of 900,000,000 of tons, calculated from surface indications alone.

The new combination is an adjunct of the Central of New Jersey, the largest proportion of the stock being held by the parties controlling the railway company. John Taylor Johnston, President of the latter company, being a director of the Lehigh and Wilkesbarre Coal Company, which will give the New Jersey Central a voice in the management. As regards the annual amount of production, the yields of the Wyoming and Lehigh regions, which are almost exclusively controlled by the recently formed consolidation, was 12,701,845 tons in 1872; but these figures were largely augmented in the operations last year, and will be still further increased by business of the present year.

The great leading spirit of this new company, is Charles Parrish, of Wilkesbarre, and the late President of the Wilkesbarre Coal and Iron Company. They possess every facility for transportation as well as excellently well adapted and located points of shipment at Elizabethport, Port Johnson, and Hoboken, N. J.

As has already been announced, no anthracite will be mined or shipped by the new organization at any of their collieries until March 1.

Illinois Central Railroad.

The statement of this Company for the month of January, 1874, is s follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	1,936.01 for	$14,119 93
Acres Free Lands Sold	119.40 for	1,194 60
Total sales during the m'th of January, 1874	2 055.41 for	$15,314 53
Cash collected in Jan., 1874		$37,143 02

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois. 707 Miles.	In Iowa. 402 Miles.	Total. 1,109 Miles.
Freight	$317,067 00	$78,894 00	$395 961 00
Passengers	98,746 55	26,013 45	124,760 00
Mails	6,375 00	3,059 32	9,434 32
Other sources	78,625 00	2,710 68	81,335 68
Tot'l Jan. '74	$500,813 55	$110,677 45	$611,491 00
Total actual earn'gs, Jan., 1873	$523,531 79	$78,708 83	$602,240 62

The Iowa Lines are leased by this Company for a term of twenty years from October 1st, 1867, at an annual rental of 35 per cent. of the gross earnings for the first ten, and 36 per cent. for the second ten years, for the D. & S. C. R. R. and I. F. & S. C. R. R., and $1,500 per mile per annum for the C. F. & M. R. R.

☞ The officers of the Lehigh and Wilkesbarre Coal Company (recently formed by the union of the Wilkesbarre Coal and Iron Company and the Honeybrook Coal Company) are: President, Charles Parrish; Directors, John Taylor Johnston, J. P. McCreary, Samuel Bonnell, Jr., L. Mumber, Charlemagne Tower and James P. Johnston; Treasurer, Wm. H. Tillinghast; Secretary S. Mc Henry.

☞ The earnings of the Philadelphia and Erie Railroad Company in 1873 were $3,842,067; expenses, $3,413,310, leaving a net profit of $428,756.

☞ The Central Railroad Company of New Jersey for the year ending December 31, 1873, carried 3,089,697 tons of coal over the Lehigh and Susquehanna Division, being an increase of 22 26 per cent on their tonnage for the previous year. Of the above amount there was forwarded east by rail from Mauch Chunk 2,118,462 tons, being an increase of 22.51 per cent on the tonnage of 1872.

Product of the Lake Superior Mines and Furnaces.

ORE SHIPMENTS FOR 1873.

The following table exhibits in gross and net tons the amount of iron ore shipped from the Lake Superior mines during the season of 1873, together with its total value of $7 per ton, gross:

Mines.	Gross tons.	Pounds.	Amount.
Jackson	113,892	740	$797,246 81
New York	70,882	600	496,170 80
Cleveland	182,082	820	924,576 56

PRODUCTION OF THE FURNACES FOR 1873.

The following table shows the aggregate production of the several furnaces in the district for 1873, together with the value of the iron ($45) at furnace:

Furnaces.	Gross tons.	Value.
Pioneer	7,098	$319,440
Collins	2,000	90,000
Michigan	4,467	201,015
Greenwood	4,416	198,720
Bancroft	4,100	184,500
Morgan	6,324	284,580
Champion	3,949	177,705
Deer Lake	3,447	155,115
Fayette	10,696	481,320
Bay	8,760	394,200
Munising	2,337	100,665
Grace	7,800	351,000
Beecher	710	31,950
Beecher (muck bar)	428	25,680
Lake Superior Company's peat furnace	500	22,500
Escanaba (shipped to Nov. 19).	2,175	97,875
Menominee	2,400	108,090
Total	71,507	$3,224,235

TOTAL PRODUCT OF THE MINES.

The following table exhibits in gross tons the aggregate product of each mine from 1856 to 1873, inclusive of both:

	Gross tons.
Jackson	1,311,117
New York	521,662
Cleveland	1,157,343
Lake Superior	1,442,585
Marquette	55,146

TOTAL PRODUCT OF THE FURNACES.

The following table shows the total product of the Lake Superior furnaces from 1858 to 1873, inclusive:

	Gross tons.
Pioneer	72,695
Northern	16,068
Collins	43,949
Michigan	31,812
Greenwood	33,768
Morgan	43,315
Bancroft	43,351
Champion	29,515
Fayette	46,181
Munising	12,294
Deer Lake	14,000
Bay	20,755
Grace	7,800
Beecher	6,652
Beecher (muck bar and merchant iron)	4,427
Lake Superior Company's peat furnace	700
Escanaba	2,175
Menominee	2,400
Total	428,857

TRAFFIC OVER THE RAILROADS.

The iron traffic for 1873 was divided between our two railways as follows:

IRON ORE.

Over Marquette, Houghton and Ontonagon Railroad	659,894
Over the Chicago and Northwestern Railroad	503,932
Difference in favor of Marquette, Houghton and Ontonagon Railroad	155,162

PIG IRON.

Over Marquette, Houghton and Ontonagon Railroad	21,999
Over the Chicago and Northwestern Railroad	9,248
Difference in favor of Marquette, Houghton and Ontonagon Railroad	12,751
Total ore and pig iron over the Chicago and Northwestern Railroad	513,180
Total ore and pig iron over Marquette, Houghton and Ontonagon Railroad	681 893
Total shipments by rail	1,194,304

With a difference of 168,713 tons in favor of the Marquette, Houghton and Ontonagon Railroad.

The small excess in our table showing the product of the district is accounted for by ore teamed from one or two mines to local furnaces.

AGGREGATE YIELD OF MINES AND FURNACES.

The following is a statement in gross tons of the aggregate yield of the mines and furnaces in this district from 1856 to 1873, inclusive, together with the value of the same:

	Iron Ore.	Pig Iron.	Ore and Pig Iron.	Value.
1856	7,000	.....	7,000	$28,000
1857	21,000	.....	21,000	63,000
1858	81,035	1,620	82,664	249,202
1859	65,679	7,258	72,937	575,529
1860	116,908	5,660	122,568	783,496
1861	45,480	7,970	53,450	419,501
1862	115,721	8,590	124,311	984,977
1863	185,257	9,813	195,070	1,416,985
1864	235,128	13,832	248,955	1,867,215
1865	996,256	12,283	208,589	1,590,480
1866	296,972	18,437	15,409	2,405,960
1867	466,076	30,911	496,987	3,475,820
1868	607,813	38,246	646,059	3,992,413
1869	633,288	39,003	672,241	4,968,435
1870	856,471	49,298	905,769	6,300,170
1871	813,879	51,225	864,604	6,115,895
1872	952,055	63,195	1,015,250	9,188,055
1873	1,163,057	71,507	1,284,564	11,366,633
Total	6,708,470	428 857	7,137,327	$55,748,666

—*Marquette Mining Journal.*

☞ The Philadelphia *Ledger* reports the total anthracite coal tonnage for the week ending January 31, at 255,529 tons, and for the coal year 1,377,827 tons, against 1,538,825 tons to corresponding time last year, being a decrease of 160,998 tons. The bituminous tonnage for the week is 87,311 tons, and for the year 140,451 tons, giving a total of all kinds for the week of 298,840 tons, and for the year of 1,528,278 tons, against 1,678,842 tons to same time last year being a decrease of 150,564 tons.

☞ The estimated earnings of the Erie Railway Company for the week ending January 31, are $379,367, and since January 1, $1,462,650—an increase over the corresponding period of the previous year of $136,147.

☞ Mr. Ashbel Welch, of Lambertville, N. J., has been elected President of the Belvidere Delaware, the Mercer and Somerset, and the Flemington Railroad Companies.

☞ The Camden, Gloucester and Mount Ephraim Railroad has been completed, between Keighn's Point and Gloucester, N. J.
